

## The Eccentric Professor Who Made Vegas Change the Rules!

Back in 1962, a mathematics professor published a book that convincingly demonstrated blackjack can be systematically defeated - using mathematically proven "card-counting" strategies.

Now, let me emphasize, the man who invented this system was not some slimy Vegas lounge lizard. In addition to his prestigious professorship, he also had a Ph.D. and was a member of both the American Mathematical Society and Phi Beta Kappa.

And get this: Blackjack wasn't this man's first venture into gambling. In the 1950s, he helped develop the first wearable computer and used it to beat the game of roulette. But the professor figured out that blackjack was the easiest game to beat.

And beat it he did! The card-counting system was so effective that the professor became a bit of a celebrity. *Life* magazine interviewed him...and his book became a *New York Times* best seller!

In fact, so many people started using the card-counting system that Vegas casinos changed the rules of blackjack to avoid being cleaned out!

Today counting cards isn't so easy. Casinos employ specialized security agencies to spot potential card counters. They even use sophisticated face recognition technology to keep card counters away from their tables. And as private establishments, they can eject or ban anyone they see fit.

But that's OK, because we don't need Vegas. That fact is...

## Wall Street Is an EASIER MARK!

As I mentioned before, ABC News reported that a team of six MIT students used card-counting strategies to take Vegas for over \$3 million. They had a good run. But Vegas got wise - and now these kids can't get anywhere near a blackjack table. They are literally out of business!

Here's the thing, though: **Wall Street can't kick you out!**

**But you can use my CXS System all day long - every day of the week - to gain a powerful and lucrative statistical advantage over Wall Street...**

**...and there is nothing they can do about it!**

You could pile up winnings of several million dollars...rub it in their faces...and Wall Street still can't ask you to leave.

The man who invented card counting certainly understood this. So instead of wasting his time choking on secondhand smoke in some seedy Vegas casino, he uses his card-counting system to make millions in the stock market.

In fact, he founded his own investment firm. And using many of the card-counting strategies he developed, the firm went on to become one of the most consistently successful investment firms in history.

But that's not all! In 1983, the mathematics professor executed what was then the New York Stock Exchange's all-time largest dollar-value block trade!

Obviously, this guy is loaded. And it's all because he took a powerful

gambling strategy and applied it to the stock market.

**And you could do the same!** My CXS System will give you the tools you need to legally cheat Wall Street on a daily basis. I'm going to show you how.

But first, let me give you a quick lesson in the art of counting cards!

## Card Counting 101

In the game of blackjack, the odds are constantly moving back and forth between the player and the house...depending on which cards have already been played. Card counting is the process of keeping track of cards as they are played. And by watching the game closely, a player can get a good idea of the cards already dealt.

I won't get into the specifics, but basically, card counting follows two principles:

**Card Counting Rule #1** - When a high proportion of 10s, kings, queens, jacks and aces have already been played, the deck is unfavorable for the player.

**Card Counting Rule #2** - On the other hand, when smaller cards such as 2s, 3s, 4s, 5s, 6s and 7s have been played, the deck is favorable for the player.

Card counting allows players to know when there are more high cards than low left in the deck. When the odds are good, you raise your bet...When the odds are low, you keep your bet small.

*"Mr. Boric, You've made me a LOT of money in the less than a year I've been a subscriber. Keep up the good research."*

**- Ian Clayton, PSF  
Subscriber**

By betting big when the odds are in your favor, and NOT betting when the odds are against you - you can make a bundle at the blackjack table.

**Penny stocks offer the same opportunity - only better!**

In fact, CXS takes card counting to a new level. It uses a complex mathematical formula to calculate the best opportunities on Wall Street. And the results have been nothing less than phenomenal. In fact, in its brief history CXS has generated stunning gains of 233%...146%...221%...86%...147%...and more!

