

If I Put My Name on Something, It Is Guaranteed to Be the BEST

My name is James Boric. I run ***Penny Stock Fortunes*** - the single greatest small-cap newsletter on the market today. And I can say that knowing it's 100% true.

I am considered by many in the investment community to be the most knowledgeable small-cap analyst in the country. I have spoken all over the world about small-cap stocks. I was recently quoted in John Mauldin's best-selling blockbuster book *Bull's Eye Investing* - explaining how you can systematically make money in the small-cap market. I oversee a financial research group that is worth over \$4 million. And I have been trained by the best in the business.

My peers are best-selling authors in the investment world, CEOs of major businesses and traders that have made millions on Wall Street. And I don't say that to brag. Rather, I want you to know...

If I put my name on any investment letter, it **MUST** be the best. And ***Penny Stock Fortunes*** is.

Under my guidance, ***Penny Stock Fortunes*** readers have had the chance to rake in consistent gains like these...

- 26.05% on Concurrent Computer Corp. (CCUR)
- 44.03% on E-LOAN, Inc. (EELN)
- 31.33% on Emerson Radio (MSN)
- 26.4% on eUniverse, Inc. (EUNI)
- 73.98% on Select Comfort (SCSS)

- 65.6% on drugstore.com (DSCM)
- 13.1% on Nabi Biopharmaceuticals (NABI)
- 19.26% on Barnesandnoble.com (BKS)
- 19.31% on XM Satellite Radio (XMSR)
- 233.85% on SIRIUS Satellite Radio (SIRI)

- 24.9% on Kinross Gold (KGC)
- 27.82% on Navarre Corp. (NAVR)

If you only put \$200 into each one, you would be sitting on \$7,822.40 today.

Those are some pretty nice returns - and they are only a few of what my readers have seen over the last couple years. There have been more - lots more! And there WILL be more in the future. You see...

I just hired the BEST analyst in the business to join the **Penny Stock Fortunes** team. Her name is Angela Roberts. And if you haven't heard of her yet, you will.

Angela recently spent five years at a major brokerage house here in Baltimore. She's dealt with the toughest characters Wall Street has to offer. And now she's working exclusively for YOU.

Every day, she cuts through company balance sheets, talks to high-ranking company officials and writes about the best small-cap companies set to rise. And her work is outstanding...

Under Angela's guidance, ***Penny Stock Fortunes*** readers have had the chance to rake in gains of 69.17%, 87.5%, 56.7%, 20%, 10% and 19.82%. And unlike most financial writers, Angela writes in simple, easy-to-understand English.

Every month, she tells you what the risks and rewards are for each opportunity. She tells you when to buy (and at what price) and when to sell. It couldn't be simpler. In fact, one ***Penny Stock Fortunes*** reader even wrote in to say...

“Angela,

“Few people in the financial field write as beautifully as you do, at the level of an accomplished novelist.”

-John M.P.

Angela spends every waking moment looking for the best penny stocks on the market - so you don't have to. And you can bet more profits are close at hand. After all, we have developed quite a system to find the best winners on Wall Street. But don't listen to me, check out what some current ***Penny*** readers are saying themselves...

879% Return!

“Dear Jim

“A lot of talk about patience and holding onto a stock for the best returns. I bought (upon your recommendation) SIRUS stock back in April '03 at 66 cents a share and held onto it for my own reasons, and in the long run, I watched it go up (over \$9) and down, and now it is at \$6.50 a share, or an 879% return. Thanks again. Here's hoping that it goes higher still.”

-Gary

300% and Still Holding!

“Hi James:

“As many people as you meet and deal with, I am sure you will not remember me, BUT I met you in person in New Orleans last year at that seminar. At the reception, we had a bit of conversation (after a few drinks), and one of the things you shared with me was the great opportunities in penny stocks.

“Well, I always want/like quick profits. But I decided to try the longer hold on penny stocks. I chose Navarre Corp. You recommended it as a buy Nov. 25, 2003, @ 5.35. I am still holding it at \$16.39. A 300%-plus gain!! Just wanted to let you know how right you were and say THANKS, THANKS, THANKS.”

