*Announcing The Agora Wealth  
Traders Seminar  
'The World's Greatest Traders Event'*

On January 26 & 27, at the New Orleans' Hilton Riverside, a select group of *the world's top financial analysts* will share their best-kept secrets for helping you consistently earn from \$10,000 to \$1,000,000 - *or more ... per year* - on some of The Market's most exciting - *and rewarding* -- investment opportunities.

Only 200 people will be selected to attend this exclusive event. *This is your invitation.* So, please confirm within the next 10 days to assure your front row seat at *'The World's Greatest Traders Event.'*

---

Dear Colleague,

In just a minute, I am about to offer you an invitation that could soon help you *make more money in a month than most people do in a year - by investing less money in a year than most people do in a month.*

Sound interesting? *Then, read on!*

Now, please understand, I'm talking here about the kind of investments that can yield returns such as 25% ... 50% ... 100% -- even 1,000% -- or more. Not just occasionally, but *consistently*. Throughout the year. Across The Board.

To make those kinds of high-yield profits, I believe you'll agree, you need to be (1) in the *Right Place*, (2) at the *Right Time* ... making (3) the *Right Moves*, in (4) the *Right Markets*.

To some people, that may sound simple. But, you and I know, it ain't easy!

Yet, that's exactly what's happened - time and again -- when:

- *Those who got in on Pokemon had the chance to see a \$1.58 investment turn into a \$70.00 return. That's an incredible 4400% profit -- in just 12 months!*

- *Investors who got in on TRW options saw a \$1,000 investment turn into a nearly \$10,000 return - in just 30 days!*
- *Traders who got in on Idec Pharmaceuticals saw an early investment turn an incredible profit of 6,150% -- as a result of just one public announcement!*
- *And, anyone who got in on Texas Instruments saw an \$11 investment turn into a \$93.52 return - a 737% profit in just 24 months!*

Now, I know those investors weren't any smarter than you. They didn't have a crystal ball or divining rod. And they certainly didn't work any harder, or deserve the money more. That's a given.

What each of them did have in common was that they were at the *Right Place*, at the *Right Time*, making the *Right Moves*, in the *Right Markets* - with some very highly profitable advice from exactly the *Right People*.

And, the great news is: *Now, you can, too!*

That's right, now you can, too -- because Agora Wealth has just brought together six of the top financial experts for the first-ever, comprehensive, in-depth ***Traders Seminar!*** This is your chance to learn about the same kinds of lucrative investments that will help get you in at the *Right Place*, at the *Right Time*, making the *Right Moves*, in the *Right Markets* - with some very highly profitable advice from exactly the *Right People*.

### **Agora Wealth's Traders Seminar Offers You a Full Money-Making Menu ... From Ala Carte to the Full Course!**

Now, I know you have received a myriad of seminar invitations in the past - each one touting this or that 'exclusive money-making formula.' And that, frankly, has been precisely the problem with financial investment seminars - *until now*.

There have been seminars on selling short and going long ... mutual fund marathons and small cap capers ...options outings and Blue Chip shots ...secular Bull sessions and wounded Bear weekends.

Each one cost you a pretty penny - and loaded you down with books and tapes 'for just a few dollars more.' And, when you finally made your getaway, all you really knew for certain was that you had already invested more money than you were ever likely to make in return.

As I said -- *until now*.

That's because, at Agora Wealth's first-ever ***Traders Seminar***, we're more intent upon making you money than taking your money. So, we're letting you decide for yourself what size and shape of investment best fits your budget - and opens the door to your own dreams.

You see, we have invited the top financial analysts from around the world and across the spectrum to share their secrets with you - from penny stocks to stock options and equities ... from bio-tech to momentum stocks, insider trades, and selling short.

In short, for the first time ever, we've chosen to give you a choice - *with six separate workshops in one single seminar!*

Each is designed to teach you exactly how to turn consistent profits - of 50% ... 500% ... 1000% -- or more - on the widest variety of trading strategies. Time and again. Year round. Whether you're running with the Bulls, or roaring with the Bears.

