And just in case you're wondering...

Why haven't you heard about ANY of these new 'magic bullets' before?

I'll tell you that too.

It's because this news doesn't come from the mass media, but from a most

unconventional source...

Directly from the scientists themselves!

That's right. The scientists.

The people actually making some of the greatest new discoveries in alternative and preventive medicine - in America, Canada, Europe, Asia and Australia.

Not long ago, some of the best of these brilliant minds got sick and tired of watching their hard-won breakthroughs get *buried* by red tape, out-of-control regulators and special interests.

They decided it was time for an *information breakthrough* . And so...

For the first time ever , a group of the most innovative physicians, researchers and medical professionals in the world have joined together. To form an organization unlike any other:

Health Sciences Institute (HSI)!

HSI exists for one purpose only. To get the world's most lifesaving news out to you.

HSI is truly independent. It isn't owned by an HMO. It isn't funded by drug companies. It doesn't serve the hidden agendas of medical schools or hospitals.

**HSI is the world's only medical network looking out ONLY
FOR YOU...**

And they want to give *you* the ultimate power to save your own life...

RIGHT NOW.

In the pages of its MEMBERS ALERTS, HSI prints the latest word on the newest breakthroughs in natural medicine. Often, *years* before it will hit the mass media or the popular health press.

Already, it's a wild success among insiders.

HSI has become the secret source of health gurus

Those receiving HSI's monthly Members Alert include some of the world's most trusted medical people. Among them, the authors of top-selling newsletters.

Why? Simply because...

HSI doesn't recycle the same old health-talk!

You and I both know how the same well-worn natural remedies bounce from one periodical to the next. Some of it is good advice. But is it *news* ?

Well, when you read about a 'miracle' in HSI, it really is a miracle. Not just a little-known health fact but a major new development. For example...

Here's what you should know right now in case anyone you love gets CANCER

Whether or not you decide to proceed with conventional treatments for cancer, please read on!

Because now there's a new, *all-natural* tool that can greatly improve your chances. It may make the difference that puts you among the survivors.

It costs only pennies a day. - and it's literally...

Safe as MOTHER'S MILK!

HSI was among the first to break the story about this amazing compound called *lactoferrin*. Found in mother's milk, it's the very same protein that protects breast-fed newborns from diseases!

This mother's-milk miracle pill supercharges your immune system in at least three powerful ways:

First, it binds to the *iron* in your blood, *keeping it away* from cancer cells, bacteria, and other pathogens that require iron in order to grow.

Second, it actually *switches on the genes* that launch your body's own immune response...

**In effect, it backs cancer cells into a corner...starves them...
and calls out to your white blood cells, 'Hey guys, the
cancer's over here! Come and get it!'**

As if all that weren't enough - lactoferrin also contains *natural antibodies* against an incredible range of other invaders, including bacteria, viruses, fungal pathogens, and even protozoan parasites!

What about side effects? NONE. Except, it's also proving effective against symptoms linked to autism, AIDS, brain damage...and even speeds recovery from strokes!

How fast does it work? Ask Mary Ann.

**Mary Ann's cancer had advanced beyond
THE 'POINT OF NO RETURN'...**

Her critical white blood cell and poly absolute counts were too low even to permit chemotherapy.

But Mary Ann's friend had received the HSI Members Alert about the mother's-milk pill.

Mary Ann tried it. And...

Within a week, she reported, her poly absolutes zoomed from 0.7 to 2.7, and her white count doubled.

Soon after, her poly absolutes nearly tripled to 7.6 and her white count hit 10.9...or, as Mary Ann puts it, 'over the top!'

The compound comes in tablet or capsule form and...

It's as easy and painless to take as a vitamin

So why haven't you heard of it before? Because, as an all-natural substance, it can't be patented! So no drug company stands to make money from marketing it.

Sadly, it's still almost impossible to find real lactoferrin *anywhere*. (Since HSI broke the story, phony forms with similar-sounding names have been cropping up at health food stores. They're not the same thing.)

But there *are* sources right here in America. HSI will tell you how to get it

and the recommended dosages. Details in your FREE BONUS Advanced Healing Library!

There's much more good news on the cancer front. You also *must* find out about...