As you can imagine, my readers are delighted. Take a look at what a few of our happy subscribers have to say:

*'I bought 4,000 shares of CDE on 7/10/03 at 1.57 and sold 3,000 today at 5.43, for 245% gains! Thank you. I also made 114% on 10/8/03 when I sold 200 shares of China Yuchai (CYD). I held back 100 shares, however, and at this time it is up 322%! Keep up the good work! I will never go back to letting 'Financial Advisers' handle my investments.'* - Henry Balboni, PSF Subscriber

*'Just to let you know, I bought CDE at \$ 1.33 and recently sold it at \$5.29. What a great trip that was. Thanks for your expertise.'* - Mary Lou Thornburg, PSF Subscriber

*'I subscribed to your service a short time ago and subsequently purchased OMN, CDE, CYD and SVM on your advice. Imagine my delight at realizing gains of 15.6%, 124%, 149% and 10% respectively.'* - D.L., PSF Subscriber

I urge you to give my CXS system a risk-free try. I'll show you how to reserve your space in just a moment. But first, let's take a look at how the

CXS System works...

## **CXS System Takes Card Counting to a New Level!**

In blackjack, a player counts cards to determine the very best time to place his bet. My CXS System works the same way. **It puts the odds in YOUR FAVOR!**

Listen: There are over 9,000 stocks trading every single day. With all those companies to choose from...your odds of hitting the right stock at the right time are slim to none.

**CXS narrows down a massive universe of 9,000 stocks...**

**...and presents you with the one or two very best opportunities to triple your money in a matter of months...weeks...or even days!**

It constantly scans the stock market, looking for the very best opportunities to make money...with the least amount of risk.

And make no mistake: **We are VERY SELECTIVE!** In fact, only 0.0003% of all stocks ever qualify for CXS investment status.

**Here's how it all goes together...**

**Every day, my CXS scientific system scans over 9,134 companies and evaluates them on a strength rating between 1 and 10.**

The strength rating is determined using the most trusted and consistent fundamental indicators in the market today, including: *net income...insider volume...price-to-sales ratio...price-to-earnings ratio...price-to-book...and*

*market capitalization*, just to name a few.

Stocks with weak scores of 1-4 are filtered out. Stocks with ratings of 5 and 6 also get eliminated. Even stocks with a rating of 7, which most investors would consider excellent, get filtered out. Most days, nothing comes back 8 or higher. But when it does, we move fast.

Once the CXS System isolates a stock with an 8 or higher, my staff and I check it out thoroughly. We verify the balance sheet. We scrutinize the business model, which sometimes means digesting hundreds of pages of SEC documents.

If need be, we call the CEOs, CFOs and investor relations personnel. We double-check income statements, price ratios, industry data and news clippings.

If after all that, the stock that CXS scores as a 8 or higher still holds up - we send out an immediate e-mail alert recommending that our PSF members buy.

Look: You don't bet big on every hand in blackjack, and you don't throw money down on every stock Wall Street touts. You play to your advantage. You play by your own rules.

**And with CXS, you ONLY invest when the odds of success are VERY HIGH.**

Now, there is something unique you need to understand about the CXS System. We ONLY invest in penny stocks...those stocks with a price under \$15 per share.

Why does CXS stick exclusively with penny stocks? Well, I truly believe

that...

## **Penny Stocks Are the ONLY Way for the Individual Investor to Get RICH!**

Blackjack has proven itself to be the ONLY game in which the player can gain a mathematical advantage over the house.

And penny stocks offer the single-best investment opportunity on Wall Street. They give individual investors the best chance to gain an edge - and grow rich!

Think of it this way: Let's say you buy a big blue chip stock like IBM - trading for \$50. If it goes up \$5...you have a healthy gain of 10%.

Not bad. But you aren't gonna retire on that anytime soon.

On the other hand, let's say you buy a penny stock - trading for 50 cents. If the penny stock goes up by the same \$5, you just made 10 times your money! That's a...

**1,000% gain on a relatively small \$5 increase!**

I think you'll agree: Those kind of gains could secure your future, and put you in the driver's seat of life within a few short weeks.