-J. Nolan

You Allow My Money to Work for Me!

“James,

“Thank you for helping my dreams become a reality by allowing me to make my money work! Believe it or not, you are the only newsletter that I have found I can trust, because you consistently make me money.

“A happy and loyal subscriber”

-R. Hunt

I Love Your Advice!

“I am very new at trading stocks. In fact, my only experience prior to subscribing to Penny Stock Fortunes has been keeping an occasional eye on my 401(k)-type savings plan that my employer sponsors. I have been subscribing since August, and I love your advice as well as your delivery. I have been able to profit 18.5% and 26.8% after commissions on SFP and DRRX already!”

-B. Frazier

What a Great Trip That Was!

“Just to let you know, I bought CDE at \$1.33 and recently sold it at \$5.29. What a great trip that was. Thanks for your expertise.”

-M.L. Thornburg

Reaped Many Rewards

“As a subscriber for over a year, I’ve been impressed by the results of the system and reaped many rewards. (DSCM, SIRI and BNB were recent trades I capitalized on). Your system has helped steer me in the right direction and prepare the foundation for a profitable future.”

-T.K., “Satisfied PSF Subscriber”

Those are some pretty powerful testimonials. And it goes to show how you can make a lot of money if you are willing to invest in the small-cap market.

In a moment I'll give you all the details you need to know to invest

in the seven hottest stocks on the market right now - the seven stocks that could start your own profitable stock string and turn \$200 into \$6.6 million in 2005.

And if you take advantage of my 200% money-back guarantee today and sign up for ***Penny Stock Fortunes***, you could begin booking the profits in just a few hours - literally.

How so? Let's take a look...

The Fastest Growing Industry You Haven't Heard a Thing About — YET!

I've been in the small-cap business my entire career, and I can't remember being this excited about a group of stocks before. In fact, this story is SO huge, I hired an additional two researchers to uncover all the details for you. First off...

Trading for 200% Less Than Its Peers

This tiny, undiscovered Nasdaq company is a jewelry maker. And it sells lots and lots of GOLD.

Up until now, most of its business has been in the United States with major companies like QVC, HSN, J.C. Penney, Macy's, Wal-Mart and Zales.

But in 2005, it has plans to open 30 stores in China. And by 2005, that number will grow to 120! That's HUGE. It means...

This small company's sales will likely DOUBLE in the next couple years. I expect it will add about \$40 million to its top line alone by 2008 - JUST from its China sales! And you have the chance to get in now - before the rest of the world finds out about it.

Right now, this stock trades for under \$3 a share. I fully expect it to make a run to \$8 or \$9 by the end of 2005. And from there, who knows? Early investors could walk away with 32 times their money or more.

You see...

If this company just grabs 1% of the global jewelry market, it would be worth over \$1.1 billion - a 32-fold jump from its current size. Imagine growing every \$200 into \$6,400! And with its aggressive plans to grow in Asia, don't think those kinds of returns aren't possible!

The second company is even more tantalizing...

**A Mind-Boggling 1,500% Growth Rate —
And It's Only Just Begun!**

In 2001 and 2002, this hidden gem of a company was so small it had only three employees. It had no revenue whatsoever. It was literally fighting for its corporate life. But in 2003, it got the major breakthrough it was looking for. I'll tell you exactly what that breakthrough is when you sign up for **Penny Stock Fortunes**. But I assure you - it is LARGE!

In fact, since this breakthrough, the tiny company has been

growing at a mind-blowing 1,500% pace. Talk about a growth opportunity! And the best part is this company is JUST getting started.

Based on calculations Angela and I have come up with, this company has guaranteed sales of \$400 million in 2005, \$373 million in 2006, \$400 million in 2007 and so on. All the way to a high of \$510 million in 2010.

And it will continue to produce until at least 2013.

