

In three weeks, he turned \$950 into a \$112,000 profit without investing a dime in stocks, bonds, futures or real estate.

He also works whenever he wants. Lives wherever he pleases. And amasses a fortune around the world 24 hours a day. I've asked him to show you how you can do it, too!

Dear *International Living* Reader,

Imagine the wealth you'd control if someone were to show you, step-by-step, how to make \$1,650 in a single day. Not enough you say? Well then, how about doubling it-say \$3,300?

Let's see, over one year, that would give you...\$1,204,500!

Now, I don't know about you, but to me, that's a lot of money, And you can bet I'd watch the person who could show me how to do that very, very closely. But let's really push the envelope. Suppose you were able to accumulate profits like this without risking one dollar of your hard-

earned savings on equities...commodities...bonds...real estate-or any other type of financial investment product.

No-I'm not about to propose some new 'MLM' scheme. But a way you can generate thousands of dollars a day. A way that-up until recently-was reserved only for the mega-corporations of the world. Firms like Coca-Cola...Disney...General Motors...Microsoft.

But before I tell you more, allow me to introduce you to one of the most unique individuals I know. Someone who actually made these profits-and continues to do so on a daily basis.

Gary Scott-his name sounds familiar to you. Gary is a contributing editor to *International Living*.

I've known Gary for a long time and over the years he has advised and worked with us often. Many of the ideas and facts that we have been able to share with you have been learned by Gary, the hard way, through experience. He left the United States 36 years ago and has been conducting businesses globally since. I truly hold him in the highest esteem. You see, Gary is a self-made multi-millionaire. But it's not really what Gary does for a living that's so important. It's how he does it...

Gary's life is a lot different from most investors. Every day he and his wife Merri are up at sunrise leisurely strolling through pristine woods at their 252-acre debt-free North Carolina farm. On other days, they are at their 400-acre hacienda on the equator in Ecuador. After taking a walk in tranquil woods and watching a Great Blue Heron splash in the mile of creek that runs through their land or watching an Andean dawn, this extraordinary couple heads back to their home where they primarily do as they feel.

Some days, if the kids are home, they'll play. Other days, they might take out a canvas and paint. Maybe sit in the sun with a good book. Or even take a short trip.

But throughout the day, there's something else going on, something that would be totally

imperceptible to us. Gary is really doing something quite different from what he appears to be doing. Gary is running a business...a very profitable business.

Hundreds, thousands-even tens of thousands of dollars are being sent to him. Money pours in every day, twenty-four hours a day!

Just imagine what it would feel like to go to bed at night, and even before you wake up, your income has skyrocketed. Well, that's what Gary experiences, just about every day!

Get Rid of the Boundaries That Limit Your Wealth

If this is the type of life you've always dreamed about, then please read on. You're about to get the details on one of the most significant, wealth-building opportunities you've ever seen.

One of the simplest ways you can make a fortune is owning and operating the business that YOU want to own, Not someone else's business. Not the world's most perfect business.

YOUR business. Your international business.

One that will provide you with a vast, expansive market and unlimited profit potential!

How unlimited?

Take Gary Scott's own experience...

'On a Tuesday morning. I wrote a brand new international marketing piece for a newsletter I had developed. I decided to test it immediately and send it out to 22,703 people. Boy, did I get the surprise of my life. In just a little over two weeks (17 days to be exact), my mailbox, exploded with \$59,043 in foreign checks. That was over 300% higher than a domestic mailing I had mailed previously. And two months later-my return climbed to over 600%!'

Now of course, like everything else, this business takes some work. But you probably won't care...because you'll finally be...doing what you love to do!

And you're four times more likely to get rich!

According to a survey conducted by the authors of the *New York Times* best-seller. *The Millionaire Next Door*, most of the affluent in America today are business owners. People who acquire wealth on their own.

And although this group represents less than 20% of the workers in America, a full two-thirds of them are millionaires--and they are four times more likely to be millionaires than those who are forced to work for others.

Why? Because working for someone else is no way to get rich. Just look at the number of people you know who have good jobs but are still living from paycheck to paycheck.

But there's more at stake here than making money. Most of these highly successful individuals didn't start their own businesses because of the potential windfall. When asked what factor drove them on, most entrepreneurs said- first and foremost...

They wanted the freedom to work wherever and whenever they liked!

You see, as an independent business owner, you're in total control of your own destiny. You're the boss. Which means you'd never have to worry about getting fired, laid-off or forced into early retirement by some ruthless employer again.

You Can Make More Money No Matter What the Circumstances

Owning a business definitely has its advantages. But why an international business? Gary sums it up in two words: Market share!

