

**Unlock the hidden potential in
your
IRA, 401(K) or other
retirement plan...
Little-known techniques,
tricks and
strategies to help you retire
with twice
the money in half the time!**

Plus...

- ***Eliminate once and for all the two most dangerous threats to your retirement...***
- ***Use your retirement plan to build a fortune in real estate***
- ***Buy top-performing, bear-resistant stocks and special low-risk profit- opportunities that are 'off limits' to other retirement account investors...***
- ***Keep your retirement assets out of the hands of the tax hungry government... greedy***

lawyers...and others who want to rip you off!

Dear Reader:

If you've ever dreamed of a way you could safely invest your retirement funds in some of the world's most profitable opportunities, including making 10 times your money in real estate...buying into a mutual fund that realizes profits of more than 200% in just 5 years...or marrying low-risk with high returns in a fund that posted a 50% gain in just 5 years even as the broad market was bashed...I urge you to read on.

Here are the kinds of gains I'm talking about. And these are real life opportunities!

Think for a moment how much retirement money you'd have if you had...

- Invested \$25,000 from a Roth-IRA account into a single family home...and sold it for \$55,000...in just two weeks. **That's a profit of \$30,000...or 120%...in just 7 days!**
- Bought into a mutual fund that specializes in small- and mid-cap domestic growth companies and offshore investments and realized profits totaling more than **225% in the last 5 years!** (I'll tell you how you can own this fund in your retirement account for just a \$5,000 minimum investment - even though it's almost exclusively owned by the super rich!)
- Used funds from your IRA to invest \$10,000 in a Mediterranean apartment building...generate monthly rental income (that goes directly into your IRA)...as your investment's equity value soars to \$100,000 in just 4-5 years. (That's a **9-to-1** return on this investment - with more profits likely in the years ahead!)

But guess what? Your financial adviser probably has no idea you can buy real estate for your IRA or other pension fund. And it's likely he doesn't even know about some of the best-performing mutual funds around the world for your retirement plan.

But now, thanks to ***The Sovereign Society's Ultimate Retirement Protection Plan*** you'll discover 'secret' techniques you can use to supercharge your retirement account with some of the best investments in the world.

But that's not all. You'll also discover exactly how to...

Protect your retirement plan - forever - against the two greatest threats to your financial security!

What kinds of threats? Well, consider these possible horror stories...

'I'm Developing Caribbean Real Estate with My IRA Funds!'

'These guys are the real deal. I read one of Larry Grossman's articles about using IRA funds to purchase real estate overseas and called his group for more information. Soon, I embarked on an adventure to purchase and develop some ocean front property on a Caribbean island. Larry and his group worked to get the funds consolidated from 20 individual accounts to fund the adventure. They helped establish new IRA

Jack and Lara Mahoney ran a successful travel agency down in sunny Florida for over twenty years. They had finally paid off the mortgage on their five-bedroom house and just paid for the final year of their youngest son's undergrad tuition. Then September 11th struck. Although far from the scene of the attacks, their business suffered as much as any at Ground Zero. What happened to them was terrible.

Their once thriving business literally turned around over-night. The agency began to lose money, leaving Jack and Lara with no way to pay their personal bills. They were forced to declare bankruptcy. They knew their lifestyle would have to change, but took comfort in the fact that they could begin their retirement early, thanks to a healthy IRA nest egg they had managed to

and non-IRA accounts with a new custodian, set up a corporation, transfer funds when and where they were needed, and get all this done on an accelerated schedule.

'We have now purchased the land; we have building permits and environmental impact statements approved. Our comprehensive Master Plan for single-family homes, condominiums, apartments, and commercial and office space is exciting. The survey is finished; the lots are staked out and go on sale in a week. We have Letters of Intent on six lots. The promotional materials will be done within two weeks and the roads and utilities will be in within 90 days.

Oh, did I mention that I made my first call to Sovereign just 46 days ago!

I recommend Larry and his group to my family and friends, who end up relating similar experiences and thank me for the referral.'

accumulate.

Jack Mahoney had been led to believe the assets of his retirement plan were protected from the attacks of creditors - especially since he lives in one of the states with the strongest asset protection laws in the country. Instead, he lost everything, including all of the assets in his IRA, when the judge 'disallowed' the protection afforded these accounts in bankruptcy court.