That means between now and 2013 you can buy stock in a company that will throw off BILLIONS of dollars in sales. And you can secure your portion now - for \$3 a share!!

Imagine what you could do if both of these \$3 stocks ONLY double. You could take that vacation of your dreams...put the extension on your house...help fund your kid's college education...or even just have some extra cash to spend however and whenever you wish.

But honestly, I would be disappointed if they didn't make you a lot more than 100% each.

By the time 2005 is said and done, I expect you will have the chance to walk away between 200% and 500% richer - on BOTH stocks. And it could be even more than that - like 32 times your money!

Think that's impressive? Let me introduce you to my ace-in-the-hole stock pick for 2005 and 2006.

A 77-Fold Rise Could Make This the Best Stock on Wall Street

Over the next couple years, this could easily be the single BEST performing stock on Wall Street. I mean No. 1 out of all 9,000 stocks! And I'm not the only one who thinks so.

Since March 26, 2004, company insiders - including the CEO and several directors - have scooped up 1,814,240 shares of this stock - using their own money.

When you add it all up, they have spent over \$13 million investing in this business. That's a HUGE bullish signal for investors.

Company insiders know the business better than anyone. They know when sales and earnings are about to pick up. And when they dump MILLIONS of dollars in their own business, you can bet something good is going to happen...soon. That means you need to hurry to get in - before everyone else figures this out!

Right now, this stock is trading for under \$6. But the company recently figured out a way to grow its business by up to 77-fold. Imagine investing now and turning a small \$200 investment into over \$15,000.

Don't be surprised if it happens!

\$600 Could Easily Turn Into \$24,800

I just showed you how:

- One little jewelry stock could grow 32-fold in the next year - possibly turning \$200 into \$6,400
- A tiny company with guaranteed revenues until 2013 could make you as much as 15 times your money - turning \$200 into \$3,000
- And my ace-in-the-hole pick could multiply your initial investment 77 times over as its business expands - BIG time. That would be enough to turn a \$200 investment into \$15,400.

When you add it all up, you could turn as little as \$600 into \$24,800 . Pretty impressive. And as you can see, you would be well on your way to making that \$6.6 million I showed you earlier.

But because I want to prove to you that my service is the best in the world, I'm also going to give you four more penny stock picks that could easily double you money or more.

When you sign up for your **risk-free trial** to ***Penny Stock Fortunes***, you'll get all the details on these barnburner stocks. But here's a sampling of what you will find...

Barnburner Stock #1: This organic food processor is on fire! Sales and earnings are up 54% and 58% respectively in the last nine months. Insiders recently purchased as much as 233,000 shares of this stock, for a grand total of \$1.3 million! And when it's all said and done, I expect this under \$7 stock to rise to \$10 and then \$15.

Barnburner Stock #2: This technology consulting company's net income has risen from \$1.7 million three years ago to \$20 million last year. And in the last few months, it nailed down

three separate multimillion-dollar contracts. That alone is reason to be bullish on this stock. But there is one more thing that caught my attention.

Besides the growing sales, growing net income and major contracts, this company has a list of clients as impressive as I've ever seen. American Express, Disney, Ford, Kodak, Xerox, IBM, Verizon, Wachovia and World Bank are all clients. Find out why this stock is poised to rise big in 2005.

Barnburner Stock #3: This Dallas-based company is sitting on \$2.9 BILLION in assets alone. And the stock is selling for just \$1! To say it is undervalued is a HUGE understatement. I expect a major run-up in the next year. And this true penny stock could easily rise to \$4 or \$5 a share... enough to make you between 300% and 400% profits.

Barnburner Stock #4: Not only is the company the purest play in the industry, it will profit from China's rising middle class - which is sitting in \$1 TRILLION in savings. And as if that isn't enough reason to own this \$7 stock...it will also profit as every automaker in the world buys its products! Find out how to secure your piece of the profits by signing up for **Penny Stock Fortunes** today.

Any one of these stocks could **double your money or more** . And if just two or three rise one after another - forming a profitable stock chain - you could walk away VERY rich!