You see, operating a business on an international level gives you the freedom and flexibility to move quickly...to adapt to any market situation and dominate it!

Gary explains it best...

'Profitability and market security are additional perks Merri and I have gained by running our home-based international business. If our business faces a downturn in a local market because of recession or competition, there's always another market somewhere in the world where business is ripe. It's so easy to do business this way!'

And make no mistake here. Today's computer technology allows you to communicate with unprecedented speed from anywhere on the globe!

Whether you run your business from a castle in Scotland or from a private retreat in The Bahamas, you'll be entirely free to choose where in the whole wide world you want to live.'

And, as Gary Scott points out, where to market...

'1993 and 1994 were enormously wonderful years. Business doubled and everything just seemed to work better. We made millions. But then, in 1995, the market in the U.S. suddenly turned cold and many of my competitors folded. Me? I had a banner year-the third best I've ever enjoyed. How did I do it? I simply shifted my focus to Eastern Europe, and gained millions in new customers.'

Here's something else that's sure to raise your eyebrows...

Since you're usually serving different time zones, you also get to choose your own hours. Now of course, there will always be those days when things aren't going as perfect as you wished they were, and you could find yourself getting a bit more involved than you originally planned. But even on those days it will be your decision not someone else's demand.'

As Gary says, *'We run our business. Our business doesn't run us!'*

Play the Tax Game the Way the Rich Do

Now here's something that's sure to make you cringe...

The average American works five to six months for the government before they make enough money to cover their taxes!

Five to six months. But even worse than that-what that really means is you're a 50-50 partner with the government! Now I don't know about you, but something just isn't right here to me... seems as though the harder you work, the more 'your partner' makes!

Well, that's just another reason why owning your own international business makes sense. Your tax profile changes dramatically in your favor. You'll gain enormous tax benefits-and be able to take advantage of some great loopholes the IRS would rather NOT have you know about.

If your company carries on commercial activity overseas, an offshore structure can protect your assets from local lawsuits while giving you some big tax breaks. And it doesn't matter whether you're operating from a commercial office building-or a desk right in your own home. In the simplest cases, these benefits can turn after-tax expenses into tax-deductible expenses.

In the best cases, they amount to earning and holding large amounts of profits totally tax-free.

You see, overseas companies provide protection by owning assets that are held outside of the country where you live. If you own shares of that company, the assets are under your control. This means you could keep your ownership of the corporation totally private if you like, making it less likely you'll be sued. And assets that are owned by an overseas company are usually beyond the jurisdiction of local courts.

Oh yes, and something else that might interest you...

Non-U.S. corporations that have been correctly organized and do not do business in the United States do not have to file with the IRS-so they never owe any U.S. tax!

Recently, Gary was telling me how even the simplest foreign structures can be used to gain some pretty hefty deductions...

'As an investment advisor In Hong Kong I used a simple, single corporate structure utilizing a Hong Kong company. Since I was an American citizen but a Hong Kong resident, I had two sets of tax laws to be concerned about. The U.S. tax law exempted a large chunk of earned income and gave me 100% U.S. tax relief on overseas taxes. Meanwhile the Hong Kong tax law was such that only local income earned was taxed (at only 15%). Since I was operating in several other countries besides Hong Kong-only a small portion of my income was taxed.'

Now please-don't be misled. Gary will be the first to tell you that this stuff can really get tricky. And there's really only one international structure that's foolproof in reducing taxes

Which one? Well, here's the best way to find out...

How to Create Your Own International Fortune

As you can see, there's a tremendous amount of wealth and control at your command when you wield the power of an international entrepreneur. And knowing how important it is to be one of the first into a new market with a new idea, we wanted you to gain that power quickly.

That's why we decided to publish one of the most comprehensive, easy to learn courses on international business ever developed.

It's aptly called **International Business Made EZ** and was written by Gary Scott.

Even if you've never owned a business before-have never traveled abroad nor have any intentions of ever doing so-**International Business Made EZ** will show you how to take total

control of the new global economy! And you don't have to worry about having any special experience opening, operating or managing a business. As a matter of fact, you don't have to know anything about a business at all. That's because the course is designed for everyone.

Take Tom and Joan B., a missionary couple in Africa, who were looking for a way to finance their work. After attending one of Gary's conferences, they decided to try their hand at an international business-and made a fortune large enough to establish one of the most successful Ministries on the continent!

You don't have to start something brand new in order to prosper internationally. If you already own your own successful business, **International Business Made EZ** will show how to expand it worldwide. So you, too, can safely navigate-and conquer-the global market.