Then there's this scenario...

Not long after the Andovers sold the sporting goods store they'd owned for 25 years, a teenage boy tripped and cracked his two front teeth while cutting through the yard of the couple's Vermont home. Their homeowner's policy covered the bulk of the boy's dental expenses, and the Andovers had assumed the case was closed. But it wasn't. Instead, the boy's parents hired a lawyer who decided to sue the Andovers for \$200,000. Their retirement was in danger.

But because the Andovers had taken one simple step - a step we'll tell you about in a moment and a step you can take for yourself - when the lawyer hired by the boy's parents found out that the bulk of the Andovers' assets were offshore he told them not to bother filing suit.

- Dan T., Jacksonville, FL

And guess what? The same kind of things could happen to you.

But the good news this letter has for you...the great news...is that now there's a way you can...

**Protect your retirement plan from attack...
while you buy into investments that can earn
39%...98%...or more...a year!**

My name is Erika Nolan. I'm the Executive Director of The Sovereign Society. I'm pleased to be writing this letter to you today because it gives me an opportunity to talk to you about Larry Grossman. You may already know about Larry. He's a Certified Investment Management Analyst, a leading authority on global investment opportunities and a member of The Sovereign Society's Council of Experts.

What you probably don't know, though, is that Larry Grossman is known in financial services as the 'pit bull of offshore planning.' One of the reasons he has this nickname is that he has proven he knows how to search out the very best investment opportunities. Profit opportunities like those I already mentioned...and like these.

- A way you can purchase shares in a 'hedge' fund that invests internationally, giving you the low risk of a bond with a better return. In fact, this fund **has not had a down year in 5 years** - gaining an average 25% per year even while the broad markets were being whipsawed.
- Use money from your offshore IRA to buy shares in a top-quality fund that invests in precious metals mines around the world. This fund has returned more than **160% over the last three years!** That means an investment of \$50,000 would have soared to more than \$130,000 in just 36 months - even while the typical investor saw his retirement account plunge by 35%.
- Invest \$70,000 in a rental property and gain \$45,000 in just 6

months...or sit back and watch an investment of just \$23,000 grow into \$105,000 in equity in just two years!

These are the kinds of deals that Larry Grossman has guided his clients with.

But these deals and potential profits are only available if...and this is a BIG IF...you know how to actually 'take' your IRA or other retirement account offshore. Because that's the only way you can 'unlock' your retirement account to take advantage of profit opportunities (and rock-solid asset-protection techniques) that are not available with an onshore account!

With Larry Grossman's guidance and The Sovereign Society's new retirement protection program, you'll discover how to legally move your account offshore - away from the bear-market destruction of wealth in the U.S....away from a record number of lawsuits and government seizures even of retirement plans...and unlock the full profit potential of your retirement assets. The result? Your retirement will be more secure...and the value of your investments will multiply far more quickly than you may have thought possible.

But that's not all Larry can help you accomplish.

**Let the 'Pit Bull of Offshore Planning'
Show You the Best Route Possible not Just to Big
Profits...
But Also Retirement Safety and Security!**

Larry Grossman is committed to helping men and women just like you find perfectly legal and legitimate ways to take advantage of every offshore retirement and asset-protection opportunity.

And he's good...no, make that great, at his job.

I know you're interested in protecting your wealth from lawsuits, frivolous

claims, seizure and crooks. I know you want top returns in your retirement accounts. And I know you want to protect your privacy. After all, those are all goals of The Sovereign Society.

That's why I was really excited when The Sovereign Society was given the opportunity to work

with Larry Grossman to create ***The Ultimate Retirement Protection Plan: A Step-by-Step Program for Taking Your IRA, 401(K) or Pension Plan Offshore.***

You see, Larry Grossman is the Managing Director of Sovereign

International Asset Management, Inc., a

firm specializing in providing asset management and protection services to individual and corporate clients. In addition, Larry is both a Certified Financial Planner (CFP) and a Certified Investment Management Analyst (CIMA). As a CIMA, Larry is a member of an elite group specially qualified to perform portfolio analysis...and take advantage of the very best investment opportunities in all asset classes.