Now, I know what you're thinking...Penny stocks are risky, fly-by-night lottery tickets. No smart gambler would put his money down on a penny stock.

**Think again! Penny stocks are tomorrow's blue chips! In fact, Dell, Microsoft and even Wal-Mart all started as penny stocks!**

## **Experts Rave About the Incredible Profit Power of Penny Stocks!**

*"There are few things more exciting in investing, maybe even in life, than when a penny stock takes off."* - Forbes

*"Without question, investing in small, rapidly growing companies can be extremely lucrative..."* - T. Rowe Price Investment Firm

*"The hard evidence demonstrates that [penny stocks] consistently have outdistanced large cap stocks...For investors, that's more than a small advantage."* - Barron's Magazine

*"Would a 3,000% return on your investment make you happy? How about 5,000%? Incredible stories like this happen nearly every day in the penny stock market."* - Dan Holtzclaw, author, **Penny Stocks: The Next American Gold Rush**

*"There is money in penny stocks."* - The Salt Lake Tribune

As you can see, penny stocks are hot - and only getting hotter. In 2003, my CXS System generated gains of 233%...221%...147% and more. And guess what? The serious money is coming down the pike at this moment! Don't miss out. Reserve your risk-free space now by clicking the "Subscribe Now" button below. This is a limited offer...so please act now!

But the key to getting rich is to buy penny stocks BEFORE they become household names. Consider this...

If you had invested \$500 in Wal-Mart when it was a penny stock, you'd now have over \$70,000! If you had invested \$1,000 in Dell when it was a penny stock, you'd now have over \$100,000!

And remember Microsoft? Billion-dollar mega-company, right? It was once a penny stock. In fact, if you had invested just \$1,500 in Microsoft way back when...you'd now have over \$150,000!

Not all penny stocks turn into household names. But tons of penny stocks succeed without ever making it to the level of Dell, Microsoft or Wal-Mart.

Take a look at these other incredible penny stock success stories:

- **571 % in Three Days!** Transnational Financial Network's share price soared from \$0.29 to \$1.95 in just three short days.
- **131 % in 24 Hours!** AirNet Communications jumped from \$0.58 per share to \$1.34 per share in just one day!
- **271 % in 48 Hours!** Smith Micro Software went from \$1.75 to \$6.50 in just two days!
- **374% in Less Than a Week!** K-tel Intl. climbed from \$6.88 per share to \$32.62 in just a few days!

And as I mentioned before...

**Integrated BioPharma went from 7 cents to \$9.60 per share!**

**An investment of just \$500 would have turned into over \$68,571.43!**

Now...these are just examples to give you an idea of how high penny stocks can go. these companies have already made their big moves! And it's probably too late to make any serious money with them.

But don't worry! My CXS System is scanning the market daily...evaluating over 9,134 companies...and giving my readers the very best odds to capture staggering gains!

## Amazing Track Record

### My CXS System Gives You the Tools to Legally Cheat Wall Street

Like card counting, my CXS System eliminates the need for hunches or luck... and changes stock picking into pure science. In fact, CXS captured 30 winning picks out of 41 tries. That's an **accuracy rate of over 72%** and an **average gain of over 34%**! Hard to believe, I know! But take a look for yourself:

Stock	Entry Date	Entry Price	Sell Date	Exit Price	Gain/Loss
Concurrent Computer Corp. (CCUR)	11/6/02	\$2.42	1/24/03	\$3.05	26.03%

## **And you can join us! Right now! Risk-Free!**

Imagine...If you are in the right place at the right time, you could literally turn the change in your pocket into a small personal fortune. And if you are prepared to invest larger amounts, you could become a multimillionaire in a matter of weeks!

It's absolutely possible, using the scientific advantage of CXS!

In a minute, I'll show you how you can capture massive gains with CXS...risk-free. But first, let's take a look at some of the tremendous money CXS has already made for my readers.