How metastatic PROSTATE CANCER has been stopped without side-effects...

The grim fact remains that 80% of all men who live to be 80 will at some point get prostate cancer.

But the good news is that it isn't lethal...if *it doesn't spread to the rest of your body* .

And now there's a new technology for halting the deadly spread of cancer - called metastasis - in its tracks!

It's a natural protein called MCP. The first totally *nontoxic* therapy shown to thwart metastatic cancers...

...a modified form of a substance found in ORANGES and LEMONS!

And, unlike 'hit or miss' techniques like chemotherapy or radiation, MCP *doesn't* weaken your immune system. It doesn't cause dreadful side effects like nausea, baldness and weight loss.

It doesn't kill anything, in fact. It simply makes cells more slippery.

MCP acts as an 'antiadhesive' - preventing tumor cells from hitching a ride to other parts of your body.

As reported in HSI, new research on this substance is pouring in from all over the world. In a recent university study, a 1% solution of MCP...

**Halted the spread of prostate cancer tumors IN OVER 90%
OF SUBJECTS TESTED**

By contrast, all but one of the subjects who *didn't* receive MCP developed lung cancer!

Here again, though, it won't make drug companies rich - so no headlines on CNN. And you're almost certain not to find it at your drug or vitamin store.

BUT HSI MEMBERS know how to get MCP. And now so can you. Full details in your FREE BONUS Advanced Healing Library.

Now let me tell you about...

**The new cancer breakthrough that can beautify just about
ANYONE OVER 30**

EVERYONE who has looked in a mirror and winced at an age-spot, blemish, mole or wrinkle...listen up!

Here's a brand-new defense against skin cancer...that also erases many *other* skin problems.

It's a cream developed right here in America, using plant extracts called *glycoalkaloids* .

Similar compounds developed in Australia were promising. Sadly, they took up to 3 months to work and hurt like crazy. BUT NOW...

The new American cream works in as little as 3 weeks, barely tingles...

And tests at St. John's Health Center in Santa Monica, California have shown it to be 100% effective in eradicating squamous skin cancer cells...and nearly as good against other skin cancers as well.

How does it work? By releasing enzymes. It literally 'digests' abnormal skin cells, leaving alone the healthy cells that replace them.

Doctors have found that you can use this product to remove pre-cancerous keratosis - those ugly patches of scaly skin that erupt as many of us age. Gone in just a few weeks!

Same story with AGE SPOTS. Gone! And unwanted MOLES. Gone!

Where can you get this FACELIFT IN A JAR?

It's tough to find. And you have to be careful you don't buy the Australian form. But you'll receive full details in your FREE BONUS Advanced Healing Library.

Plus you'll learn about...

BRAZIL'S MIRACULOUS 'MUSHROOM OF GOD.' Long treasured by local natives for its healing properties, it's now been shown to retard cancer tumor growth by *80 to 90 percent*.

A NATURAL THERAPY for liver disease that may hold the key to fighting today's most dreaded cancers.

A SMALL TREE from the Amazon may be the next cancer

breakthrough. Doctors are conducting an informal trial - but HSI members can get it now!

Just send for your FREE BONUS Advanced healing Library to learn how to use these new cancer breakthroughs now. At the same time, you'll discover...

Why you should FORGET EVERYTHING you wereever told about cholesterol and HEART DISEASE

For starters - forget about avoiding cholesterol in your diet. Just forget it! HSI will tell you how according to the latest research, *eating* cholesterol has no effect on the levels of LDL ('bad') cholesterol in your blood...

And the newly identified cause of clogged arteries...

...turns out to be a substance called *homocysteine*. You see, when homocysteine builds up in your body, it corrodes your artery walls. Then your body responds by trying to patch the damage - *with cholesterol!* (In fact, cholesterol is one of the most valuable disease-fighting substances in your body.)

Here again, HSI was among *first* to report the news to people outside the scientific community.

Oh, to be sure...

TIME magazine eventually trumpeted the 'news' about homocysteine...

But this was a full year after HSI broke the entire homocysteine story to its Members!

Better still, HSI Members have now learned about a new formula - the most powerful *anti-homocysteine* pill yet developed.

