

Skeptical Investor's Secret #3: Make MORE Money MORE Safely By Knowing HOWTo Look Ahead!

After World War I was over, everybody 'knew' why it started.

Every author of history schoolbooks 'knows' what caused the market crash in 1929... World War II... and Vietnam.

On Sept. 11, every two-bit journalist in the world had a theory about what brought on the gut-wrenching terrorist attacks on the World Trade Center and the Pentagon.

It's easy to look for evidence AFTER the fact.

But not one economist or analyst in the world can HONESTLY tell you what the world ahead will bring. I urge you to ignore anyone who tells you otherwise.

That doesn't mean you can't prepare for the future. That doesn't mean you can't take the evidence that's already out there and apply it to your strategy moving forward. This is exactly what I'll help you do in your monthly issues of my advisory letter, *Fleet Street Letter*...

Five Controversial ThingsYou MUST DO In 2003!

First things first: I URGE you to get rid of ANY shaky, overvalued stocks in your portfolio RIGHT NOW! That just makes good sense. Based on current events, you're virtually guaranteed that 'bailout buyers' for iffy stocks just won't line up like they used to.

But what else can you do to prepare for the months ahead?

(1) Be Careful About Investing OUTSIDE Of The U.S. Dollar!

Doom and gloomers love to bash the U.S. dollar and the U.S. economy. But guess what -- despite Washington's biggest bungling, the dollar will be strong in 2003! *Don't cross that trend... OR YOU WILL LOSE!*

(2) Ignore The Alarmists And Stick To Your Resolve! Everyone is buying defense stocks now, but my readers made 72.6% buying defense stocks like Northrop Grumman long BEFORE the Sept. 11 attacks. Everyone thought we were crazy... but we knew we were onto a good thing. Over the months ahead, I'll give you a 'map' you can follow so you can steer clear of the Wall Street alarmists.

(3) Load Up On Good Companies At The Recovery's 'Turning Point!' Economists get the 'stopped clock' award. They predicted a turnaround in 2000. Then again in 2001. Then they called for a full-blown recovery starting in late 2002. Finally, they've got it right. What's more, the profitless businesses of the New Era have disappeared. This will force money back into responsible companies. *I want to make sure you're reading the Fleet Street Letter as this process unfolds -- it's the only way I can guarantee you'll be in the right stocks when the 'turning point' of the turnaround arrives!*

(4) Avoid Index Funds And Sector Funds Like The Plague! If the recovery is coming, should you bet your future on the Dow? How about biotechs or telecoms? For now, don't touch them -- not with your 'safe' money anyway. *In fact, if you're smart, you won't play 'sector' investing at all. Why? Because you'll make a lot more money shopping selectively than you will by making broad assumptions. The best way to get rich is the best way you do anything -- you have to FOCUS on where the opportunities are.* My

system can help you zero in on the right stocks better than any other investment strategy on the market, hands down. In fact, I guarantee it!

(5) Crank Up Your Profit-Power By At Least 30%! Investors find dividends pretty boring these days. But finding stocks that pay big dividends will have a huge impact on your profitability in the months ahead. *Research over the last 40 years shows dividends account for as much as 30% to 60% of lifetime investors' total returns!* Can you afford to ignore that?

Like I said, it's too easy for experts to pretend they know what's coming.

Everything I've told you above isn't a prediction. It's just smart investing based on available information.

If you really hope to forecast what's coming, do it the way I do for my *Fleet Street Letter* readers...

The Most Profitable 'Predictions' You'll Ever Come Across

My system is designed to zero in on rock-solid companies, not racy headlines.

With *Fleet Street Letter*, you get the most thorough picture of a company's financial future... leadership... dominance in their field... experience... and prospects... available anywhere.

Our detailed numbers analysis doesn't pop out 'trend' companies. It leads us only to companies with high-quality value. If you're not convinced already that this is the most profitable way to invest, then just look at the chart on the next page.

You can see what I mean.

The kinds of stocks you'll get from the *Fleet Street Letter* system, when applied across the market, outperform so-called 'growth stocks' by a factor of 732%...

'A Rare Source of SANITY In An INSANE Market!'

