

If you knew the six international options
experts
I am about to introduce you to, you might
have
taken the market for a million dollars
-- *or more* -- last year alone.

Chances are, you don't...

So, how about this year?!

Welcome to the...

Agora Wealth-Options Seminar

'The World's Greatest Options Event'

June 4 & 5, 2003

The Fairmont Chicago Hotel

You could be just *two days* away from earning record profits of 100% ... 500% ... 1,000%. *Or more.* Every few weeks. *Or less.* Here's how ...

Dear Investor,

Let me ask you an important question -- one that gets right down to *your* bottom line.

How would you like to have earned sky-high profits *last year* of 100% ... 250% ... 500% -- or even more -- *on a single stock market investment?*

In fact, let me go even further ...

How would you like to have earned profits that high *in just 30 to 60 days?* (Or, even less?)

And, now, let me cut right to the chase ...

How would you like to have earned profits that high ... in that short of a time ... and then have been able to do it over and over -- all year long?

Well, now you can. And, in fact, you should. Because ...

*On June 4 and 5, The Oxford Club and Agora Financial will present the **Agora Wealth-Options Seminar** -- featuring the inside secrets of six of the world's leading experts on turning stock options into instant wealth.*

It's already being heralded as 'The World's Greatest Options Event.'

And you are invited to attend!

In two exciting days of workshops and group meetings, you will learn quickly and easily ...

- *How you can triple your money in trade after trade -- with the 'Secret Money Switch' that returned a \$300,000 profit -- in just one day!*
- *How you can cash in consistently with the highly leveraged 'LEAPS System' that's already identified the next 27 companies with a series of fast-paced, rapid-fire 20% to 145% profits in the next few months alone!*
- *How you can turn pennies a day into a personal fortune with the 'Secret Signal' that in 2002 alone made 111% in just 22 days ... 300% in 19 days -- and an astounding 504% year-end net return!*
- *And how you can double your money each and every month with the 'Q-Wave Profit System' that's averaging a remarkable 18.55% stock options return -- every 6 days!*

Now, if those sound like your kind of profits (and, I'm sure they do!), then the **Agora Wealth-Options Seminar** is your kind of place.

But, I urge you to make your reservations now - because only 200 seats are available for this highly informative **Options Seminar**. And if you are one of those select 200, the **Seminar** will guarantee your success in the remarkably rewarding stock options trading market.

Just imagine what that could soon mean to your investment income ...

The Agora Wealth-Options Seminar Will Turn the 'Shoulda-Coulda-Wouldas' into Money in the Bank

I'm sure it's happened to you. Probably more than once. It sure used to happen to me. All the time...

Let's say you're talking with a group of colleagues who like to play the market. Just like you. Everyone puts in his own two-cents worth - mostly woeful tales about the Dow down 17% for 2002 ... the S&P dropping 23% ... and Nasdaq nose-diving by nearly a third. A lot of 'shoulda-coulda-wouldas' there.

Then, someone reminds you of the options play he told you about a few weeks ago. And you know what's coming. Sure enough, he made a 200% profit ... *in just 15 days* - and he's now back in the game with a covered call set to make him even more ...

And, if you're like I was, you grind your teeth and shake your head because, *once again*, you've missed out on a quick cash killing -- all because you still haven't learned the simple rules for turning calls and puts into cash in the bank. Time and again.

Well, the fact is, it's exactly that kind of scenario that prompted us to put together the **Agora Wealth-Options Seminar**.

Frankly, I got tired of hearing my friends talk about the newspaper stock tables as if they were the obituary columns. Especially when I knew that if they were trading in stock options instead of blue chips they'd be making a fortune instead of losing their shirts.

Of course, I had an advantage. Working for a successful financial publisher put me in direct, often daily, contact with some of the world's leading stock options analysts.

I'm talking about guys who routinely make 250% ... 500% -- even 1,000% -- returns on a single trade. And then, they go out and do it again. And again. *Regardless of whether the market is on the rise, or dropping like a rock!*

I knew that some of these respected and renowned options analysts were not only millionaires themselves - many times over. But that they were making millions upon millions of dollars a *year* for thousands of customers worldwide.

And that they could now do the same for you!