## **272 Times Your Money on Pokemon!**

Ever hear of a company named 4Kids Entertainment (KDE:NYSE)?

They license the rights to entertainment companies. And they shrewdly acquired the rights to market the Pokemon name in America.

Back in January of 1997, 4Kids Entertainment was just a penny stock trading for 33 cents a share...barely off the ground.

Well, as Pokemon became more and more popular with the kids...the stock price soared. In fact, it hit \$90 per share! Anyone who bought in at 33 cents could have made a staggering 272 times their money!

*"James you will be happy to know that since I signed on with you, my portfolio is up 94% this year. Try to beat that in 2004. Playing TRIP, PMU and SIRI now. Waiting on your next pick."*

**- Bill Harper, PSF Subscriber**

**An investment of \$500 would have grown to over \$136,363.63!**

And that's just a small taste of the type of gains CXS could generate for you...

CXS takes the emotion out of the game, and evaluates the stock market scientifically. The companies we discover are little known...but they make big news when their stock prices soar.

Now, let me show you how quickly a penny stock can...

## **Triple Your Money in 8 Weeks or Less!**

SIRIUS Satellite Radio (SIRI:NASDAQ) is one of only two satellite radio companies in the world. And in the last few months, they've been making big news on TV business talk shows - along with their competitor XM Satellite Radio. But back in April 2003, almost no one had ever heard of SIRIUS.

And that was fine by me! By the time a stock is all over CNN, the profits are long gone. My goal is to get you into a stock BEFORE the rest of the world hears about it.

That's exactly what happened with SIRIUS.

My CXS identified SIRIUS as a screaming buy back on April 4, 2003. And because the CXS rating was so strong...I didn't hesitate to act.

**I issued a BUY recommendation on SIRI at 65 cents. And guess what? Just eight weeks later - on June 5, 2003 - I told my readers to sell SIRI at \$2.17!**

**Folks who took my advice TRIPLED their money in less than two months!**

Here's another example of the CXS System in action:

## **146% in Two Months!**

On July 10, 2003, my CXS System generated another high rating. This time the company was China Yuchai (CYD:NYSE). Now, these guys are as boring as it gets.

They manufacture engine blocks, for goodness sakes! But what they do doesn't matter to me. The CXS System spat out a 9...and I knew it was time to buy!

Readers who took my recommendation got into CYD at \$7.50 per share. Just two months later, we sold China Yuchai at \$18.50...**a 146% gain in about eight weeks!**

## **CXS Says: 'Buy at \$1.71 - Sell at \$5.49!!!'**

Here's another example of CXS taking the emotion out of a business decision...and leaving readers with a stunning gain.

Back on June 10, 2003, my CXS System isolated a company named Coeur d'Alene (CDE:NYSE). My CXS System generated an 8 on Coeur d'Alene...and so...I recommended that my readers buy when it was only \$1.71 per share.

*"Did great on CDE...Made over \$10,000. Keep up the good work."*

**- George Dahl, PSF  
Subscriber**

**Before Christmas even rolled around, CDE hit \$5.49 per share!**

**That's a 221% gain in less than six months!**

And listen, the gains we made on CDE (221%)...CYD (146%)...and SIRI (233%) are only a small taste of what CXS captured in 2003.

**In fact, in 2003 CXS generated average gains of 34%...with an accuracy rate of over 72%!**

**And get this: If you had invested \$500 in each of my CXS selections, you'd now have over \$27,470! If you had invested \$2,000, you'd now have OVER \$109,000!**

**And if you had put down \$5,000 - you'd now have OVER \$274,700!**

Now, please understand...These opportunities have already been played. But don't worry if you missed out. Because penny stocks continue to offer a tremendous opportunity for ordinary people to capture staggering wealth. FAST!

I honestly believe the best opportunities are available right now! Penny stocks are the place to be. So if you feel you have what it takes to follow the CXS System...

...if you're willing to cast luck and chance aside - and generate your own success...