Here's what Lynn's readers say about her system and the *Fleet Street Letter*...

'One Of The Best Newsletters Around!'

'I've been a financial advisor for many years now and subscribe to many different newsletters. I can definitely say that the Fleet Street Letter is one of the best!'

- G.W.N., Massachusetts

'Lynn, Keep Up The Good Work!'

'Even though I am quite knowledgeable about economics and investing, the Fleet Street Letter gives me info I simply can't find anywhere else. Keep up the good work and keep telling the truth - a rare commodity in today's casino-like investing climate.'

- Tim Campbell, Wyoming

'I Turned \$5,000 Into Over \$25,000 In One Month!'

'I took your advice and through careful and constant attention... I've grown my small \$5,000 investment by over fivefold in a month... I enjoy and look forward to your monthly communiqués. Keep up the good work!'

- J. Redmond, New Jersey

'Not Only Did My Subscription Pay For Itself... I DOUBLED My Money!'

'I took your 'short' advice a month ago on JNIC... I doubled my money... You've easily paid for the cost of my Fleet Street Letter subscription!'

- Steve Edwards, South Carolina

'I Made \$23,210 In A Couple Weeks Time!'

'I wanted to thank you... over the last couple of weeks I've realized a total of

\$23,210!

- Jim Savage

'I've Got a 26% Dividend... Best Advice I've Ever Seen!'

'Many of your recommendations are for stocks under \$30... which appreciate nicely or pay a really good dividend. One of your outstanding finds... is paying me a dividend of about 26%, even after an appreciation of 10% above the recommended price... When I first started my subscription, I received a number of special reports... the one entitled 'Investment Strategies for the 21st Century' was the most concise, clear explanation of how to develop an investing plan I have ever read. And I've been reading about investing for more than 25 years. Thanks!'

- Earl N. Wycoff

'Worry-Free' Stocks And Never A Question About What To Do Next...

The beauty of my airtight investing system is not just the fact that it consistently manages to beat some of the world's most successful investors to the punch...

Or even the fact that it's one of the FEW advisory services that really DID make money over the 2000-2002 roller-coaster-of-a-market (instead of just CLAIMING to, like so many other unscrupulous advisory services out there!)....

The real beauty is the simple fact that EVERY stock selection I generate for you using the *Fleet Street Letter* system has to have all the markings of a guaranteed winner before I turn it over to you, my reader.

These are stocks designed to be 'WORRY-FREE'...

While at the same time, they help you pile up solid, sizeable returns.

But because I know you want to stay 100% plugged into what your money is doing and what crucial moves you should make next...

I also want to send you our private telephone hotline number.

It's active 24-hours a day... around the clock... and you can call it as often as you like, whenever you like. Every week you'll get a complete update on what the stocks in the *Fleet Street Letter* portfolio are doing. If something's happened and it's time to sell... or time to load up on more of any particular stock...

You'll know. This *Fleet Street Letter* Investor's Hotline is for subscribers only. You'll get the telephone number the moment you join. That's not all. Now we have the advantage of the Internet...

I can also rush you a **PRIVATE PASSWORD** for the *Fleet Street Letter's* highly praised online archives and Web site. Not only can you download back issues to your heart's content... you can post and read online discussions with your fellow *Fleet Street Letter* readers about the picks, the market or anything else you like...

And after you join, you'll be able to download the FULL bonus reports I've been telling you about. No need to wait for them to arrive in the mail (though I'll rush you the printed copies regardless, if only for your library!).

What's more, I'll send you **e-mail alerts** to make ABSOLUTELY SURE you don't miss any crucial news about the stocks you and I

are going to profit from together.

The system is seamless; the followup that I'm promising you is even more so. That's why I sincerely hope you'll accept the invitation I'm about to make...

I Personally GUARANTEE That This Investing System Will Revolutionize The Way You Make Money!

All five FREE reports in the '**SECRET LOGIC LIBRARY**' are yours to keep, of course -- even if you decide that the *Fleet Street Letter* just isn't your cup of tea.

What's more, you'll be able to cancel your subscription to *Fleet Street Letter* at any time -- even right up to your last issue -- no questions asked. My publisher will simply cut you a check for the balance of your subscription and rush it to you with a small note of thanks.

