

## **Act Now and Become a Charter GRIP Member for 50% Off**

Because I have been in the financial business for so long, I recognize who my best customers are - some even by name. And you are one of them. For that, I thank you. But mindless "thank-you's" only go so far. I want to SHOW you my appreciation by extending a one-of-a-kind invitation to you...

Normally, I would charge \$5,000 for a service like this. And in all honesty, that is probably way too low. After all, information on thousands of stocks that no one on Wall Street is paying attention to is priceless. Anyone who has this data could be among the first in the world to make a profit on these high-rising stocks. Plus, as a GRIP member...

You would have access to a proprietary stock-picking system that finds tiny stocks poised to jump from the micro-cap market to the NASDAQ, AMEX or NYSE. Remember, of Carl's recommendations in 2003, 15 of them jumped to a major exchange...and to major success. That's a heck of a track

### **Like A Rare Metal, the Price of The GRIP Will Rise**

Anytime you buy something precious, you can expect the price to rise in time. It's true with gold, silver, platinum and a handful of other precious metals. And it's also true with a service like The GRIP.

The price of The GRIP has already risen from \$1,000 to \$2,500. And it could rise to \$5,000 soon - literally any day now. Please take advantage of this incredible offer and secure your spot in The GRIP family.

Remember...

We are only allowing 3,000 people to join The GRIP. Once those spots are filled, you will be placed on a waiting list to become a member. So please hurry. Right now there are still a few spots open - one with your name on it. All you have to do

record. And in addition to that, you would receive an exclusive report that highlights (in unbelievable detail) a company that could be the next "jumper" stock on Wall Street (and save lives in the process).

is claim it. Sign up for The GRIP today. **Click the "Subscribe Now" button below to order today!**

That kind of information alone is worth tens of thousands of dollars. You and I both know that.

But because I want to show you how much I appreciate your loyalty to me, the Daily Reckoning and Agora Financial...I'm going to make you the best deal I have ever made before.

**You can become a charter GRIP member for only \$2,500. That's \$2,500 off the normal price - a savings of 50%! But, it won't last long.**

In the near future, the price to become a GRIP member could instantly rise to \$5,000 (which is still a heck of a deal). And after that, you can expect the price to continue to rise. After all...

Elite services, like the GRIP, tend to grow more valuable with time. So it wouldn't surprise me if people will BEG to pay \$10,000 in a year from now - and not even think twice about it. Trust me, I've seen it happen before. And I expect it will be true with the GRIP.

I anticipate there will be a long line of GRIP-want-to-be-members. Unfortunately, like the elite club bouncer I talked about a second ago, I will have to turn them away. I can only let the first 3,000 people in.

But right now, there is a spot waiting for you.

If you act without delay, can go to the sign up page at the end of this report (consider it your very own personal VIP pass) and walk through the door - with no hassle. When you do, you will get the special report "Making Money by Saving Lives" and Carl's guidebook, *The GRIP: Master of all Trades*, FREE - once you're a part of this exclusive advisory.

Plus, if you sign up now, you'll also get...

## **5 more young stocks that are set to explode in profits - or "jump" to the major leagues**

*The Most Promising Stocks You've Never Heard Of.* In this special report, you'll discover:

**A powerful pair of Homeland Security stocks** that are set to go through the roof as the "War on Terror" continues to heat up at home. One of these GRIP winners rode a *4-week return of 101%* earlier this year.

**Two tantalizing Biometrics securities** that are GRIP-certified to very likely grossly outpace their industry - which itself is estimated to expand *more than five-fold by 2008*.

**A GRIP-approved RFID anti-theft stock** that could save retailers billions in losses. This company's president recently purchased *30 million shares of stock* on the strength of some major deals with retailers and security interests.

## **A Dynamic duo of Fuel Cell picks that could explode, a pair of Nanotech stocks worth holding onto long term, and more...**

Knowing what the GRIP is and how it works is one thing. But truly understanding what makes it so superior for small-cap speculation - even to other tried-and-true stock-picking systems - takes a bit of education...

