

**'I have staying power as good as in my 20s, much shorter refractory periods, and repeated rock-hard erections...'**

***- Larry Z., Texas***

Dear Friend,

While it's no surprise to me that the supplement I recommend for sexual health is helping untold numbers of men (and their wives) achieve robust, frequent, satisfying sex lives - what's truly shocking is the number of them who are kissing and telling. You see, they've been writing in to rave about the bedroom boost they've gotten.

One letter, from a customer named Larry Z., even taught this old doctor a new way of saying 'great in the sack.' Here's what he has to say:

I have been using **Ultimate Male Support** daily for about two months now, and I have to say...the improvement has been remarkable; this product has been exactly as advertised. I have been amazed how I can actually see and feel the difference in just two months. I have staying power as good as in my 20s, much shorter refractory periods, and repeated rock hard erections...

To paraphrase the TV ad: **Ultimate Male Support**, about a dollar a day. Being called 'Donkey Kong' by my girlfriend... priceless!

**'Donkey Kong' is new to me - But there can be no mistake about what it means...**

Larry's note is just one example from the stacks of letters and e-mails the good folks at *Real Advantage Nutrients* have shared with me in praise of the **Ultimate Male Support** formula.

It's great to hear from these men - and to know that the formula I played a role in developing is helping them to turn back their sexual clocks to wedding night levels.

Now, I want to make sure that YOU have the same chance to experience all the youthful desire - and more importantly, the ability to act on it - that has spurred these men to put pen to paper and write in about the most personal issue that could ever effect them...

Keep reading, because stamina, raging erections, and a red-hot love life are now yours for the taking.

**Discover what men in other countries already know - and what makes their wives thank them in the morning**

For centuries, men around the world have relied on natural herbal remedies to help them stay vigorous and viril. These miraculous flora are known for boosting sexual desire and sensitivity, strengthening erections, and enabling men of all ages to enjoy more frequent, longer-lasting sex. What's even more exciting (no pun intended) is this: The effects of many of these ancient remedies have been so impressive, they have gotten the attention of medical science.

Today, I'm going to make these herbal secrets to longer, stronger, more intense and frequent sex available to you for the first time - with the **Ultimate Male Support** dietary supplement. It's the only libido supplement that's effective enough to carry my no-risk 'Ultimate Guarantee' of 100% satisfaction or your money back, *including shipping and handling* .

And because it's part of the Real Advantage family of supplements, you'll know the ingredients in **Ultimate Male Support** are of the absolute highest quality, freshness, and potency. I simply would not endorse it otherwise.

### **It all began with mountain men and their farm animals...**

For those not born into it, life in the Andes at over 10,000 feet presents some real challenges. In fact, as some report, so shocking was this elevation change to the

livestock of the invading Spanish that it wreaked havoc on the animals' ability to conceive and bear offspring. But then the transplanted Spaniards discovered a secret of the native farmers - a powerful herb found only in those rugged mountains that had remarkable invigorating qualities, including a profound effect on libido.

Needless to say, watching all their farm animals turn into lust-crazed rutting machines surely got those Spaniards thinking...And by sampling this herbal miracle (called *maca*) they stumbled upon its other secrets - not only did *maca* help transform them into true sexual *conquistadors*, it also infused them with greater strength, energy, and endurance.

**In no time at all, you'll be doing the 'Midnight Mambo' like the sexual warrior you once were (or wished you were)**

Once they started experiencing the energy-boosting properties of *maca*, it became clear to those Spaniards just how the Inca warriors they had such a hard time conquering were able to build an empire the size of ancient Rome's - and how they were able to construct mountaintop cities from 100-ton stone blocks *without the use of the wheel*.

The testimonials I've received confirm what the Incas have known for hundreds of years - and what I've come to

realize from examining the abundance of hard evidence during the **Ultimate Male Support** formulation process:

**Grin like the cat that ate the canary when she purrs, 'Again? Really?'**

But maca isn't the only 'secret' natural aphrodisiac worth taking - not by a long shot. I've also been researching an incredible herb called *tribulus terrestris* that's been used by men in India and China for centuries to increase libido and strength of erections - even the quality and quantity of sperm production. First used in ancient India to treat impotence and fatigue, *tribulus terrestris* has been shown to promote strong, healthy levels of testosterone.

Another natural sexual booster is the herb *muira puama* (also known as 'potency wood'). As its nickname would denote, *muira puama* has been shown to increase one's sex drive. And this natural sex-enhancer, along with powerful *tribulus terrestris*, is included in **Ultimate Male Support**.

**Re-awaken your 'inner buck' in the bedroom tonight...**

What's one of the hardest, fastest-growing substances in the animal world? Deer antler. Full-size antlers sprout, mature, and harden in all species of deer (even moose!) in just 4 to 5 months every year. Amazing, isn't it? But these

massive male structures owe their very existence to a unique and extremely specialized bioactive substance called velvet, a fuzzy external membrane that distributes blood and nutrients to the growing antler, while also protecting it from harm in its fragile, pre-hardened state.

What's this have to do with sex? A lot. Because antlers are a deer's primary means of establishing and maintaining a sexual 'pecking order,' this velvet is very rich in hormones that stimulate both growth and testosterone production. That's right - they're a great source of all kinds of stuff that's useful in the sack.

Deer antler velvet has a 2000-year history of credible use in Chinese herbal medicine, and is still used to this day in that part of the world to promote virility. It's safe, non-toxic, and guess what? It's one of the key ingredients in Ultimate Male Support.

### **Real quality and value in a sex-boosting supplement that's backed a long history of use**

With **Ultimate Male Support**, I've found an effective, affordable way to give you all of nature's own proven secrets to great sex - with none of the frills or unnecessary (and unproven) ingredients found in other products. And unlike some other sex supplements that contain *yohimbine* and other potentially harmful substances, **Ultimate Male**

**Support** is safe enough to take every day. (However, because it raises testosterone levels, if you've been diagnosed with prostate cancer or have elevated levels of prostate specific antigen (PSA), I don't recommend this product.)

Now, with **Ultimate Male Support**, you. You can be as carefree and spontaneous as you were in your younger years. And because it's a *Real Advantage* formula, you'll know that every ingredient has been chosen for its safety, effectiveness, and quality.
