

**For well over a decade, we
have
been holding the world's only
annual Premier Offshore
Advantage Seminar**

Throughout each day you'll be able to visit the central exhibit area where the advisors will be available to work with you one-on-one and answer your personal questions. You'll gain access to a number of prestigious international institutions. And you will have the opportunity to open an offshore account right on the spot, which could be the beginning of a very long and powerful relationship between you and your personal banker.

In addition to two and a half full days of general session presentations, we will also be offering interactive workshops with the advisors, at no extra charge. These smaller

more intimate groups will allow you to maximize the time and attention you receive. You'll get to discuss practical strategies applicable to your very own financial situation. You'll discover simple solutions to specific problems. Plus you'll learn what's on the minds of other members and learn from their unique situations too.
