

In the following table you'll see what would have happened if you put \$5,000 into *every single recommendation Eric made in his weekly emails for an entire year* starting in June 2003... no picking and choosing, no fancy numbers. He calls them...and you call them in. What would you have to show for it?

## **THE \$61,275 BREAKFAST PLATE**

**How Items as Simple as the Food on Your Breakfast Plate Every Morning Can Help You Make Gains of Over \$61,000 in Less than a Year**

<b>Recommendation</b>	<b>Entry Date</b>	<b>Sell Date or Current</b>	<b>Gain/ (Loss) in %</b>	<b>Gain/ (Loss) in Dollars*</b>	<b>Cumulative Gain to Date</b>

\*Assumes \$5,000 invested in each position; percentages based on prices on 7-26-04;

\*\* Past performance does not guarantee future results.

^indicates open position.

An incredible gain of \$61,275 - including gains from closed and open positions in that time!

Just a look at these numbers shows how incredibly powerful and profitable the trend in commodities has been.... And yet, as you'll see, there are still enormous profit opportunities ahead...

### **Knowing The Trends Within The Trend Will Deliver Incredible Profits Again This Year...**

I showed you earlier how the trend within the trend has been energy this year - and the CTA track record in these trades tells the tale. But what's on the horizon?

Breakfast foods...you've already seen how these profits are coming down the pike in a big way with our next big winner - enjoying its spot among the top 1% of its peer companies in the food industry.

Base Metals...CTA subscribers have been watching the trend develop in Eric's weekly emails - the call has been made and we are now in position to clean up in base metals, and hold on for the ride. Steel scrap prices already shot up 121%...but that's not the best story. Aluminum...tin...nickel...are following right behind. Eric has already made the picks that will capture this upward trend...and they're ripe for a buy...

Shipping...Oil tankers...Grain cruisers...getting hard assets around the world is a high-powered job all by itself. We already have seen quick gains last year of 41% on Tsakos Energy Navigation. And Eric has just added some of the best valued shipping companies to his list of up-and-comers. You'll want to know all about the companies he's picked, the trade he's suggesting, and get in right away before prices start their upward climb....

Eric has a solid read on what's ripe for profits in the next 6 to 12 months - and he's prepared an exclusive report - for CTA subscribers only - that will tell you all about it. Five commodity trends heading straight into the CTA portfolio will all be outlined and explained in CTA Special Report: Power Trades for Profits in 2004-2005.

### **Easy Reading and Easy Trades Make You Easy Money**

Eric doesn't just help you make money - he saves you time, too. You'll appreciate the quick and easy communication that always gives you the information you need to know - fast and actionable:

**Weekly Private Trading Bulletin:** This concise report comes right to your email in-box every week detailing developing trends and how to respond, updating you on current trades and new investment opportunities, and providing easy-to-understand insight and analysis.

**Best Buys:** A subscriber favorite...Eric's top picks assembled in an easy-to-read graph at the end of every private memo. If you're short on time, you just need to scan down to the weekly chart, make your trade - see how things are going - and you're done.

**CTA Portfolio:** Updated every week, you can track exactly where things are for the week. Quickly and easily find your picks in the bunch - and on the bottom check to see the latest recommendation to buy, sell, or hold.

**Special Alerts with Breaking News:** Eric doesn't just wait until it's time to send you the next message - when something big happens that might affect your portfolio, he'll shoot you a fast bulletin so you can react quickly with a new strategy. This doesn't happen often - but if there's something you need to know fast, Eric's going to make sure to get the word out.

**You are invited to join a select group of subscribers...**  
*Don't wait for the crowd to discover*  
*what is as plain as the breakfast on your plate this morning*

Why do some investors make money hand over fist, while others walk away disappointed? Because 90% of investors get in on a trend when it's already too late! Look at the bull market in the 90's in stocks - 85% of all net mutual fund inflows in the United States since 1991 was invested after 1998 - just two years before the bear market hit - and way after most of the real gains were made.

Waiting until a trend is more than halfway through its life span is neither safe nor profitable - but unfortunately, it is what most people do.

That's why I'm inviting you to get in on this bull market now while it's still young by getting your risk-free trial subscription to **Commodity Trend Alert** today. Eric's latest recommendations are hot right now - so I've created a special quarterly sign up for just \$249.