That's when I put together the upcoming ***Options Seminar*** - and decided to send you this special invitation.

Let me tell you all that you have in store - *just by being one of the first 200 to reserve your seat at the **Agora Wealth-Options Seminar** ...*

Agora Wealth's Faculty, Format, and Focus
-- All Geared to Guaranteeing Your Success!

When the ***Options Seminar*** opens on Chicago's Miracle Mile On June 4th,

you will know immediately that you are in for the *lucrative* learning experience of a lifetime.

That's because **Agora Wealth Seminars** are unlike any other investment event you have ever attended (or, for that matter, made it a point not to).

This unique two-day event is designed to make absolutely certain you walk away with the knowledge - and readily available resources - you need to start making a stock options killing from your very first trade.

That's right, even with the Bear still on the prowl, you can make your money -- **NOW!**

From the moment you meet the presenters you will know immediately that with the **Options Seminar**, there is no long-term learning curve. There is no get-your-feet-wet waiting period. And there is no buy-our-book-and-go-back-home cop out.

The **Agora Wealth-Options Seminar** is carefully structured to give you insightful instruction - *so that you can earn as you learn from the first hour on!*

You see, the international options experts you will meet - each accustomed to making double-, triple-, and quadruple-digit profits - are chosen not only for what they know, but also for what they can show - you.

In short, they'll make your learning curve a straight shot - *from basic principles to booming profits, literally overnight!*

With easy-to-follow, step-by-step instructions...

- **You'll find out** ... how to spot the trends - early on - that tell you when a call or put can multiply your money *many times over* regardless of the market's direction!
- **You'll discover** ... the secrets brokers don't even know for minimizing your risks *and maximizing your returns* with covered calls and timely stops!
- **You'll learn** ... how to get quick - continuing - access to the top professionals' *inside tips on which options will optimize your income!*
- **You'll take home** ... the **FREE** Oxford Club Special Report '*Understanding Options.*' An easy to understand guide to options, written for both the savvy options expert who needs a refresher course and the beginner investor just starting out.
- **You'll soon begin multiplying your money** ... week after week with *blockbuster trades using the same strategies as the **Wealth Seminar's** internationally acclaimed, award-winning faculty!*

Actually, it's that last point, in the final analysis, that I believe sets the **Agora Wealth-Options Seminar** apart from any other financial forum as '*The World's Greatest Options Event.*'

I can assure you that this renowned faculty of options experts has been gathered under a single roof with one purpose in mind: *To help make you money. And lots of it.*

In short, these options analysts - the '*Brain Trust*' as we call them - can help you make more money in a month than most other investors will make in a

year. Or, perhaps, even a lifetime. Here's why ...

**The *Agora Wealth-Options Seminar* Brain Trust -
In Just Two Days, These Six Experts Could Help You
Build a Family Fortune That Can Last a Lifetime!**

The instructors at the ***Options Seminar*** collectively bring to the table nearly 50 years of successful - no, make that *highly* successful - wealth- building experience.

Week after week ... month after month ... year upon year, they have helped turn inexperienced novices into acknowledged experts, paper traders into profit takers, and small-time players into big-time winners.

On June 4th and 5th, at The Fairmont Chicago Hotel - *that's right, in just two days!* -- they can do the same for you.

So, let me tell you, just briefly, a little about the five-star faculty you will soon be *meeting face to face as you take part in, not just one, but six* insider's presentations ...

***Agora Wealth-Seminar #1:
Steve Sarnoff's 'SuperLeverage Money Switch'!***

Options guru Steve Sarnoff was born into the world of high-level investments - *and returns*. His father, the original 'Gold Bug' Paul Sarnoff, changed the face of Wall Street with his legendary investment strategies.

And Steve has built on that renown. In the late '80s, he

pioneered the use of Japanese candlestick charting to accurately predict stock and commodity price movement. He has been called 'the master of candlesticks,' by the publisher of *Dow Theory Letters*. He's been a guest on *Market Talk* and frequently quoted in *Barron's*.