**...then I'd like you to try CXS...risk-free. Right now!**

**Here's the deal: I've arranged a risk-free trial for you. You can secure your space clicking the 'Subscribe Now' button below.**

The moment I hear from you, I'll rush you my exclusive...

## **Special Report #1: *How a 43-Year-Old Blackjack SECRET Could Triple Your Money at the Greatest Casino on Earth... Wall Street***

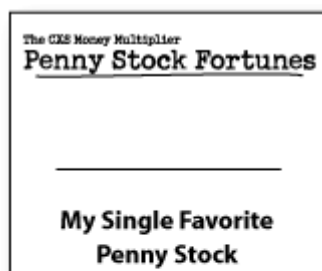

My CXS scientific stock-selection system applies the same principles as the most powerful and lucrative gambling strategies of all time. And in this exclusive report, I reveal the 10

SECRET ingredients behind my CXS System.

I'll tell you exactly how it works. And exactly how you can start using it - IMMEDIATELY - to rake in stunning TRIPLE-DIGIT GAINS!

Make no mistake...The information in this report will give you the tools you need to LEGALLY BEAT Wall Street - day after day after day! And I truly believe these 10 secret ingredients alone could make you a multimillionaire very soon.

I'll also let you in on...

## **Special Report # 2: *My Single Favorite Penny Stock***

Selected by my scientific CXS System, this is the ONE AND ONLY stock I'd put SERIOUS

MONEY on if I were going to roll the dice tomorrow morning. Here's why...

America is growing older. People are living longer. And because people are living longer, the need for NURSES is increasing rapidly.

But here's the problem: The United States is ALREADY SHORT between 110,000 and 126,000 nurses - and the deficit is growing. In fact, as the 65-and-older segment of the United States grows 54%, to 50 million, the nursing deficit could reach as high as 400,000!

**This is creating a medical crisis of epidemic proportions!**

My favorite penny stock supplies hospitals, nursing homes and health care providers with nurses. In fact, they have one of the largest temporary medical staffing networks in the country - and are perfectly positioned to benefit from the growing nurse deficit.

And here's the best part. This stock was recently trading at \$29 per share. But because of a restructuring, they haven't been able to meet their estimated earnings. So the stock is now trading around \$8 per share. This presents an incredible buying opportunity!

You see, according to my CXS scientific system, the company's fundamentals are still as strong as ever. This stock is exactly like a rubber band that has been stretched too far. And when it snaps back - savvy investors are going to become very wealthy in a matter of days!

My recent CXS scientific stock selections have generated gains of **146%...221% ...86% ...147%...73%...65%...233%...and MORE!**

**This stock will likely put those gains to shame...very soon!**

In fact, I wouldn't be surprised if this stock **TRIPLED YOUR MONEY in the next eight weeks or less!** The moment you reserve your Penny Stock Fortunes risk-free trial, I'll email you the Special Report telling you everything you need to know to profit from this opportunity.

**And by giving Penny Stock Fortunes a risk-free try, you'll also receive all of the exclusive benefits and privileges that Penny Stock Fortunes offers, including:**

**Monthly Issues of Penny Stock Fortunes!** Every day, my CXS scientific stock selection system scans the market - and evaluates over 9,000 stocks. We'll bring you the very best opportunities to triple your money, starting with as little as \$500!

**FREE Weekly E-mail Alert Service** ...Your guarantee that you won't miss a single penny stock opportunity!

**FREE Access to Our 24-Hour Investment Hotline** ...keeping you up to the minute on our portfolio and strategies!

**PRIVATE ACCESS** to our Penny Stock Fortunes Members-Only Web site, with investment updates and special investment articles!

**FREE Subscription** to The Daily Reckoning advisory bulletin...written by New York Times best-selling financial author Bill Bonner.

Now, you may be wondering... How much is all this going to cost?