And each is taught by a respected and renowned analyst who has helped thousands of investors worldwide.

Now, they are ready to do the same for *you* -- if you reserve your seat *today*. Let me fill you in on just some of the exciting activities specifically created to make *you* money - and lots of it ...

**At the First-Ever Agora Wealth Traders Seminar, You'll Come to Learn the Fundamentals - And Leave to Earn A Fortune!**

As soon as you arrive at the ***Traders Seminar*** on the morning of January 26, you're going to notice two important things right from the start:

1. There is the kind of electricity in the air that can only come when serious players catch the scent of *major* money ... and

2. *You* are at the *right* place at the *right* time!

In fact, let me take that even a step further: You are going to understand from the outset that this Seminar is unlike any other you have ever attended (or, chosen not to).

*That's because this unique two-day 'World's Greatest Traders Event' is designed to make absolutely certain - beyond a shadow of a doubt - that you walk away with the knowledge - and the resources - that could change your fortunes (and your fortune!) virtually overnight!!!*

From the moment you meet the presenters you will know immediately that this Seminar is the real deal. *Right now!*

Now, what I am about to say may sound unkind, but it is not meant to be. And I hope you will bear with me. To put it bluntly, this Seminar is not a come on. And there will be no countless cartons of CDs, videos, workbooks, and cassette tapes you need to buy to 'round out your education.' Period.

*Here's my promise to you: At the **Traders Seminar**, you will come to learn - and you will leave to earn. From your first minute in. To your first hour out. That's one of the exciting aspects that sets this Seminar apart from the others - and one of the rewarding reasons I want you to be a part of this Seminar!*

In fact, the international experts you are about to meet would have it no other way. Each actually invented the investment systems you are about to learn. They use them to generate the kind of recommendations that can earn double-, triple-, and quadruple-digit profits. Almost at will. And, now, they take great pride in

watching them work for others, as well. *Including you!*

In short, they are determined to make your learning curve a straight shot - from turning a page to turning a profit. That's all there is to it!

Quickly, easily - completely - you'll learn ...

- *How to spot the breaking trends that tell you when a call or put could multiply your money - many times over - regardless of which way the market is moving!*
- *How to access the 'inside information' that top corporate executives use to legally make short-term profits such as 216% ... 264% ...400% -- and even more!*
- *How to apply the small caps 'Ten Step Test' that can help you move quickly and confidently from just 'pennies a day to a personal fortune'!*
- *How to filter out risks and lock in massive returns with a proprietary new system that turns around recommended trades in as little as 30 days - or less!*

At the ***Traders Seminar***, you'll learn all of that - and more. In just two days. Guaranteed.

In fact, the top experts we have assembled (the '*Gains Trust*' as I like to call them) - could soon have you making more money, in more ways - *in fewer days* - than you ever before imagined possible. Here's why ...

**Introducing the Agora Wealth Traders Seminar '*Gains Trust*':  
In Just 48 Hours, These Six Experts Could Help You Make  
Your Own Personal '*Declaration of Financial Independence*'!**

I take tremendous pleasure in introducing you to the six financial 'gurus' who

make up the ***Traders Seminar 'Gains Trust.'*** You see, I have witnessed firsthand the remarkable success they have had in helping thousands of investors worldwide declare their own financial independence.

Week after week ... month after month ... year after year, they have helped turn inexperienced beginners into acknowledged experts, paper traders into profit takers, and small-time players into big-time winners. In every area of financial investment.

And now, on January 26 and 27, at the New Orleans' Hilton Riverside, *they can do the same for you!*

So let me brag a little, just briefly, on the remarkable top-of-the-line instructors you will soon be meeting face to face at *'The World's Greatest Traders Event'* six wealth-creating workshops ...

***Agora Wealth Traders Seminar Workshop #1  
Alexander Green's 'Momentum, Insider  
and Oxford Short ALERTS'!***

You won't find many men of Alexander Green's talent - or integrity - on Wall Street. Or, anywhere else for that matter.

At the height of the dot-com boom, when his colleague's were pushing the bubble and padding their pockets, Alexander walked away from one of the country's leading brokerage houses. Giving up a promising career at 43, he said, 'No thanks,' and turned back half of a \$510,000 signing bonus.