And little wonder: Last year alone, Steve's options recommendations pulled down an average return of 116%. *In fact, had you invested just \$5,000 into each of his recommendations, you would have pocketed \$221,387 in raw profits! And that's on top of \$184,525 potential profits in 2001 and \$175,500 in 2000!*

Just a random sampling of his last 16 *Options Hotline* recommendations in 2002 will help you understand just how powerful - *and profitable* - his *SuperLeverage 'Money Switch'* can be:

- 898% gains on TRW in just 1 month!
- 858% gains on Navistar in just 49 days!
- 360% gains on Halliburton in just 35 days!
- 292% gains on Qualcomm in just 3 weeks!
- 17% gains on Newmont Mining in just 1 day!

What makes these examples so exciting is that they're not exceptional. What Steve has done for thousands of other clients, he can now do for you on June 4th and 5th.

You'll walk away knowing not only how to multiply your money in record time -

but also how to do it on a daily basis.

Try getting that kind of return with blue chips, money markets, or mutual funds. And remember, with the Sarnoff system, you can profit whether the market moves up or down. At the **Options Seminar** he'll tell you how - *step-by-step, day in and day out!*

You'll learn:

- How to grab your share of options profits - without taking big risks - by making just a few timely, targeted trades a month!
- How to get started on pennies a day - and build a bulging bankroll!
- Exactly which options to buy for maximum profits ... how much to risk ...and how to lock in profits!
- The ins and outs of effective 'paper trading'- so you can test the waters before you dive in!

Plus, as Steve's special gift to all who attend, you will receive a FREE COPY of his *Options Buyer's Handbook*. This information packed publication contains everything you wanted to know but were afraid to ask your broker! Just one profitable trade could pay for the entire **Wealth Seminar** - many times over!

But don't take my word for it... look at what subscribers have to say about Steve's service,

'I started with you exactly one month ago...and doubled my money the first time around!' **David R. - CA**

'In Friday at \$1.55 and out Monday at \$2.20. That is a quick 41.0% gross profit in less than 2 trading days. It just doesn't get any better than this!!! Thanks for your excellent service.' **Robert K.**

And that's just the beginning -- because Steve's course is just one of the five insiders seminars in which you will be entitled to participate.

You'll also have a front-row seat at ...

Agora Wealth-Seminar #2: Dr. Steve Sjuggerud's 'Secret Signal'!

Dr. Steve Sjuggerud earned his investment advisory wings as a highly successful stock broker, global mutual fund vice president, international hedge fund manager, and head of several leading independent research operations.

But, it wasn't until his decade-plus analysis uncovered his incredibly accurate stock market 'Signal' that he founded the *True Wealth Trader* options service that has made him famous.

And made many of his clients wealthy.

And now, as one of the select 200 participants in the 2003 ***Agora Wealth-Options Seminar***, *it's your turn to turn a profit!*

In 2002, Steve's average gain per trade was 12%, with an average holding period of only 15 days -- that's about a percent a day! This included profits of as much as 111% ... 340% ... and 341% on a single trade!

With results like that, over the course of a year your returns would truly be fantastic... And remember, that was at a time when the Dow was losing 20% and the NASDAQ had plummeted 40%.'

For you, that means money in the bank - before other investors have even placed their bets. In Steve's words:

'Because we are in and out of these trades quickly, this system does not require a large outlay of cash at any one time. We make money. We cash out. And we move on to the next opportunity.'

For example...

- When other analysts were telling their clients to buy options on K-Mart earlier this year, Steve told his clients to get in on the other side. *As a result, they made 300% in just 19 days!*
- When other analysts were telling their clients to buy options on Oracle, Steve took the other side. *And his clients made 51% profits in just a few weeks!*
- When other analysts were telling their clients to buy WorldCom options in May, Steve again took the other side. *And his clients made 111% in just 22 days!*

Imagine making so much money - in so little time - under the guiding hand of one of the world's leading options experts (an expert, I might add, whose **True Wealth Trader** service has sold for \$10,000 a year).

Well, now you can stop imagining and start investing - because at the **Agora**

Wealth-Options Seminar, Steve Sjuggerud, PhD, will be your options trainer!

And, yet, there's even more ...