**That's the best part! As you know, many investment services cost a few thousand dollars per year. In fact, many cost \$5,000 a year or more. And I personally know people who pay upwards of \$100,000 per year for investment advice.**

**But...if you agree to give *Penny Stock Fortunes* a risk-free try today...you'll lock in a special rate of just \$99 for two full years of *Penny Stock Fortunes*!**

**That's half off the regular subscription rate - and ONLY 14 cents per day!**

And here's my personal pledge to you...

## **Your Guarantee: Triple Your Money...or it's FREE!**

Give Penny Stock Fortunes - and my CXS System - a risk-free try.

If you don't **TRIPLE YOUR MONEY** on at least one of my CXS recommendations in the first six months of your membership, I'll refund every single penny of your subscription price.

In fact, if for any reason you aren't 100% delighted with Penny Stock Fortunes during the first six months, I'll send you a FULL REFUND. No questions asked. And no matter what, the Special Reports are yours to keep - FREE - just for giving *Penny Stock Fortunes* a try.

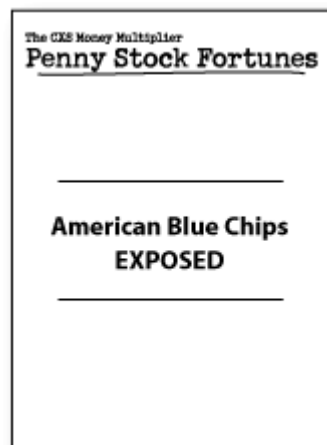

Of course, we don't guarantee profits. Past performance is no guarantee of future results. And as with any investment, there are risks, and losses can and do occur.

Now, I don't gamble foolishly. And I wouldn't make an offer like this unless I was totally confident I could back it up.

So, give *Penny Stock Fortunes* a try. You really have nothing to lose...and you will very likely **TRIPLE YOUR MONEY** in the next eight weeks!

And there's one more thing I forgot to mention:

**If you agree to give *Penny Stock Fortunes* a risk-free try in the NEXT 11 DAYS, I'll rush you the...**

### **Special Report #3: *American Blue Chips Exposed!***

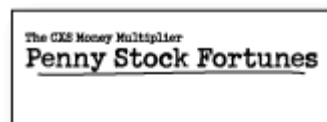

We've had so much success applying the CXS System to penny stocks I decided to use CXS to evaluate the big blue chip companies. And, after careful analysis, I have one thing to say:

#### **Watch out!**

My CXS scientific system has discovered that many of the 'safest' blue chip stocks are NOT very safe! This report ranks 90 blue chip stocks - and your jaw will hit the floor when you see how dangerous some of these companies are! In fact, I can practically guarantee you that you have at least one of these Enron-style time bombs in your portfolio right now!

Read this report now - and let someone else be the sucker! Reserve your Penny Stock Fortunes risk-free trial membership today, and the report will be on its way to you in a matter of moments.

But before you secure your risk-free trial, let me tell you about another special bonus you'll receive, just for giving Penny Stock Fortunes a try...

### **Special Report #4: *Overnight Riches: Four Scientifically***

## *Selected One-Day Wonders*

The amazing thing about penny stocks is not only the amount of money you could make, but also how quickly you could make it!

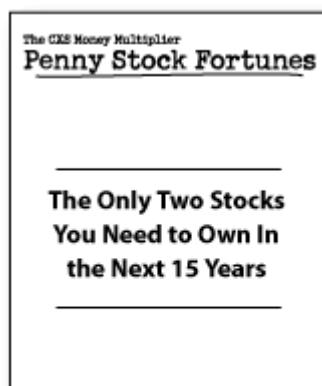

This report will give you an instant portfolio of four penny stocks - any one of which could generate triple-digit gains in a matter of days!

Don't forget...Penny stocks can literally change your financial life in a matter of hours. Take a look at some examples of other recent penny stock types of returns: 1,100% on Integrated BioPharma...1,092% on DF China Technology...1,121% on OXiGENE....

These four stocks could do even better! In fact, I'm convinced that any one of these four stocks could triple your money!