Now, for you, Alexander Green's talent and integrity is just about to translate into income. *And plenty of it!*

You see, Alexander is now the Investment Director at *The Oxford Club*. There, he has created the '*All-Star Portfolio*' - professional investments that have provided Market-beating returns even in the most difficult times. And, he's created the '*Income Portfolio*,' - top-rated income funds that have appreciated nearly 20% in 2003 alone!

Along the way, he has provided his readers remarkable recommendations, including:

- *ICOS* - up a more than respectable 52%
- *Alkermes* - up 72%!
- *Agilent Technologies* - up 126%!
- *Anixter* - up 133%!
- *Sealed Air* - up an incredible 633%!

With blockbuster picks like those, it's little wonder Alexander has been profiled in *Forbes.com* ... has written for former *Wall Street Week* host Louis Rukeyser ... and has been featured on Fox News Channel's *The O'Reilly Factor*.

But, perhaps, most important to you are the three premium trading services Alexander will describe in detail in his ***Traders Seminar*** workshop. You'll learn how ...

- *The Insider ALERT* meticulously follows the activities of top corporate executives who quietly - and legally - begin loading up on their own company's stock ... with their own cash ... at market prices.

*Insider Alert* subscribers have been able to earn upwards of 125% in a matter of days after Alexander alerts them that the top guys have tipped their hands.

*And soon, you'll know how to rake in that much - and more - when Alexander*

*discloses how you can discover the inner secrets of the government's 'Form 4 Indicator'!*

And, that's just the beginning of what you'll see for yourself when Alexander Green tips *his* hand...

- *The Momentum Alert* uses a proprietary mix of key fundamental and technical indicators to determine when a stock has sustainable 'profit potential.'

And then, it alerts investors when to get in early -- and cash in big - on the emerging profit cycle! Like last year alone when momentum stocks like:

- *Garmin* -- rose 121%!
- *Teva Pharmaceutical* -- climbed 433%!
- *eBay* - jumped 222%
- *Career Education* - vaulted 748%

*As one of the 200 select attendees at the **Traders Seminar**, Alexander will reveal to you how to discover top momentum stocks like these for yourself that can quickly turn \$10,000 investments into \$1,000,000 returns!*

And, there's even more ...

- *The Oxford Short Alert* exploits Wall Street's silent 'Sin of Omission' to help readers rake in skyrocketing profits from plummeting stocks.

In short, what Wall Street won't tell you, Alexander does - and then you can sell short for funds and profit on stumbling stocks like:

- *ICOS* - selling short produced a 52.32% profit!
- *Alkermes* - selling short produced a 72.12% profit!
- *SeeBeyond* - selling short produced a 74.10 profit!

*Alexander Green has mastered the art of turning a stock's weakness into wealth. And on January 26 & 27, he'll share with you his '11 Key Criteria' for coming out on the l-o-n-g end of selling short!*

Let me put it this way: By the time Alexander Green is finished his workshop, you'll be able to make more money on his talent and integrity than on all the smoke and mirrors and slight of hand from every other seminar you've ever attended all put together.

That's a promise. And, it's also just the beginning -- because Alex's course is just one of six wealth-building workshops in which you are invited to participate...

## **Agora Wealth Traders Seminar Workshop #2 Karim Rahemtulla's 'Options Advantage'**

Karim Rahemtulla is known internationally as *'The Oxford Club's Options Expert'* - which, considering the *bona fides* of *The Oxford Club's* roster of executives and consultants, is pretty high praise, indeed.