You'll be able to download Eric's special report today - and you'll have three full months to start pulling down these unbelievable profits for yourself. If you decide to continue with your weekly subscription- or become addicted to getting great investment leads is more like it -- you will be billed every three months for as long as you choose to keep it going.

If you're like CTA subscriber Glen S. from New Orleans, you could make the cost of your subscription back on your first trade... then go onto make triple-digit profits from there.

**Your No-Risk Guarantee:**  
**Don't let a moment's hesitation claim the profits that should be yours**

I'd rather see you not waste a moment, but order right now, while this trend is still fresh. So I'm going to take all the risk out of the decision for you:

*If you're not making money in your first 30 days of receiving the **Commodity Trend Alert** ... or if you're not satisfied for any reason at all...I'll give you a full refund. The **CTA Special Report: Four Great Resource Plays for 2005**, is yours to keep. And if you should cancel after that for any reason whatsoever, you'll get a prompt refund for the unused portion of your subscription. Plus, we'll throw in one more free gift to welcome you as a new member of the service. As soon as I receive your order, I'll also send you **8 Powerful Trends for the Next 5 Years and 8 Investments to Profit from Them** .*

It didn't take long for me to see what Eric was seeing - the incredible new bull market that commodities was presenting to investors. But I have to admit that I didn't immediately know how to take advantage of this trend. Most brokers will just give you a blank stare - or worse, an earful of warnings - if you mention that you want to start trading in commodities.

In this quick and easy guide, you'll learn from Eric himself how you can best play the commodities card...how to buy the right stocks, and make the right plays...how to select options, sell short, and effectively use strategies that will keep your money safe and still make the most of the momentum upward in this new bull market.

Between these two reports, you'll understand the trends that are developing in the world's fastest rising sector, know which trade picks will make you double and triple digit gains, and figure out exactly how to place your trade to make

the most of the CTA recommendations you'll get each and every week.

That's 30 minutes to figure out how to get started...a free report on the inside strategies and hottest picks...a weekly report and updated portfolio with results posted...best buys available at-a-glance...and a no-questions-asked, money-back guarantee. Hard to beat.

There's only one catch. Because of Eric's incredible track record (especially in the face of a falling stock market), ***Commodity Trend Alert*** has become one of the most sought-after high-level trading services in the world. And the last thing we want is to 'crowd' our trade recommendations. So we need to reserve the right to limit the number of memberships we can accept at any one time.

That means ***I can only guarantee your place for the next 7 days***. Then, we may have to put a hold on new memberships until the next open period.

So please don't delay. Click on the 'subscribe now' button below. As soon as I receive your order, I'll send you the free report and the 30-minute primer right away. Remember, the thirty-day guarantee means you'll make a lot more money on your investments right away or you can get a refund of every dollar you paid- so don't let another minute pass.

Sincerely,

Erika Nolan  
Publisher, *Commodity Trend Alert*

P.S. Some of the recommendation and trends that Eric lays out in his report for subscribers are extremely time-sensitive. In a few weeks or months they will still be good buys - but today they are incredible triple-digit buys that could single-handedly cover your first quarterly payment for the CTA. Keep in mind that in just six weeks in the spring, CTA subscribers who were paying attention were able to turn \$5,000 into \$19,600 on just one trade. You don't want to leave that kind of money lying on the table - especially not when you've got an iron-clad satisfaction

guarantee backing you up. As soon as I get your order, I'll rush you *The CTA Special Report: Four Great Resource Plays for 2005 and 8 Powerful Trends for the Next 5 Years and 8 Investments to Profit from Them* which are yours to keep no matter what. These two reports alone could be worth tens of thousands of dollars in investment gains to you. So please don't delay. Grab your spot in line today, before the open membership spots close out - and you're stuck with the paltry returns of the S&P for another season.

P.P.S. - Just in the time it took for me to write you this letter, Eric closed out on another triple-digit winner - Petrobras. Last month it was 22% and climbing. On August 23rd Eric sent out one of his special alerts and handed CTA subscribers gains of 113% since June 21st by having them sell Petrobras January 2005 30 Calls at market. At this rate, the next triple digit winner is just another 6-8 weeks away - and you could be in on this one if you accept my no-risk offer today...