Just how rich?

Well, that's impossible to forecast. But if it's as good as the profit

string I had in 2003, you are in for a treat. Check it out...

Nine Winning Stocks in a Row!

From June 2003 until Oct. 22, 2003, I closed out nine stocks in the ***Penny Stock Fortunes*** portfolio. And they were all winners. Take a look at what can happen when you hit several winners in a row...

Penny Stock Profit String: 9 Winners in a Row!		
Stock	Date Sold	% Gain
1) SIRIUS Satellite Radio (SIRI)	6/5/03	233%
2) Ashanti Goldfields (ASL)	6/25/03	32.8%
3) Bema Gold (BGO)	7/2/03	35.2%
4) EMC Corp. (EMC)	9/25/03	34.81%
5) Hecla Mining (HL)	7/24/03	32.19%
6) Charming Shoppes (CHRS)	7/29/03	34.94%
7) Prime Hospitality Corp. (PDQ)	7/31/03	13.57%
8) China Yuchai (CYD)	9/8/03	146.67%
9) Orbital Sciences (ORB)	10/22/03	62.35%
Average Gain: 69.5%		

<p>\$200 Invested in Each Stock Turned to: \$3,051.06!!</p>
--

Think about these results for a second...

In only six months, nine ***Penny Stock Fortunes*** picks in a row were winners. Not a loser in the group! This is a real-life profit chain that you could easily see when you subscribe. And who knows?

If you hit everything just right, you could even turn \$200 into \$6.6 million!

So how can you get started in this moneymaking venture? How can you get the names and ticker symbols of my seven favorite small-cap stocks for 2005?

All you have to do to get in is join me at ***Penny Stock Fortunes***. Take me up on my offer to test-drive this amazing product for the next six months - absolutely **FREE**.

And if you decide to stay on board (which I know you will), it won't cost you much at all. In fact, I think it's time for me to make you my best offer ever...

Make Tons of Money, or I Pay You

Penny Stock Fortunes is worth thousands of dollars a year. If, for example, the jewelry company I mentioned a second ago were to tap just 1% of the global jewelry market, your \$200 investment would become worth \$6,400 - overnight. That's a 32-fold rise. And

then there's the other stock I found...The business is growing at a 1,500% clip. If the stock only rises half that much, you could turn a \$200 investment into \$1,500 - in practically no time.

On top of that, you have my ace-in-the-hole pick that could rise an additional 77-fold thanks to its new expanded business and huge insider shopping spree.

Between these three opportunities alone, you could see your \$200 stake shoot up to \$1,500, \$6,400 and \$15,400 respectively. All told, you could turn \$600 into \$23,300.

With the profit potential this high, it wouldn't be unreasonable to ask for \$10,000 to join ***Penny Stock Fortunes***. After all, you could make that up on one or two investments - easily. And I will give you three right off the bat.

But that's not all...

Sign up now, and you'll also get the names of my four favorite barnburner stocks - all of which could double your money in a heartbeat.

That's seven stocks to get you started on your way to earning \$6.6 million in 2005. And that's seven stocks to start you on your own successful profit chain.

All of a sudden \$10,000 doesn't seem like so much to ask!

But don't worry, I'm not going to ask \$10,000 for a subscription. In fact, I'm not even going to ask for \$100! I'm going to offer you my best deal ever. And I mean that. Just keep one thing in mind...

I can't guarantee you will turn \$200 into \$6.6 million this year by following my advice. What I showed you was an extreme example of how powerful small-cap stocks can be. It took tremendous timing and a lot of luck to turn \$200 into \$6.6 million. But what I can promise you is this...

My Ironclad Promise to You

Every month, Angela will send you an eight-page report on the two very best small-cap stocks on the market. She'll tell you when to buy. She'll tell you what the risks and rewards are. And she'll tell you when to sell. You just sit back, read the e-mails and call your broker. Angela and I will do all the work for you. And know this...

Some of these stocks will double your money. Others could rise tenfold. And still others will fall. That's OK.