And, it is high praise well earned. Because not only is Karim a credentialed options expert, he is also the Executive Director of *The Supper Club* - *'America's most prestigious - and profitable - venture capital forum.'*

Karim's highly popular *Options Advantage* service - with its long-term, leveraged LEAPS System - is earning the highest praise from current subscribers nationwide:

*'Sold the AMD 2006 10 call premium for \$6.60 this morning. Nice profit as my*

*entry point in June was only \$1.90. Keep the recommendations coming. Thanks.'* - Peter Cambridge

*'All my trades are done within 12 hours of Karim's alerts and the LEAPS are not like day trading where you need to be in front of a computer all day while trading takes place. I can make my trades when I get home from work or in the morning before I head out the door. Thanks Karim!'* - Susan Albers

With plaudits like those, it's no wonder *Options Advantage* is moving LEAPS and bounds ahead of the competition. And now, Karim will share with you that same wealth-building system in New Orleans on January 26 & 27 at the exclusive ***Traders Seminar***.

In a presentation that makes dollars and sense, you'll learn:

- *How to make an incredible \$295,000 profit - in the next 6 to 12 months!*
- *How to make 24% to 36% profits year in, year out - in any market - with an investment strategy so safe it's earned the coveted IRS 'stamp of approval'!*
- *How to get in - NOW - on two remarkable plays that could put \$25,000 to \$30,000 in your pocket in just a matter of days!*
- *How to take advantage of a LEAPS System that recently produced gains of 43% in a month ... 37% in just two days ... and a remarkable 64% in just three weeks!*

You'll get all of that - and more - with *'The Options Expert'* at your service.

And, yet, we're just getting started - because you'll also have a front-row seat at ...

### **Agora Wealth Traders Seminar Workshop #3**

## Brit Ryle's Money-Flow Matrix

An incredible 481% profits - *in just nine days!*

Another 206% profits - *in just seven days!*

And, *in just 24 hours*, a blindingly fast 115% gain!

If those kind of blockbuster returns sound familiar, chances are you're already using Brit Ryle's remarkable *Money-Flow Matrix* to stun The Street for the most incredible returns since Truman beat Dewey.

And if they don't, then Brit's **Traders Seminar** workshop could be about to change the way you live, shop, dine, drive, lounge by *your* pool, and sail the seven seas. That's how powerful Brit's options and equities strategies actually are.

But, don't just take my word for it - listen to the players who are making the profits:

*'I don't know what you use: crystal ball or time machine, but you just quadrupled my portfolio with the Dow and IBM calls. You are A-W-E-S-O-M-E. Don't change a thing!' - J.B.*

*'I bought at \$1.65 and sold at \$3.10 ... in the past three months with you I've had more profitable trades than in the last three years combined.' -- M.F.*

*'Thanks to you I have made a net profit of \$16,000 since signing up for your service four months ago.' - J.P.*

Compliments like those come easy - and often -- to Brit Ryle. But the irreplaceable experience that spawns such success was hard-earned over many a mile.

Brit has spent time in the grisly pits of the Chicago Options Exchange where he learned early that there is nothing as old - and unprofitable - as *yestersecond's* trade. He honed his investigative skills writing for four international investment publications. And he has traveled the globe examining and evaluating the inner workings of every enterprise from sun-baked sweatshops to international conglomerates.

And what he's learned can make *you* money.

'From my years in the field,' Brit says, 'particularly as a journalist, I started seeing patterns. Essential details that repeated themselves over and over again. Especially in winning trades. From that, I built my own system. I tested it. And I was blown away enough by the results to share them with other investors.'

Specifically, Brit discovered how a simple, combined 'matrix' of five potent market indicators can literally filter out trading risk while revealing huge opportunities for massive returns. Returns like:

- *87% profits in 25 days on Jackks Pacific!*
- *91% returns in a single day on Micron Technology!*
- *120% profits in six days on Williams Communications!*
- *150% returns in 15 days on ATI!*
- *480% profits in 26 days on Vivendi!*

How does Brit Ryle reap such remarkable rewards in so short a time - *and how can you soon start doing the same?*

It's all part and parcel of his amazing 5-point *Money-Flow Matrix* system he will explain to you at the upcoming **Traders Seminar**. Quickly and easily, you'll learn how to:

1. Spot the volume surges that indicate what the 'smart money' is doing across the entire market!
2. Analyze the Advance-Dcline Line that lets you foresee broad market reversals *before* they occur!
3. Track the Price-to-Time Ratio that tells you how fast you can expect to make money on your most recent trade!
4. Measure the Volume-and-Price Ratio that reveals the underlying force or momentum behind a share price change!
5. Calculate actual money flow that tells you how much money is rushing into or out of a specific investment at any given time!