With more than 20 years experience in the investment business, Larry has achieved a number of remarkable accomplishments. He was one of the first financial advisors in the country...maybe even the first... to develop a ***compliant*** method for assisting clients with moving their qualified IRA and pension plans offshore for asset protection and greater investment diversification. In fact, his breakthrough strategies for legally moving pension accounts overseas have been reviewed and approved by some of

'Growing and Protecting My Money - That Is What You Do Best!'

'Thanks for a great first month of my hedge fund! You and your staff made setting up the new account pretty simple and you were there, as always, to answer all of my questions. I am a refugee from a brokerage firm, so knowing what all of my fees and transaction costs are up front is really important to me. Most important, however, protecting and growing my money, and that is what you are doing best! 'Thanks!'

- Kathy K., San Francisco, CA

the top ERISA attorneys in the country.

And that could be good news for you. Why? Because this means Larry has hands-on experience and proven know-how to help you achieve not only top investment returns but also impregnable asset protection by moving your IRA, 401(K) or other retirement account offshore.

In fact, because of his long experience in the field, Larry is regularly asked to speak at seminars and conferences held by many of the world's top non-U.S. banks and financial institutions where he shares his advice about such topics as *'The Retirement Plan Protection Program - How to Protect Your Nest Egg,' 'Dynamic Global Asset Allocation - How to Break the Cycle of Losing,'* and *'The New IRS - What Works And What Doesn't.'*

And now he's ready to share with you his same proven techniques for quickly and easily setting up a legal, safe, private and highly profitable offshore retirement account...

The Best-kept Retirement Protection Secret in the World is Now Yours

Thanks to ***The Sovereign Society's Ultimate Retirement Protection Plan: A Step-by-Step Program for Taking Your IRA, 401(K) or Pension Plan Offshore***, you can actually put Larry Grossman to work for you.

How important is this?

Well, there's more involved to protecting your future than 'just' investing your IRA, 401(K), Roth-IRA or other retirement funds for maximum returns and minimum risk. There's also the business of protecting your assets from prying eyes (government and individual). And then there are the two great threats to your retirement security... 'theft' of your retirement funds as the result of a lawsuit or as the result of a creditor 'assault' against assets you believe are 'excluded' from creditor attacks.

And that's exactly what ***The Ultimate Retirement Protection Plan*** gives you.

It not only shows you how it's possible to earn double-digit returns (or more) by moving your retirement account offshore, it also shows you exactly how to protect yourself against attacks in the form of intrusive taxation, privacy violations and legal judgments.

But there's still more. This groundbreaking program (you'll never find anything even similar anywhere else) also shows you exactly how you can - quickly and easily - reclaim the privacy that used to be your birthright as an American. That means keeping your personal life personal...and keeping your financial, business and even medical records closed to prying eyes (no matter whose they are).

Think this isn't a matter of concern?

Well, think again. And consider these glaring examples of the kinds of things you need to protect yourself against - immediately - if you want to safeguard your assets and your privacy:

- In recent years, IRAs and retirement plans have increasingly come under attack from creditors. Unknown to most planners, the U.S. Supreme Court has ruled that many of these plans are completely unprotected against raids by creditors. The bottom line? In many states, a creditor can easily get a judgment that forces the liquidation of retirement plan assets...and may even be able to 'steal' future distributions!
- Domestic IRAs are also increasingly vulnerable to lawsuits for damages...no matter how frivolous. You may think you're covered by insurance...but greedy lawyers can come after your assets - including those you think are protected. And their fees are based on the size of the judgment they get. No wonder one of the nation's best-known asset protection attorneys recently said, 'The successful attack on retirement plans is one of the fastest growing areas of the legal

profession.'

But guess what?

The very same strategy that allows you to take advantage of international investing opportunities that are closed to the vast majority of U.S. citizens is a way...a proven, perfectly legal way...that you can build a solid wall of secrecy and security around your retirement assets .

Just as happened with our couple who thwarted a \$200,000 lawsuit because their IRA was offshore - with ***The Ultimate Retirement Protection Plan*** , your assets will be protected from greedy lawyers and even from government snoops.

**Protect yourself as you double... maybe triple...
your retirement nest egg every four to six years!**

Let's face it. You've worked hard your whole life to accumulate your retirement money and assets. And, no doubt, you've done pretty well for yourself or you wouldn't have received this letter. At the same time, wouldn't it be great if you could boost the earnings in your retirement accounts up to 20% a year... or maybe 25% or more?