Don't miss out on even one of these highfliers. This Special Report is so urgent - the opportunities so important - that we'll send this report to you via e-mail...delivered to an e-mail box of your choice. It's yours, the moment you reserve your Penny Stock Fortunes risk-free trial.

And there's one more special bonus I want you to have:

### **Special Report #5: *The Only Two Stocks You Need to Own for the Next 15 Years***

Over the last few years, China has been the best place to put your money.

In 2003 alone, you could have made 569% on

Sohu.com...524% on Qiao Xing Universal...515% on NetEase.com...and 586% on SINA Corp.!

In fact, my Penny Stock Fortunes readers took in 146% in just two months on China Yuchai!

But forget about China! The next Asian superpower is taking off - and investors who get in early are going to make a fast fortune! The country I'm talking about is India. And I'm not the only one who thinks India is ready to go through the roof. Take a look at what these experts say...

- **Goldman Sachs** has already predicted that India will surpass China in GDP by 2010.
- *Investor's Business Daily* reports that India 'is becoming the next emerging economic powerhouse.'
- *USA TODAY* proclaims that India is 'on the verge of something big.'

Well, with a population of 1.1 billion, and one of the fastest growing economies in the world, the potential for growth in India is staggering. And money is already pouring into India.

According to *BusinessWeek*, General Electric already has a staff of 16,000 Indian workers. Intel has a staff of 1,700 devoted to software development. And by 2005, IBM will have a staff of 10,000 Indian workers just for IT services and creating software packages.

Make no mistake...India is poised to take off...particularly in the telecom industry.

You see, as India grows - the need for instant communications will expand at a lightning pace. Currently, 970 million Indians don't have phone service. In fact, nationwide statistics show that rural areas of India only

have one telephone per 200 people!

The demand for telephones is practically insatiable - and companies in a position to fill this almost unlimited demand for phone service will skyrocket.

**My CXS scientific stock-selection system has isolated the ONLY TWO STOCKS you need to own to cash in on India's telecom EXPLOSION!**

**Both of these companies operate in the developing telecom industry - and both of them are positioned to become India's version of Microsoft.**

Consider this...If you had invested \$1,000 in Microsoft back when the U.S. tech boom was starting, you could now have OVER \$90,870!

**That's a gain of 9,087%! But the key to big gains is to get in early...before the rest of the world discovers that India is a virtual gold mine.**

**DON'T MISS THIS OPPORTUNITY!**

Most people are still focused on China. But China has already been played. In the coming year, the BIG MONEY will be made in India.

**The only question...Will you get in on time?**

My Special Report *The Only Two Stocks You Need to Own for the Next 15 Years* will tell you everything you need to profit from this remarkable opportunity.

**The report is yours - free - just for giving *Penny Stock Fortunes* a risk-free trial.** And remember, this report is only one of **FIVE SPECIAL**

**REPORTS** you will receive just for giving *Penny Stock Fortunes* a risk-free trial.

I think you'll agree...This is an incredible offer! And remember my guarantee:

If you don't **TRIPLE YOUR MONEY** on at least one of my CXS recommendations in the next six months - I'll refund every single penny of your subscription price.

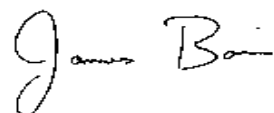

In fact, if for any reason you aren't 100% delighted with *Penny Stock Fortunes* during the first six months, I'll send you a FULL REFUND. No questions asked. And no matter what, the five Special Reports are yours to keep - FREE - just for giving CXS a try.

But please hurry. Because of the delicate nature of the CXS System, we MUST put a strict limit on the number of NEW memberships we accept...first come, first served.

I urge you to lock in your space now with a risk-free trial. Once you're on board, you can always change your mind...but when we close our doors, they may never open again.

I urge you to take action now. The cards are hot - and I'd hate to see you miss out...

Sincerely,

A handwritten signature in cursive script, appearing to read "James B. Bannister".