These are the exactly kinds of stocks that helped John Templeton quadruple his money in 1939 - despite four companies going completely bankrupt. They are the same kinds of stocks that could have turned \$200 into \$6.6 million last year. And they are the same kind of stocks that I have recommended to my readers for years - with tremendous success.

For instance...

- I recommended shares of Select Comfort (SCSS:NASDAQ) to my readers on Sept. 16, 2002. At the time, this beaten-up bed manufacturer was trading for \$5.61 a pop. Less than five months later, every investor on Wall Street was buying the stock, and it shot up to

- \$9.76 a share. And today, it trades for \$19 a pop!
- On July 10, 2003, Chinese diesel engine maker, China Yuchai (CYD:NYSE), was screaming "BUY." It was trading for less than 10 times earnings. Its sales and net income were soaring. And demand for its diesel engines was sky high. At the time I recommended CYD to my readers, it was trading for \$7.50. Less than two months later, it hit \$18.50. That's a 146% profit in 60 days!
- Shares of gold and silver miner Coeur d'Alene Mines (CDE:NYSE) were dirt cheap on June 19, 2002. And with precious metals on the rise, this was a no-brainer. I told my readers to buy shares of CDE for \$1.71. Just before the end of 2003, I told them to sell at \$5.49 - a mere 221% profit.

A bed maker, a Chinese diesel engine manufacturer and a gold miner...

It doesn't matter what kind of company it is - as long as it is a solid business in a growing industry. Those are the kinds of stocks you will find in the pages of ***Penny Stock Fortunes*** every month.

And if you sign up today, you'll find out how...

- A jewelry company could grow your money 32-fold by 2008
- One tiny company with hundreds of millions of dollars in guaranteed sales could grow 1,500% or more
- My ace-in-the-hole penny stock could become the top performing stock on Wall Street and make you up to 77 times your money!
- Four barnburner penny stocks could each double your

money in this market.

So how can you get all these profitable picks?

It's easy. You have to take advantage of my best offer ever...

Sign up to Penny Stock Fortunes for Only \$59!

Try **Penny Stock Fortunes** for one year for a ridiculously low price of only \$59. That works out to 16 cents a day - the best offer I can possibly make you! When you sign up, you'll get my **FREE** report with all the details on the seven stocks you need to own to start growing your \$200 into that \$6.6 million.

Plus, you'll get a report about my favorite ace-in-the-hole pick - which could rise 77-fold by the end of 2006. And on top of that, I'll give you my report on the four barnburner penny stocks that are poised to double your money this year.

Those reports alone are worth \$297. And I'm giving them to you for nothing. They are 100% free - on the house. Consider them my gift to you for picking stocks with me.

But that's not all...

Of course, I'll give you six months to test-drive **Penny** for **FREE**. If you aren't 100% satisfied in the first six months, write me, call me or e-mail me and I'll give you a 100% refund. There is NO risk on your part.

Plus, if you find that my system lets you down, I make you this

ironclad promise...

If you can prove to me that my system failed you, **I will refund you 200% of the subscription price.** In other words...

If you can show me a trade sheet, a broker's report or some verifiable record that proves my advice let you down, I'll pay you \$118. That's a full \$59 refund - plus an additional \$59 for your wasted time.

Basically, I am assuming ALL the risk. I am betting the house, and then some, that my service is the best in the world.

But you know what?

I know ***Penny Stock Fortunes*** is the best.

I have years and years of data proving that small-cap stocks are the best investments of all time. I have studied the great investors - guys like Warren Buffett, T. Rowe Price and John Templeton. I know how they made their fortunes. And I can help you make yours.

Remember, Templeton invested in small-cap stocks in 1939 and quadrupled his money in four years. And that was right after the Great Depression! After that he went on to become the most successful money manager of the 20th century. And today he is living out his days in the sunny Bahamas - worth a cool \$2 BILLION!

You can do the same.

Hell, even the mainstream press knows these stocks are the best. Remember...