Below are a few more examples of the kinds of returns you could expect to pocket if you 'unlock' your retirement funds to take advantage of worldwide real estate opportunities...

- In 1987 you could have purchased a three-bedroom house in Dublin's city center for \$48,000... today, that same house is worth \$295,000 - that's an average increase of 36% in value per year! (That means a 100%+ gain on your investment using a typical mortgage!)
- You could have purchased a beach house in Roatan, Honduras for a paltry \$35,000 in 1994...and watch it soar in value to \$140,000 in just a decade. (That's an average return on investment of 30% per year!)

- Or how about this? You could have bought a quarter-acre lot in Cancun, Mexico for \$950 ...and then watched it rise in value to an amazing \$75,000 in about 15 years. (A return of 40% every year!)

And remember, these are deals your financial analyst or advisor is completely in the dark about...and he has no idea you can take advantage of these types of low-risk/high-profit investments in your retirement account.

But with Larry's guidance, you'll be able to earn returns like these while you put your retirement assets beyond the reach of litigious lawyers...tax hungry government officials...everybody and anybody who might threaten your retirement.

If you put Larry Grossman to work for you...and utilize the simple procedures you'll find outlined in ***The Sovereign Society's Ultimate Retirement Protection Plan***, you'll be able to rest secure knowing that you've done everything you can do to...

'Grow' your retirement account as fast as you can without putting your hard-earned assets in danger...

Invest in real estate, foreign stocks, top-rated, high-yielding international debt instruments and other profit-opportunities that are 'off limits' to other retirement account investors...

Keep your retirement assets out of the hands of the tax hungry government...greedy lawyers...and others who want to rip you off!

Build the Strongest Possible Wall of Privacy and Security Around Your Retirement Plan

If you were to try to assemble all the information you'll find in ***The Sovereign Society's Ultimate Retirement Protection Plan***, chances are it would take you years - if you could find it at all. Taking your retirement plan offshore is something 99% of financial advisers have absolutely no clue

about!

But let's say you did succeed in finally unearthing the secrets or permanently removing your retirement assets from the reach of crooks, snoops and unscrupulous lawyers...you could easily expect to pay thousands of dollars in fees to finally put all the pieces of the puzzle together. Then you could expect to pay thousands more attending seminars and conferences...not counting the cost of your lodging, meals and other incidental expenses.

That's a great deal of money. But if you hope to retire not only wealthy, but free from financial worry ...it would be more than worth it.

And yet even if you did go to all these extremes to learn how to legally, quickly and safely move your retirement plan offshore...you would still not have the quality of investment advice and strategic planning you get from ***The Sovereign Society's Ultimate Retirement Protection Plan***. That's because less than a dozen professionals in the country have the extensive knowledge and 20-years experience with offshore planning and offshore investment opportunities that Larry Grossman has.

Larry is a true pioneer in legally taking retirement accounts offshore for greater profits, privacy and asset protection...and his experience is backed up by the offshore lawyers, accountants and investment analysts on The Sovereign Society's Council of Experts. And he's taken all this expertise, experience, contacts and resources...and used it all to create ***The Ultimate Retirement Protection Plan***.

A Roadmap to Retirement Wealth, Privacy, and Security

The centerpiece of ***The Ultimate Retirement Protection Plan*** is a comprehensive, 600+ page manual. This manual tells you in simple, easy-to-follow steps how to remove your retirement account from the 'fishbowl' of a U.S. custodian account, where anyone can attack it...and move it to asset

havens offshore where your privacy and property rights are respected and protected by centuries of legal precedent.

But it goes further than that. It also includes all the legal forms you need to move your IRA/pension plan offshore...along with instructions on how to complete those forms so they can withstand the closest scrutiny.

Turn your offshore retirement account into a Money-Machine!

In addition, the 600+ page manual includes appendices filled with support material - articles written by Larry Grossman and other experts, copies of tax code sections dealing with offshore retirement accounts, case histories that illustrate how to invest for big profits, and much more.

But that's still not all.

Remember Larry's Rolodex? Well, ***The Sovereign Society's Ultimate Retirement Protection Plan*** also gives you the names, phone numbers, web and e-mail addresses of some important contacts. These are the experts and specialists...attorneys, tax experts, investment analysts, both in the U.S. and overseas...who know their way around offshore retirement accounts. And you can use these experts and advisors, too, at your own discretion, if you want.