But, not only will you learn how to successfully expand abroad. You'll also learn how to create a fantastic lifestyle while doing it! You'll learn the secrets to obtain lavish treatment wherever you go...how to stay in five star hotels... enjoy cruising on luxury yachts...enjoy the best clubs...receive private tours of some of the world's top museums.

Without paying a cent!

It's privileged information like this that you'll find in **International Business Made EZ**-information you'll never find in any other business course. Anywhere.

Meet Your Master Guide to the Global Marketplace

International Business Made EZ is the only course of its kind. That's because it was developed by someone who has been in the trenches his whole life-Gary Scott, President of International Service Center, Inc. Let me tell you a little more about this highly acclaimed, international guru...

Gary began his career in Hong Kong's international investment and banking arena in 1971. The

company Gary worked for was suddenly wiped out by one of the worst market crashes since the Great Depression. Finding himself stranded in a strange country without a job, Gary took less than a thousand dollars, applied the methods revealed in this course, and quickly built a multi-million dollar international business selling Californian and Fijian real estate to Hong Kong investors.

Since then, Gary and his wife have been operating successful international businesses from some of the most remote places in the world. Sometimes from their villa on a secluded beach in the Caribbean. At other times, from their jungle plantation situated high in the misty mountains of Ecuador. Serving over 24,000 clients in 82 countries on a daily basis!

For nearly 40 years now, Gary's world-renowned expertise has helped tens of thousands of people from all over the world build huge, fast profits through international business start-ups. Many were fortunate enough to attend one of Gary's International Business Conferences that he conducts around the globe, and are now millionaires living the lifestyles they always dreamed.

People just like you who have already rushed ahead and are making a killing in the international market applying the same information you'll receive in this results-oriented course.

People All Over the World Want What You Have

Unlike any other course or business program that's ever been offered, **International Business Made EZ** will help YOU to decide what type of global business YOU want to run, what product; or services you should offer-and how-to create, manage and profit from them.

Take Carolyn T., she had a passion for horses. After only a few weeks applying the same systems you'll learn in this course, she began publishing a calendar with photos of horses from all over the world. Now, she gets to travel the globe as an international photographer, and practice her hobby-riding the horses she loves so dearly!

And Peter D. literally went fishing. Peter was attending one of Gary's conferences when he got

the idea of opening a fishing camp in Ecuador. After doing a little research, he found some land with lakes stocked full of monstrous rainbow trout. Now guess who's the guide?

Jose L. loved the indigenous people of Ecuador and learned how to sell local crafts from the Andes all over the world through the internet. He began marketing through eBay and then, using data gained in Gary's courses, developed his entire site.

Steve M. actually moved from England and built an entire South American internet business linking and translating pen pals. Matt G. became an Ecuadorian real estate consultant, showing property in Quito to wealthy American investors. Another delegate from Gary's course began exporting religious art and silver and not only fell in love with the country, but also his lovely Ecuadorian wife. Martha and Rudy G. organized groups to visit a catholic healer in Brazil, Lee H. began a tour business taking people to hidden mysterious valleys where there are secrets for longevity, and Mark M. takes groups to interesting spots all over the world.

Recently, several delegates learned how to sell U.S. tax lien investments (which are safe but can yield up to 25%) to wealthy investors abroad so they literally can travel anywhere they desire, earn added income as they rub shoulders with top society wherever they are.

International Business Made EZ will introduce you to all types of businesses in highly lucrative categories. Businesses that have been proven to work time and time again, no matter what country you're targeting. And if you enjoy thinking outside the box, as many of our members do, you'll be given fortune-making formulas to help you develop something new and better-maybe even something totally innovative-to bring to the global marketplace.

You'll Have a World of Systems, Methods, Tips, Secrets and Advice in Your Hands

International Business Made EZ is crammed full with the most practical information you'll ever find on starting up and running a global enterprise, Here's just a small sample of some of the global intelligence you'll uncover within the pages of this cutting-edge business course:

- 11 existing overseas opportunities in 11 lucrative areas that you can market to immediately.
- The first factor to consider BEFORE selecting your form of international marketing.
- The best tax situation in the world...and how you can earn and hold large amounts of profit totally tax-free.
- Bureaucratic traps foreign governments set to collect more than their fair share of taxes...and the legal loopholes you can use to avoid them.
- The formula for international success. The three cornerstones of international marketing and the six-point command posture that will make and keep you successful.
- The Golden Rule of Business simplicity that lets you find national moods that determine customer buying intentions so you can sell them millions-no matter what country you're selling in.
- The seven levels of foreign corporate structures, international banking, and how to determine the best ones to use for reducing tax which fit your particular business needs.
- The importance of cultural differences and customizing your marketing to fit local conditions.