With that information solidly in hand, you, too, can start taking advantage of the kind of investments that have already helped make Brit's current subscribers see *91% profits in just 24 hours ... 125% in just six days ... 87% profits in 25 days ... and 91% gains in a recommendation that opened one weekday afternoon and closed the next.*

As Brit says, 'I don't know why everyone isn't doing this. But, I'm glad they're not. Because it means more opportunity for us!'

*And just to make absolutely certain you take full advantage of that incredible opportunity, Brit has put his clear-headed and streamlined approach to investing into a new easy-to-understand handbook, **Secrets of the Money-Flow Matix**. It's yours FREE just for attending the first-ever **Traders Seminar**!*

## Agora Wealth Traders Seminar Workshop #4

### James Boric's *MST Trader Alert System*!

James Boric is one of America's leading investment analysts. And his subscribers have the money to show for it. Had he devoted his attention to blue chips, he would probably have gained the adulation of the financial world. Had he simply chosen to quietly live off his personal portfolio, he would likely be enjoying a life of luxury 'far from the madding crowd.'

But James has a penchant for penny stocks. And he likes to share the wealth -- and knowledge -- with anyone who has even two cents to rub together.

That's why readers of his *MST Trader Alert* have come to agree with James that: '*Smart investors today don't invest dollars to make pennies - they invest pennies to make dollars*'. When Jame's *MST System* was applied to the following eight stocks, the results were spectacular. Take a look for yourself:

- *435% gains on Level 3 Communications - in just 33 days!*
- *31.5% gains on Glamis Gold in just 44 days!*
- *147.4% gains on Alaris Medical in just 84 days!*
- *43.3% gains on Exploration Co. in just 22 days!*
- *54% gains on Harvest Natural in just 55 days!*
- *44.1% gains on IMAX Corp. in just 51 days!*
- *103% gains on Select Comfort in just 38 days!*
- *59.2% gains on Durban Roodepoort in just 38 days!*

Now, that's an average gain of 115% on eight *Triple-Plays*. And that's without your having to study the stocks. Without knowing - or even caring - whether the

market was bullish, bearish, six points up, or six feet under. Because with James' *Triple Plays*, you consistently post double-digit gains day after money-making day.

That's why investors nationwide are taking James Boric's penny stocks straight to the bank. *And, now, you can, too!*

At the ***Traders Seminar***, James will be explaining to you how his three key *Triple-Play* factors - *Momentum*, *Strength*, and *Trend* - all combine to make you a major market mover and shaker up to 82% of the time. And, he will reveal to you exactly how to ferret out those 3% or 4% of stocks (out of the 9,500 publicly traded) that could *multiply your money 10-, 25-, or even 100-fold in just a matter of days!*

In fact, even when the market is in the pits, you'll still get the cherries. James' MST System saw *Triple-Play* profits like ...

- *Shorting Beverly Enterprises for 55.9% -- in only 19 days!*
- *Shorting Cordiant Communications for 45.9% -- in only 98 days!*
- *Shorting Extencicare Incorporated for 24.7% -- in only 29 days!*
- *Shorting Aeropostale for 55.9% -- in only 28 days!*

Now, if those sound like your kind of quick cash killings, then you'll want to hear to what James has to say. *Because the great news is: James is set to tell you chapter and verse, jot and tittle how you can already start to pick tomorrow's biggest penny stock winners today!!*

Plus, just for being a guest at the ***Traders Seminar***, James will give you a copy his recently published ***Triple Play Trader's Handbook***. It reveals the precise inner workings of his remarkable ***MST (Momentum, Strength, Trend) Trader Alert System*** that's raking in double-digit gains in a just a matter of days. *It's yours FREE, so register now!*

And, we're still not done ...

### **Agora Wealth Traders Seminar Workshop #5** **David Lashmet's *Diligence*!**

His research reads like a Robin Cook novel, complete with obscure illnesses and billions of dollars changing hi-tech hands. And his bio contains all the esoteric nomenclature of *Gray's Anatomy*.