Some forward-thinking doctors now prescribe folic acid to fight homocysteines - *but this new formulation is much better* . It combines five nutrients to produce effects that go far beyond the powers of folic acid alone.

How well does it work? Well, if you or anyone you love has a family history of heart disease...

YOU WANT THIS PILL TODAY.

Just look at what happened to Marie...

She was just 45 years old. Nowhere near menopause. Out of the blue, she had a heart attack!

Fortunately, Marie's physician was one of the world's great authorities on heart disease.

He tested her for homocysteines. As he suspected, they were sky-high. But after putting her on this new *anti-homocysteine formula* , they sunk back down!

Marie now says, 'I feel great! And I look forward to a long, healthy life.'

James can walk up hills now...

But he wasn't always so happy. Blocked arteries in his legs made every step he took an absolute agony.

Once again, the culprit turned out to be a towering level of homocysteines.

Yet after just a month on a program including the *anti-homocysteine formula* , James' homocysteines plummeted. 'No more pain,' he reports.

The same formula actually reversed David's paralysis!

David was only 24 when he developed a strange paralysis that confined him to a wheelchair.

Eventually, he was diagnosed with blood clots in his legs. And one clot had floated up to his lungs, threatening his life.

Once again, the secret cause was homocysteine . Normal levels are 16. His were 300 - off the charts.

After treatment with the *anti-homocysteine formula* , David's disease is on the run and he can once again move his legs!

If this anti-homocysteine formula can help these radically afflicted people...don't you owe it to your loved ones to at least find out more about it? Full details about this new MIRACLE PILL FOR THE HEART and where to get it in your FREE BONUS Advanced Healing Library!

Forget about cholesterol-lowering drugs too...

Amazingly, the news I'm about to tell you was announced at the *annual meeting of the American Heart Association*.

Why haven't you heard about it? I'm afraid the manufacturers of anti-cholesterol drugs are trying to suppress the truth. And they are succeeding all too well.

But HSI Members have been given all the facts about anti-cholesterol 'statin' drugs:

- 1. They simply don't work for most people.** Not even at lowering cholesterol! A study of 5,600 patients using these drugs found that 62% had *not* reached their target levels.
- 2. The side effects are massive.** Liver toxicity, muscle cramps, nausea, diarrhea...
- 3. And they make you stupid.** Doctors studied 194 adults using cholesterol-lowering drugs. After just 6 months, their attention spans and mental sharpness had both declined alarmingly.

And yet, the manufacturers are now pushing doctors to prescribe these drugs for patients with *normal* cholesterol levels! But cheer up...

**Here's what can lower your LDL cholesterol levels better
than any drug, with NO SIDE EFFECTS**

It's a newly discovered vitamin. A radically improved type of vitamin E called *didesmethyldocotrienol*. (We'll call it DMT for short.)

DMT was researched by a famous Member of the HSI Advisory Panel, Dr. Randall Wilkinson. And not only can it lower the LDL ('bad') cholesterol in your blood...

**It's up to 60 times more effective than regular vitamin E as
an antioxidant, protecting your cells from damage...**

We'll tell you all about this breakthrough. PLUS how it can reduce 'clumping' in your blood that leads to artery-hardening blood clots and

strokes.

No drug in the world can significantly reduce all three of these causes of heart attacks.

But DMT can! With no harmful side effects. And it works fast! Small wonder...

Doctors who read HSI are using DMT on themselves to prevent heart attacks

One doctor reports to us, 'I started taking two capsules a day. Thirty days later my cholesterol dropped 23%...I was astonished.'

Because Dr. Wilkinson serves on the HSI Panel, our members have special access to a professional brand that's normally available only to medical doctors. Let us show YOU how to get it too. Full details in Your FREE BONUS Advanced Healing Library! This is where you'll also find exciting news about...

The heart-attack culprit that's now linked to ALZHEIMER'S and how to counteract it...

The herpes virus that may be attacking your ARTERIES and the new miracle pill that puts it on the run...

But the best news of all in your FREE BONUS Advanced Healing Library may just be...

The new breakthroughs against all forms of ARTHRITIS

First let's talk about the kind of arthritis that causes increasing pain to *all* of

us as we age.