Which is why GRIP guru Carl Waynberg produced *yet another* special report for those who sign up for his exclusive advisory: *The GRIP's Take on Technical Analysis and Other Weirdness*. Reading this new report will clue you in on:

**...How trends can lie - and also *cost you your shirt***

**...Why the masses are often *wrong* - yet influence short-term stock prices anyway**

**...Whether systems based on seasonality, time of month, time of year, days of the week, elections, politics, weather, sports, astronomy or fashion have any validity at all (the answers may surprise you)**

And like the other must-have GRIP reports (*Making Money by Saving Lives* and *The GRIP: Master of all Trades*), your copies of both of these special exposes are absolutely FREE when you sign up for Carl Waynberg's *THE GRIP* weekly online investment advisory - a flexible, adaptable, hyper-successful, yet sound and scientific stock-picking strategy unlike anything the world has ever seen before.

Of course, you also get one other benefit...

## **You Get the Benefit of a Proven System That Raked in 757%, 379%, 405% 353% and 682% Gains**

Carl's track record of finding explosive small-cap stocks is amazing. In fact, I've never seen anyone better at it. He and his GRIP System have an uncanny ability to find undervalued companies set to rise. And I'm not talking 25%, 50% or even 100%.

As you have seen, when one of Carl's picks "jumps" to a major exchange (which 15 did in 2003!) you could make as much as 379%, 405%, 353% and 682%.

Of course, a lot of dishonest folks make claims like this - and NEVER back it up. We aren't like that. Below you will find a sampling of Carl's GRIP picks from 2003. Take a look at it for yourself.

There it is, in black and white: Remarkable, isn't? Could you imagine having 13 triple-digit winners in your portfolio in just one year?

People out there - seasoned investors, mind you - are spending tens, sometimes *hundreds of thousands of dollars* to join elite mutual funds or hedge funds that trade exclusively in small-cap stocks - and with far less in the way of returns. And they're glad to do it, too. What's really ironic is that THE GRIP *beats the pants off them all* - by an obscene degree!

But you don't have to pay tens of thousands of dollars for a shot at success.

**Because you're here from the beginning, you can get a GRIP on the "secret" stock market's profit explosion for an introductory price that's *bordering on absurd***

Remember, if you sign up immediately, you can become a charter member to the GRIP for only \$2,500. After that, the price could rise to \$5,000 - and then higher.

Also, please know...

Once the 3,000 spots are filled, we will be forced to turn folks away. So please take advantage of this limited-time, offer and sign up for the GRIP now. When you do, you will get... ...Carl's **urgent GRIP e-alerts with a new pick or analysis every week** (imagine being

handed a stock like the stem-cell wonder I told you about every 7 days!)

...The **four FREE special reports** on the GRIP system and its miracle picks (including the detailed report on investing in the stem cell leader)...

...The detailed, easy-to-use, frequently updated and **interactive GRIP Web site**

...And the one and only **Waynberg Warranty** of total objectivity, detachment, and a guaranteed 0% vested interest in the stocks he showcases.

**Believe me when I tell you that you'll *never get more value for your money on anything in your life than right now***

I can't emphasize what an amazing opportunity this is for you.

In this day and age, there aren't many secrets on Wall Street. Everyone is taking advantage of the same "hot" stocks tips...everyone is listening to the same TV programs...and everyone is investing in the same group of blue chip stocks.

You can't make money investing that way. You have to look where other people aren't. And that's exactly what Carl Waynberg does.

Every week, Carl uncovers the most exciting, profitable and still undiscovered companies on Wall Street. He finds the tiny businesses that are on their way to jumping from the ranks of the

unknown to the major exchanges. And he unearths the stocks that have made people like Buffett, Lynch, Templeton and maybe even you wealthy several times over. Remember...

Last year, Carl racked up impressive gains. And 15 of his picks jumped from the micro-cap stock exchange to the NASDAQ, AMEX or NYSE.

If you are looking to join an elite group whose only goal is to beat the pants off of every other market index out there, please join us. It will be a heck of a ride.

Yours Truly,

Addison Wiggin  
Publisher, Agora Financial

P.S. Remember, THE GRIP's price will *never be lower for you* as an introductory subscriber than it is right now. **To take advantage of our \$2,500 price, you must sign up now.**

P.P.S. When you do sign up, you will have 30 days to decide if the GRIP is for you. If it is not, we'll refund all of your money and let the next person on the waiting list get in on the amazing deal. And just for giving us a try, you get to keep all of Carl's GRIP reports - as a personal thank you from me. **Click the "Subscribe Now" button below to order today.**