But, when it comes to making his subscribers - and, hopefully, soon *you* - money, David Lashmet is as warm and welcome as a 10,525% ROI.

Over the past four years as lead analyst of *Diligence*, David Lashmet has visited more than 50 bio-tech businesses around the world. He has done in depth research at some of the most important medical facilities in North America, including: Harvard Medical School, Johns Hopkins, MIT, and the Canadian Centers for Disease Control.

Before taking the helm of *Diligence*, Dave spent 10 years teaching and writing about medicine and technology at five major research universities. He holds a masters degree in the History of Science, Technology, and Medicine, and is currently a doctoral candidate in Cultural Studies of Medicine.

And what, exactly, does all that mean to you? *Well, in a word ... MONEY!*

You see, it is very likely that no one else in the world is quite as astute in the disparate worlds of medical research and financial analysis as David Lashmet. And that explains why his *Diligence* portfolio is exploding off the screen with

investment recommendations like these:

- One recent recommendation won US and European FDA approval for a new drug in the past few months. Next quarter, this company should book its first profits - *and it has already posted a healthy 100% gain since the start of 2003!*
- Another recent recommendation is just beginning Phase III trials for its new anti-flu vaccine, while Phase II trials will be starting in the fall for another vaccine that could prevent strep throat. News of these trials could send this stock soaring - *and it's already up 82%!*
- A third company has 77 issued US patents and intends to replace plasma screens with retinal scanning technology - *and this stock is already up 58% since it was recommended!*

And keep in mind, companies like these are where speculative investors can find the best opportunities for 10-fold profits. And even more. Just take a look at similar biotech winners for those investors lucky enough to hear about them:

- *An early investment in Amgen (when it was just bringing drugs like Epogen and Neupogen to market) went up a total of nearly 10,000%!*
- *An early investment in the San Diego company Idec Pharmaceutical (makers of Rituxan) jumped about 6,150% virtually overnight!*

For an analyst like Dave Lashmet - with one foot in the research field and the other in the financial community - finds like these are not rare. And teaching others how to track down such picks and rack up such profits is simply elementary to this gifted academician.

Dave's *Diligence* service normally sells for \$5,000 for one year. But, by enrolling now for the January 26 & 27 **Traders Seminar**, you can take advantage of his

remarkable experience and expertise as part of the full Seminar package.

*Plus, just for acting today, Dave will include you in one of his upcoming monthly Seminar calls with a potentially lucrative early stage investment opportunity ABSOLUTELY FREE! Getting in at the outset has never been easier, or more appealing. So don't delay, sign up today.*

### **Agora Wealth Traders Seminar Workshop #6** **Eric N. Roseman's *Commodity Trend Alert!***

Everyone knows that commodity investments mean money - and lots of it. In fact, single-manager CTAs have demolished stocks by more than 40% for over two decades. And the very best have multiplied investor capital by as much as 412 times over the last 20-30 years!

However, for average investors there has always been a cloud around this *very rich* silver lining: The lowest minimum investment in the entire asset class was \$250,000. And the top CTAs have minimums starting at \$1 million.

But now all that has changed - *thanks to a commodities king-maker named Eric Roseman.*

Eric brings to the ***Traders Seminar*** some of the most impressive investment credentials ever to grace an Agora program. He is a regular contributor to *Daily Reckoning*, where his sage advice is considered money in the bank. He is on the Advisory Board of The Oxford Club. And he serves on the Board of Investment Advisors for The Sovereign Society.

And, here's what's most important to you: *Eric Roseman can make you a highly*

*profitable player in the richly rewarding world of commodities trading for pennies on the dollar!*

That's because, with his incisive, insider newsletter -- *Commodity Trend Alert (CTA)* - Eric has begun to change the face of commodity investing. And now, with his guidance and direction, even the average investor can buy for less - and walk away with more - than even the esteemed Members of the commodity world's 'Wealthiest 1%' once thought possible.