How much?

All together, the '**SECRET LOGIC LIBRARY**' (worth \$159) and services (worth an estimated \$1,230) have a cumulative value of over \$1,389.

In sheer stock profits alone, the advice you'll get with every issue of the *Fleet Street Letter* is worth many times that. In fact, I sincerely believe this is the only way -- bar none -- for you to make money investing.

I also firmly believe what I'm about to send to you is worth quite a bit MORE than what any other investment service charges.

And some charge quite a bit, by the way. I've seen advisors selling stock recommendations for as much as \$5,000 per investor.

But a subscription to *Fleet Street Letter* won't cost you anything near that much.

Sign up for two years -- that's 24 issues of *The Fleet Street Letter*, one each month - plus the private Web site password, the 24-hour Investor's Hotline, the e-mail investing alerts, and the four stunning investor's reports in the '**SECRET LOGIC LIBRARY**'... *plus the extra FREE gift for a fast reply...* and your subscription is just \$99.

That's not even 14 cents per day!

If you'd rather just try the *The Fleet Street Letter* for one year, there's a special deal for you there too. For one year -- 12 issues -- plus the private Web site password, my 24-hour Investor's Hotline, e-mail investing alerts, and a special beginner's version of the '**SECRET LOGIC LIBRARY**' is just \$59. (Less than 17 cents a day!)

Obviously, I'm going to encourage you to sign up for a two-year subscription. Because I'm confident that's what you'll eventually want to do anyway - this information is going to transform the way you invest THAT much. I figure, why not start saving on the subscription right up front. But, of course, that decision is up to you. Both options are excellent. Just make sure you act on this rare invitation quickly...

Remember, You Risk Absolutely Nothing For Giving This System A Try! (Your Satisfaction is 110% Guaranteed)

Remember, regardless of whether you opt for one year of the *Fleet Street Letter* or two... your satisfaction is 100% guaranteed. No, make that 110% guaranteed...

In other words, I promise you you'll start making more money with your investments... you'll sleep better knowing those stocks I've picked for you are CAREFULLY examined and almost assured to GO UP.

If you find you're not satisfied with that promise, then you simply cancel. And I send you a check made out to you, which covers the FULL balance remaining on your subscription.

That's the 100% protection. The extra 10% is the mere fact that you keep everything I send you regardless... all the issues and up to five investing reports... are YOURS FREE, to keep as you wish!

I hope you agree that sounds tempting. Just give it a try. ***I know you have nothing to lose, and several thousand dollars -- potentially into the millions, provided you love the materials I send you and decide to stick with me - to GAIN!***

All you have to do is click the 'Subscribe Now' button below. You'll be able to get started right away. But please, let me hear from you today!

Yours in confidence,

Lynn Carpenter
Editor, *Fleet Street Letter*

P.S. Some BREAKING NEWS -- As I write this, there are

hundreds more class-action suits pending against Wall Street's biggest financial firms. It turns out top financial analysts knowingly tricked investors into buying BAD stocks! And just to protect their own business relationships with investment banks.

But this scandal reaches much farther than just Wall Street. Did you know that Tyco's top financial officer spent an incredible \$37.9 million on 'consulting services' from PriceWaterhouse Coopers!

Meanwhile, *Fortune* magazine called the **Enron** debacle the 'grand finale' of the manic 1990's market. I beg to differ -- the market's already asking questions about accounting complexity or accounting irregularities at **PNC Financial**, **General Electric** and **IBM**. More scandals are still unfolding.

On Capitol Hill, *they're still sorting through 40 boxes of documents from Andersen Accounting...* looking for potential fraud or misdeeds. I'm infuriated that this goes on. But not surprised.

My system snagged the coming disaster at **Enron** LONG before the feds stepped in or the stock crashed 99.5%. I warned my readers away from **Global Crossing**, too.

But we still managed to make a FORTUNE on our other stock picks, all thanks to my proprietary system... which you can read more about in your FREE '**SECRET LOGIC LIBRARY**' set of reports -- I'll rush the whole set, plus a welcome kit, to you the moment you click below and order online. I hope to hear from you soon!