***Agora Wealth-Seminar #3:
Adam Lass and Bryan Bottarelli's 'Q-Wave'***

When you first meet Adam Lass and Bryan Bottarelli, you're liable to think 'Who are these guys?' They are certainly not your classic navy blue suit and power tie types. Adam's more likely to be found wearing a rumpled tweed jacket and reading Shakespeare, while Bryan fits in best on the bleachers of Wrigley Field.

But, don't be fooled - because these two guys put together have come up with a system so uncannily accurate, it has revolutionized the options game. In fact, they are currently averaging 18.55% returns in just 5 days on their recommended investments.

And that's enough to make you a millionaire by this time next year - starting with just \$2,000!

Adam is actually the creator of the analytical system upon which the Q-Wave is based. He based the system on (as he says) 'a careful combination of proven technical indicators: Head and shoulders formations, pennant structures, Japanese candlestick charts, Fibonacci mathematical techniques, and fractal statistical analytic data that predict the strength of market dips and rallies.'

But, don't worry, as of June 4th and 5th, all you need to know is that it can make you a millionaire. Quickly. And easily.

Bryan came to the Q-Wave through a different route: He rose up through the onerous crucible of the CBOE (Chicago Board Options Exchange) sweat-filled options pits. There he learned the hard way how to make easy profits.

And now, you can wring your wealth from the sweat of his brow!

Lest you have any doubts ...

In one recent series of trades alone, here's how **Q-Wave** clients saw their profits pile up in a single 45-day period:

100% profits in 2 days on the very first trade ... an incredible string of 8%, 21%, 23% 6%, 11%, and 23% profits in an average of four days each ... then 86% profits in three days ... a whopping 104% profit in eight days ... and finally a remarkable streak of 69%, 25%, 104%, 12%, 28%, 23%, 55%, 38%, 67%, 21%, and 72% profits - all in a row!

With results like those, it's no wonder Adam and Bryan are getting reports like these:

- *'I subscribed to your alert service on Dec. 31, 2002. Bought the Jan. 27 calls at \$.15. Sold on Jan. 6, 2003, at \$.40. A 166% gain in 6 days! - Bob F.*
- *'I subscribed to your service in late December. On 12/31, I entered your 12/30 play and turned a 138% profit before exiting on January 6. Yesterday, I bought 50 contracts of the Feb. 26 and sold them in one day*

for a 27% profit. Needless to say, you can count me as one of your very satisfied subscribers.' - **Ted P.**

- *'Congrats on a good trade. By my count, around 35% in 24 hours. Not bad.'* - **Dean S.**
- *'Thanks for the recommendation. Here's the update. Held the Jan.25's for 3 days. Bought at 1.10 and sold at 2.00 for an 82% gain!'* - **Ed C.**

Pretty incredible, right? Well, here's the most amazing part of all: *It can take you less than five (that's right, 5) minutes a day to turn a profit with the incredible Q-Wave system. And at the **Agora Wealth-Options Seminar**, Bryan and Adam will give you precise instructions on how to select and enter trades.*

Plus, they'll give you their FREE SPECIAL BONUS REPORT -- ***Five Secrets of QQQ Pit Traders: How to Make Winning Investments as Wall Street Brokers Lie through Their Teeth*** -- just for being one of the select 200 to take advantage of the first-ever **Agora Wealth-Options Seminar** offer!

That's three exciting, exclusive options seminars under one roof - for under \$500. But, we're still not done ...

Agora Wealth-Seminar #4: **Karim Rahemtulla's OPTIONS ADVANTAGE** ***'LEAPS System' for Long-term Profits!***

Karim Rahemtulla is known internationally as '*The Oxford Club's Options Expert*' - which, considering the *bona fides* of *The Oxford Club's* roster of executives and consultants, is high

praise, indeed.

But, it is high praise well earned. Because, not only is Karim the former investment director of *The Oxford Club*, he is currently the executive director of the *The Supper Club*, America's most exclusive venture capital forum.