Whether you currently have your own successful business and would like to expand worldwide, or whether you're thinking about a start-up or you already own a global business but want to know how to expand your sales, increase profits, or side-step red tape, this course will provide everything you need to cash in on foreign markets!

A Practical, Already-Proven-in-The-Real-World

Money System

Unlike other courses that present a lot of useless theory, you'll find that everything in **International Business Made EZ** is spelled out in detail and has been 'reality-checked'-based on actual facts, case studies and real-life examples...

How to choose hot markets...where to advertise...coping with language barriers...where and if to have offices...how to live abroad...how to use global technology...how to build and use networks...increasing profits and protecting them...

Plus, you'll find out about asset protection plans, how and where to bank, international tax shelters, how to get loans, arranging private finance, how to develop overseas partners, how to raise venture capital abroad, and details on successful foreign corporate structures.

And that's not all. You'll also be introduced to important people. Some very important people. More on that in a moment...

But first, you may be thinking-with the amount of detailed information being offered in this course-**International Business Made EZ**, it must come at a pretty hefty price.

Well, let me ask you something. If you were to sit down with an attorney or a tax consultant-even a CPA-how much do you think he'd charge you to answer your questions about starting an international business?

\$250? \$325? PER HOUR!

I think I should explain something, the facts you'll get in **International Business Made EZ** are the same you'd get from a professional charging you hundreds of dollars an hour.

This course has been approved by several state boards for continuing education credits for CPAs.

That's right. Chances are likely that the advice you'd be getting from that CPA or tax consultant comes directly out of **International Business Made EZ**! It's little wonder why this course has been widely praised by the scores of international business consultants and professionals we've asked to review it.

But not only will you be getting an indispensable international study and reference guide...

You'll also receive the names of invaluable global contacts which Gary has accumulated in his 36 years of business and travel abroad! People in numerous countries who will be there to give you some direct, real-world advice if you run into any snags along the way. Plus, an entire array of invaluable services that will help make your global business easier and more profitable than you ever thought possible.

And as an added bonus, you'll also get the names of invaluable contacts offering global business opportunities that you can start right now.

Opportunities for financial planners, stockbrokers, attorneys, accountants, any professional who might be thinking about expanding into global banking and finance as an intermediary. You'll gain details and contacts on how to import/export through the internet as well as how to cash in on the 'Wellness Revolution,' which may be the largest economic wave in history yet.

Now, as a savvy profit seeker, you know the incredible advantage of having a network of people available for advice. Well get ready to expand that sphere of influence.

You have before you nothing less than the fortune-making opportunity of your life.

And it's one of the easiest and most practical ways to build long-term wealth I've ever seen. In short, all of the tools, knowledge and expertise you need to attain just about everything you could ever ask for.

Now, there's something you should know. As you can see, **International Business Made EZ** is

loaded with unique material that's very hard-to-find and, quite simply, scarce. And people the world over have considered themselves extremely fortunate to pay only \$1,800 to get their hands on this invaluable information.

But don't worry. You won't be paying that much-not even close.

As an *International Living* subscriber in good standing, you are eligible to receive **International Business Made EZ** for the unbelievable low price of \$249!

Now, I know that's absurdly low. As you've seen, this course is certainly not something you find everyday.

But, because we feel **International Business Made EZ** is so different and could have such a dramatic and profound impact on your life, we've decided to take unprecedented action in its release. Here's how...

We have made very special arrangements for you to receive an audiotape of millionaire and international business guru Gary Scott's **International Business Made EZ** 90-minute workshop! If you order **International Business Made EZ** today at the incredibly low introductory price of \$249 (plus s&h), we will send you the audiotape of Gary Scott's **International Business Made EZ** 90-minute workshop for FREE.

This is truly one of those rare happenings you encounter only a few times during your life. But if you want to get in on the ground floor-now's the time to act! All you need to do is pick up a pen, fill out the certificate below and return it right away.

You can truly make a fortune operating your own international business! And finally gain the independence you always wanted.

Once more, I urge you take advantage of the free offer--and order your copy of **International Business Made EZ** today!

Sincerely,

Kathleen Peddicord,
Publisher, *International Living*

P.S. Remember, as I mentioned earlier, technology has now made it possible for everyone to make a global fortune. And every day you let go by, you're allowing someone else the chance to outflank you. Please don't wait! Don't let someone else be the first to deliver to the world what you have in mind. Order now and protect your market! If, for some reason, you feel you are not ready for an international image, just return the course to us within 30 days and we'll refund you 100% on the cost of the item no questions asked. There's absolutely nothing to lose...except your share of the pie.