At the upcoming *Traders Seminar*, Eric will show you how to profit from some of the strongest global trends in commodities-based securities including: stocks ... financial markets ... physical commodities ... currencies, interest rates ... precious metals ... semi-precious metals -- and more!

*Plus, he'll share with you his carefully guarded secrets for finding the eight most powerful commodity trends for the next five years - and his 14 investment recommendations to play and ply for maximum profits!*

At Eric's highly popular - *and valuable!* -- commodities workshop, you'll learn:

- Why sustained high oil prices will mean windfall profits for the best low-cost producers - *and for you personal portfolio!*
- Why gold could easily break \$500/oz in the next 12 months -- *and create triple-digit profits for investors - like you -- in the right junior and senior golds!*
- Why the bear market in stocks is barely at the halfway mark - *and how to ride the bear to booming profits in the next six months!*
- Why commodity-based currencies will soar against the dollar - *and where your smart money should lie!*
- Why the derivatives market is experiencing record volumes - *and what that*

*could mean to you in the next 12 weeks!*

Eric Roseman's newsletters (many selling for thousands of dollars, and more, a month) are the stock in trade to nearly 100,000 subscribers. And now, this internationally renowned 'Commodities Maven' will be coming to share his wealth of secrets with *you!*

So, Don't Delay, Reserve Your Seat Now for  
'The World's Greatest Traders Event'!**

By now, I am sure you will agree that if you could only attend one seminar this year, the first-ever **Traders Seminar** is the one seminar to attend.

Because, in fact, the **Traders Seminar** is actually six - that's right, 6 -- seminars in one. And they cover the entire spectrum of investment opportunities - *from penny stocks to biotechs, and every lucrative investment arena in between!*

Each seminar workshop is led by a top financial expert with a consistent track record of unparalleled success. Week after week. Month after month. Year upon year. Whether The Market is mired in muck. Or The Street is paved with gold.

Soon, they will all be gathered under one roof - for two full days - with one goal in mind: *To teach you how to make the kind of savvy investments across The Board that will bring you the maximum returns with the minimum risks in the shortest amount of time!*

No one else has ever offered such a comprehensive, all-inclusive, heads-up **Traders Seminar**. And that's why, once again, I urge you now: *Don't dare miss out on this first-ever, once-in-a-lifetime opportunity to learn all you need to know - to make all you know you need.*

That's how confident I am of this fantastic seminar - *and your financial success.*

The fact is, if you subscribed to the six separate services offered by the Seminar's remarkable team of top financial experts, you would easily pay well over \$15,000 a year - *and consider it a bargain at twice the price.*

But, I don't want you to pay \$15,000 (though, as you well know, many single-subject seminars now sell for that much, and more). I don't want you to pay \$10,000. Or even \$5,000 (though just one hour alone with any one of these gifted seminar leaders could easily earn you 10 times that amount - at least ... in a matter of days ... or even hours).

Simply click on the link below to sign up now (or call toll free 1-888-799-0463), and *you can reserve your front-row seat for the entire seven-workshop seminar for just \$595!*

That's right, *just \$595* for the complete, comprehensive 'World's Greatest Traders Event,' including:

- *Six separate investment workshops teaching you everything you need to know about small caps ... equities ... options ...biotech futures ...selling short ... momentum stocks ... - and more!*
- *Breakout sessions with special training and real investment examples!*
- *Rare opportunities to meet some of the world's leading investment experts*
- *Multi-lesson, self-coaching hand outs to help you apply the lessons you learned at home on your own!*
- *FREE booklets, guidebooks, and brochures to help you move with ease from*

*paper trader to profit taker!*

It's all there, always and only, at the **Traders Seminar** - where we ensure you will learn first hand how to *'make more money in a month than most investors do in a year - working less time in a year than most investors do in a month!'*

But, remember, the first-ever **Traders Seminar** is strictly limited to just 200 attendees. *Once that number has been reached, no other applications will be accepted.*

So, please, don't delay, sign up today for *'The World's Greatest Traders Event '* - and then, get ready to get rich!

I can't wait to see you.

Sincerely,

Myles Norin