And, Karim's highly popular OPTIONS ADVANTAGE service - with its long-term, leveraged LEAPS System - is earning the highest praise from current subscribers nationwide:

** 'One of my best trades of the year was buying calls on Home Depot. I held them less than two weeks and sold them for a 67% profit.' - Beverly M.*

** 'I purchased American Airlines at the recommended price and sold them 22 days later with a 64% profit.' - John W.*

** 'I bought the calls on Fleet Boston on July 31st and sold the very next day and made over 18%.' - B.L.B.*

** 'The AMR (American Airlines) and HD (Home Depot) calls made me over 60% in less than a month and on the TOL (Toll Brothers Housing) puts I profited 40%. This is incredible!' - James P.*

** 'After telling a friend about my recent 13-day 34% profit on Placer Dome as well as two 60% plus gains on AMR and HD, it did not take long for him to join us. Keep up the good work!' - Kenneth S.*

With plaudits like those, it's no wonder that *OPTIONS ADVANTAGE* is moving *LEAPS* and bounds ahead of the competition. And, now, it is that same proven wealth-building system that Karim will share with you in Chicago on June 4th

and 5th when he hosts the ***Agora Wealth-Options Seminar***.

In a presentation not to be missed, you'll learn:

- How to make an incredible \$295,000 in profits - *in the next 6 to 12 months*
- How to make 24% to 36% profits year in, year out -- in any market - with an investment strategy so safe it's earned the IRS coveted 'stamp of approval!'
- How to get in - *now* - on two remarkable plays that could put \$25,000 to \$30,000 in your pocket *in just a matter of days!*
- How to take advantage of a *LEAPS System* that recently produced gains of 43% in a month ... 46% gains in 3 weeks ... 37% gains in just 2 days ... and an incredible 64% gains in 3 short weeks!

Plus, Karim will share ***THE SECRET OF COVERED CALLS - How To Buy Great Stocks At A Substantial Discount!*** It is this secret that recently produced rapid-fire profits of 11% on Cisco ... 28.2% on Reader's Digest ... 46% on Starbucks ... 23% on National Semiconductor ... and 42.8% on Sun Microsystems. All in a matter of days!

Karim's unique approach to picking winners has produced 74 profitable picks out of 84 recommendations in the past three years. *That's a remarkable 88%-plus success rate!*

And, now, you, too, can cash in on his expertise at the ***Agora Wealth-Options Seminar*** -- *'The World's Greatest Options Event!'*

Agora Wealth-Seminar #5: Lynn Carpenter's Contrarian Speculator!

Lynn Carpenter is not your '*typical*' trader. In fact, she's pretty much the opposite of what you probably picture when you hear the word 'trader'... she's not a 'type-A' personality, she doesn't shout '*buy!*' or '*sell!*' into the phone then slam it down... and she doesn't have a plaque over her desk that reads '*Live fast or die!*'

Lynn came reluctantly to trading. She already ran a very successful investment advisory service, *The Fleet Street Letter*. With profits like **144% on a Japanese tea company called Ito En**, **64% on Office Depot**, **152% on H&R Block** and many more, her record as a Buffett-like sleuth who consistently identifies long-term value was well established.

But Lynn saw the opportunity to apply the same scientific approach she uses so successfully for investing and help traders take advantage of quick, leveraged profit opportunities. First, her system eliminates all unnecessary risk in any trade by analyzing and understanding the underlying company as well as if you owned the stock. Then her technical analysis identifies exactly when to 'pull the trigger.'

And she's picky. Lynn never forces a trade. She will only recommend a play when every single indicator points to 'go'... and only when the profit potential is at least two times the risk.

That's how ***she's achieved profits greater than 100% on sixteen different trades in the last 42 months alone*** for subscribers to her Contrarian Speculator service!

But just as important as double-and triple-digit profits is how she maintains such a high accuracy rate of picking winners. Consider a recent 12-week span, when she fired off eight quick profitable recommendations in a row:

14% gains on a Motorola short sale and 56% gains on a Motorola put... in 8 days

53% profits on Tiffany calls... in a little over a month

43% gains on Alltel calls... in 32 days

53% profits on Alcatel puts... in 15 days

139% profits on Nokia puts... in 12 days

271% profits on later issue Nokia puts... also in 12 days

79% profits on Enron puts in a week and a half

Her *Contrarian Speculator* subscribers are thrilled.

'Using your target and your information, I bought 3 Citigroup puts... 22 days later on 9/07/01... I sold all three puts generating a 122.39% profit!!'

'As a new subscriber, I am thrilled with what I have seen so Far.'