But that's still not all!

In addition to all this, you also get a digitally mastered audio tape to take you through the process of setting up an offshore retirement account from A to Z. In this, 60-minute audio tapes, you'll come to understand the benefits of an offshore retirement thoroughly - from a legal, financial and lifestyle perspective, and to ensure that happens, Larry has invited two top offshore experts to contribute to the presentation.

The Honorable Robert E. Bauman, former Congressman from Maryland

and editor of *The Sovereign Society Offshore A-Letter*, will spell out the considerable legal protections you will enjoy as a holder of an offshore IRA. Kathleen Peddicord, Publisher of *International Living*, will give you specific ideas on how you live overseas and use your IRA to buy foreign real estate - from Caribbean beachfront homes to Mediterranean condos - for a fraction of what you'd pay in the U.S., and with far greater appreciation potential.

And Larry himself will share more ideas on how to invest your offshore funds for high returns with limited risk. And he'll answer the 12 most commonly asked questions about offshore retirement accounts in language you can understand.

A Small Fee for Permanent Wealth and Peace of Mind

This complete package can easily enable you to retire earlier...with more money...while it provides you with an unimpeachable wall of privacy and protection. Yet it is remarkably affordable.

Larry normally charges an administration fee plus 1% of assets to set up an offshore IRA for his clients. And given the added asset protection and investment opportunities, it's worth every penny.

But with ***The Ultimate Retirement Protection Plan***, you'll get the benefit of Larry's years of experience in setting up offshore IRAs in easy-to-follow step-by-step instructions. Plus, you'll get the legal forms, index with supporting materials and articles, the two Offshore audio cassettes, and the Offshore Retirement 'Rolodex'...but you get even more than that....

You'll also get a FREE 30-Minute Personal Phone Consultation*

It typically costs a minimum of \$250 an hour for a consultation with Larry. But when you purchase ***The Sovereign Society's Ultimate Retirement Protection Plan***, you're entitled to a FREE 1/2-hour special off-shore

retirement consultation by phone. Not with one of his assistants. But directly with Larry Grossman.

You'll get the same level of commitment and professionalism you would get if you were sitting in his office, talking to him in person.

In that 30-minute consultation, you and Larry will discuss how you can protect your personal retirement assets...he'll consider your goals and your concerns...and together you'll begin mapping out plans for you to retire with more money...perhaps even earlier...knowing your personal retirement assets will be safe and secure.*

No question, this is an important - and very valuable part - of the program. Larry's services are sought after by some of the wealthiest men and women in America. And they happily pay him a minimum of \$250 an hour for his guidance and direction.

But as an owner of ***The Sovereign Society's Ultimate Retirement Protection Plan***, you get this half-hour phone consultation free of any charge - and with no further obligation.

But guess what?

Larry will do even more for you...

If you want Larry to personally handle taking your Retirement Plan Offshore...He'll do it - and waive his normal administration fee!

As the owner of ***The Ultimate Retirement Protection Plan***, you're entitled to still more. That's because Larry Grossman will not only guide you...if you so choose...he'll also complete all the necessary paperwork needed to actually move your IRA, 401(K), or other retirement account offshore!*

Read your ***Ultimate Retirement Protection Plan*** at your leisure. Listen to the audio cassettes while driving, at the gym or taking a stroll. Take a look at the helpful supporting articles in the index. Look over the legal forms to see how straightforward the process is. Take advantage of your FREE 1/2-hour phone consultation with Larry.

In a very short period of time, I believe you'll find yourself getting very excited about the amazing asset-protection and investment benefits you can receive by taking your plan offshore. And whenever you're ready to make the move - you'll have all the information, techniques and strategies you need to make that move a swift, easy and profitable one.

But if you'd like a professional to do it for you... Larry will be there to do just that and he'll waive his normal administration fee!

And when you ask Larry to take care of the paperwork, you can bet it will be done right. He'll devote five or six hours personally to handling your documents. He will fill out the forms. Make sure everything is done legally and correctly. And he'll even file them - all in accordance with your instructions - if that's what you wish.