TheStreet.com reported on Nov. 1, 2004, "Large-cap stocks make the headlines, but lately, the [small-cap] stocks have been making investors money."

USA TODAY proclaimed that "On Wall Street, it's the small fry delivering the big returns."

Mary Lisanti, of AH Lisanti Capital Growth, said, "Small-caps will rule the world for a while. I don't see anything to change that."

The problem is most of these so-called experts don't have the guts to recommend small-cap stocks! But I do. And if you join me today, I will - starting with the two best stocks to own right now.

But before you sign up, look at what my own readers are saying about ***Penny Stock Fortunes...***

"I want to thank Mr. Boric for his WHT recommendation. I made 66.5% in 160 days! Your picks in 2003 were great: ORB, CYD, ATAR, TRIB and others."

"Thanks again."

-I. Kremen

"James, I just read this report and wanted to tell you that I turned \$53,000 into \$129,000. Thank you."

-D. Seal

“Did great on CDE, made over \$10,000. Keep up the good work.”

-G. Dahl

“I’m having a ball...Last year, I started with \$300 invested...currently, my portfolio is around \$1,600...Being an accountant, I understand financials, however I don’t have time to research every stock I come across. You have done that for me.”

-A.L.

“Dear Mr. Boric,

“I bought 4,000 shares of CDE on 7/10/03 at \$1.57 and sold 3,000 today at \$5.43 for 245% gains! Thank you. My devastated IRA is coming back. Another year like this and I will have recouped all my losses, which is great, since I am retired (age 72).

“Keep up the good work. I will never go back to letting “financial advisers” handle my investments.”

-H. Balboni

So there you have it. My readers love ***Penny Stock Fortunes***. They are making good money following my advice. And I know you will too. All you need to do is sign up.

When you do, you will get...

- 12 issues of ***Penny Stock Fortunes*** sent to your home and e-mail box

- A copy of my **Bonus Report** detailing my two favorite penny stocks of 2005 - set to rise as much as 15 and 32 times each
- My favorite ace-in-the-hole small-cap pick that could rise 77 times over by the end of 2006
- Four barnburner penny stocks - each of which could double your money

My Free Gift to You for Trying Penny Stock Fortunes

Because I want you to make as much money as possible in the small-cap market, I will automatically sign you up for my twice-weekly e-letter - ***Penny Sleuth***.

Every Tuesday and Friday, my partner in crime Irwin Greenstein and I cut through the small-cap market. We show you what to look at, what to avoid and how to make a lot of money week in and week out. We even show you the secrets that investing greats like Warren Buffett, John Templeton and T. Rowe Price used to make their fortunes.

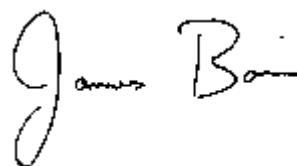

This service in itself is worth hundreds of dollars. But if you sign up for ***Penny Stock Fortunes*** today, it's yours **FREE**. Consider it my gift to you for joining me.

But I urge you to hurry and take advantage of my best offer ever. It won't last forever. And remember...

If you aren't 100% satisfied with ***Penny Stock Fortunes*** or my service to you, I'll pay you 200%! That's how sure I am of this product and these small-cap stocks.

I look forward to welcoming you on board. And I can't wait until you see just how powerful these penny stock profit chains can be. I do hope you will find out!

Best regards,

James Boric - Publisher, ***Penny Stock Fortunes***

P.S. If you sign up today, I'll rush you a copy of your **FREE report** with the names of the two best penny stocks of 2005, my ace-in-the-hole pick and all four of my barnburner stocks. These seven stocks will get you started on the path to riches. And that's seven stocks that could get you started on a profitable stock string - just like the one that could have turned \$200 into \$6.6 million in 2004.

P.P.S. I've never made a bolder offer to anyone. If you aren't 100% satisfied with ***Penny Stock Fortunes*** in the first six months, I'll refund 100% of your money. And if you can prove my system failed you, I'll double that refund check. *Guaranteed.*