'I just got out of the PVN Mar 5 Calls. I purchased them on three different occasions for varying prices and AVERAGED a 154.25% return on investment...That's a HOME RUN. Way to go! '

What a great service! ... I really love {Lynn's} style of trading, and is she on target or what? Hope you keep the number of subscribers strictly limited to keep a good thing going.'

And just for attending the Agora Wealth-Options Seminar, you will receive FREE Lynn's special report, Strategy Guide. In it Lynn details her unique

analytical system to show how YOU can make quick, big profits... but always with a minimum of risk. It's an invaluable tool for any trader.

**Enrollment is Strictly Limited to 200 Participants -
The Baltimore Options Seminar Sold Out In The First Two
Weeks**

**So, Don't Delay, Reserve Your Seat Now for
'The World's Greatest Options Event'!**

I believe that by now you will agree that the upcoming ***Agora Wealth-Options Seminar*** is the one investment event of the year you literally can't afford to miss.

In fact, it is really *five* seminars in one - each led by a renowned options expert with a consistent track record of remarkable success. Week after week. Month after month. Year upon year. In good times and bad.

And soon, they will all be gathered under one roof - for two days - for one reason: *To teach you how to turn stock options into investment income. Quickly. Easily. In any market. In absolutely incredible amounts.*

Let me put it this way: *There is simply no way for you to make more money ...in less time ... with lower risks ... and higher returns than to take the advice of these experts - all the way to the bank!*

And, now, you can. Not by reading their newsletters or subscribing to their services (though plenty of satisfied clients have made six-and seven-figure incomes simply by doing just that). And not by tracking them down individually and seeking their expert advice (though that would certainly be well worth your while).

The fact is, if you subscribed to these six experts' stock option services, it could have cost you well over \$10,000 a year. And each of them has participated in seminars that cost at least that much - or more.

But I don't want you to pay \$10,000 for the five **Wealth Seminars** (though it would be a bargain at twice the price). I don't want you to pay \$5,000. Or even \$1,000 (though even one hour alone with any one of the **Seminar's** options experts could easily earn you 100 times that much on a single investment).

Simply click on the link below to sign up now, or call toll free 1-888-799-0463 and *you can reserve your seat at the **Agora Wealth-Options Seminar** for just \$495.*

That's right, just \$495 for the complete two-day options event including:

- *Five separate options presentations teaching you everything you need to know from elementary techniques to advanced strategies!*
- *Fully supervised exclusive training with real life examples!*
- *Intense instruction from the world's leading options experts!*
- *Multi-lesson, self-coaching handouts to help you apply the lessons you learned at home!*

We are certain that this **Options Seminar** will be a success. You can't lose, and you will win - as I said earlier - *'more money in a month than most other investors will make in a year. Or, perhaps, even a lifetime.'*

But, remember: The ***Agora Wealth-Options Seminar*** is limited to just 200 attendees. Once that number has been reached, no further applications will be accepted. Scores of eager investors missed out on the Baltimore event by registering too late. Don't let that happen to you!

So, please, don't delay. Sign up today for '*The World's Greatest Options Event*.'

I look forward to seeing you!

Sincerely,

A handwritten signature in black ink that reads "L. Davis". The signature is written in a cursive, flowing style.

Laura Davis
Director
Agora Wealth Seminars

A handwritten signature in black ink that reads "S. McDonald". The signature is written in a cursive, flowing style.

Steven McDonald
Director
Oxford Club VIP Trading Services

P.S. Keep in mind that this event is taking place just a few short blocks from the Chicago Board Options Exchange - the nerve center of American options

trading. You may want to come early or stay on an extra day to tour the facilities!

P.P.S. We just got word that a special guest will be speaking at the **Agora Wealth-Options Seminar**. Dr Van K. Tharp, renowned author, founder of the International Institute of Trading Mastery, and an expert in investor behavior and psychology, has just signed on to speak. *USA Today* points out he 'has a six-month waiting list' of investors eager to have their performance sharpened by his expertise.

The Chicago and Baltimore Conferences both sold out.

To register for our Seattle Options Seminar September 29th and 30th, 2003 -

Please call 1-888-799-0463 or email gperry@agora-inc.com.