And, then, to make sure you have even more access to Larry, he'll also provide you with a dedicated e-mail address you can use if you have any further questions or concerns after your phone consultation!*

**It's Not Called the 'Ultimate' Retirement Protection
Plan for Nothing!
You'll Never Find a Better One... Or Need Another
One**

Let's recap all you get with ***The Ultimate Retirement Protection Plan***:

- Your 600-page+ ***Ultimate Retirement Protection Plan*** ...laying out the process in clear, everyday language for permanently protecting

your nest egg with an offshore retirement plan, and boosting its performance with the very best global investment opportunities, including real estate and top-performing funds not offered by your broker.

- And, supporting articles and legal forms so you can see exactly how simple the process is.
- The Ultimate Retirement Protection Rolodex - with U.S. Custodians, offshore Custodians, asset protection specialists and elite global investment opportunities.
- One-hour presentations on tape, on the extraordinary wealth-building, wealth-protecting and privacy-enhancing benefits of moving your retirement account offshore.
- Your free 30-minute phone consultation with Larry.*
- The option of having Larry Grossman personally move your retirement plan offshore - while he waives his customary administration fee for the service!
- Larry's personal email address, with the right and privilege of having any of your offshore retirement plan questions answered by Larry.*

This is truly a complete package of personalized benefits* - giving you everything you need to achieve the maximum possible level of profitability, security and privacy for your retirement assets in the fastest and easiest way possible. And I hope you can appreciate that it could easily cost you months of your time and thousands of dollars to try to recreate these benefits on your own.

But ***The Sovereign Society's Ultimate Retirement Protection Plan*** brings all these benefits to you for a single, low fee of just \$495

And that includes everything - the 600+ page manual, two audio cassettes, legal forms, supporting articles, FREE 30-minute phone consultation, the option to have Larry take your retirement plan offshore personally (with his normal fee waived!), and the ability to follow up personally with Larry via email*...

And it's fully guaranteed! There's no risk to you. None at all.

You see, I truly want you to retire sooner...and wealthier. I want you to know your retirement funds are safe and secure. And I know ***The Sovereign Society's Ultimate Retirement Protection Plan*** will enable you to boost your retirement portfolio's profits while providing you with undreamed of security.

In fact, I'm so sure you'll love this program that I'm guaranteeing your satisfaction. Order your own copy of ***The Sovereign Society's Ultimate Retirement Protection Plan*** today. If you're unhappy for any reason, just return it within 45 days for a 100% refund. What could possibly be more equitable than that?

Oh, and there's even one more benefit I almost neglected to mention...

Get a FREE Personal, Face-to-Face Consultation* with the Master of Offshore Retirement Plans!

To make this deal even better, if you respond to this special offer, you'll also be entitled to a private, face-to-face consultation * with Larry Grossman at any Agora Publishing or Sovereign Society seminar where he is a speaker or featured guest.

We've done everything we can, in other words, to help you meet your personal retirement goals with ***The Ultimate Retirement Protection Plan*** . This is certainly no cookie-cutter approach to retirement.

Only a very few sophisticated investors are even aware they have the

option of going offshore with their retirement plan - let alone how to take maximum advantage of the far greater asset protection, privacy and investment opportunities that are available offshore.

And yet you'll have the personal assistance of the very top professional in the field of offshore retirement plans.

But, please, respond today to get all these benefits. There is virtually no limit to the amount of threats you face when you leave your retirement plan in the highly litigious U.S., Canada or Western European nation...exposed for the world to see.

But Larry's time is limited and we may not be able to offer this personalized a level of service in the future.

And don't forget, you risk nothing since your complete satisfaction is guaranteed. So why not take steps to guarantee a secure, private and worry-free retirement as well - and order your ***Ultimate Retirement Protection Plan*** today.

Wishing you prosperity and peace of mind,

Erika Nolan

Executive Director, The Sovereign Society

P.S. Remember, if you're unhappy with ***The Sovereign Society's Ultimate Retirement Protection Plan*** for any reason at all...just let me know within 45 days and your money will be refunded. No hassles and no questions. So act today to make your retirement and pension fund more profitable...and more secure from attack.

*Please note: Larry can walk you through all the steps needed in order to legally asset

protect your retirement plan offshore for greater privacy and protection. However, as an agent of The Sovereign Society, Larry cannot give personalized investment advice of any kind.

A rectangular button with a blue gradient and a slight shadow, containing the text "Order Now" in white.