Know what I mean? The 'runner's knee' that never cleared up...the 'tennis elbow' that hit you first on rainy days, then every day...the ache in your back or hip that you wrote off as 'just getting older'...

Hey, let's call it what it is!

OSTEOARTHRITIS. It happens when your cartilage wears down. Then your joints swell up. And it hurts!

Now let's make it go away...

Oh yes you can! It is now possible to regrow your own cartilage. And reverse age-related arthritis.

When HSI first made this statement, it wasn't just controversial. It was unthinkable.

Now the medical community is acknowledging that the cartilage-building formulas reported by HSI really work. Even orthopedic surgeons are blown away they see the results...

Dr. Lawrence A. Pabst, M.D. writes enthusiastically to an

HSI scientist that 'I have had about a 95% success rate!'

That's amazing enough for arthritis, but even more impressive is how total these successes have been.

As Dr. Pabst explains, 'One example is that of a 67 year old woman with osteoarthritis in the knees and hands who I've seen for years. She has

already had several knee surgeries and cannot take antiinflammatories because of their side effects. The pain was becoming intolerable [yet] ...after just one month [of taking these nutrients] her condition improved so dramatically she was able to walk up and down stairs without pain. That encouraged her to go back to her favorite hobby, gardening...'

'Believe it or not,' Dr. Pabst concludes, 'she has even started to go out to the driving range!'

Your FREE BONUS Health Advanced Healing Library will include details on this and other equally revolutionary formulas for arthritis, and where to get them. Including...

**The raw bar breakthrough that shrinks arthritis swelling
93%**

This natural substance isn't just safer than antiinflammatory drugs and painkillers...

It's far more powerful too . Research shows it outperforms even the new Cox2 inhibitors. In fact, it offers...

The most powerful joint relief ever discovered, period

It's derived from the New Zealand Greenlipped Mussel. Odd name, but a fantastic little shellfish!

These mussels have been the subject of tireless research for decades. At first, the researchers were looking for a cancer cure. But then, arthritic patients started reporting a strangely *wonderful* occurrence...

THEY COULD MOVE AND WALK AGAIN - WITHOUT PAIN.

Scientists were initially reluctant to believe it. But when they checked health records, they found that Coastal Maori (who love to eat this mussel) *hardly ever get any kind of arthritis*. And new tests kept showing it wasn't a coincidence. The mussels were doing it!

18 years of research followed. Scientists from research labs in Australia, Japan and France all competed to unlock the healing secret hidden within these mysterious shells...

Finally, they perfected a way to extract the special fatty acids that do the trick - and put them in a capsule. The result is called *Lyprinol* . And here's what the top brains are saying about it:

'In my opinion, a very major breakthrough.'

The speaker here is a world-renowned biochemist from Australia.

He's impressed, because scientists have tried for a long time to make drugs that reverse inflammation in the same way. But every drug they ever tried just about destroys your stomach lining.

Lyprinol, however, is safe and free of side effects . And it works against all types of joint pain - combating everyday wear and tear, as it balances and boosts the immune system.

Supplies of Lyprinol aren't available at your local drugstore. Those few who know how to get it are practically breaking down doors to get it...

However, HSI was able to secure preferential access for its members. Full details in your FREE BONUS Health Sciences Library.

Plus, you'll learn more startling news about the secret cause of many cases of arthritis...

Can your loved one's arthritis be caused by a BUG?

Remember when they discovered the link between ulcers and bacteria? This is even bigger news...

But the research is still virtually *unknown* outside of peer-reviewed scientific journals!

Brand-new studies show a link between arthritis and some minuscule bugs - even smaller than bacteria - called *mycoplasma*

These little critters don't even have cell walls. Which makes them able to *invade the cells that coat and lubricate your joints.*

It turns out that *50% of patients with chronic arthritis* have mycoplasma infections!

So...how to get rid of these bugs? Mega doses of antibiotics can work, but they can take up to a year, with very unpleasant side effects.

Your FREE BONUS Advanced Healing Library will tell you about the SAFE new treatments - effective against mycoplasmas and other microorganisms linked to arthritis. Including:

- **The new silver compounds** that kill mycoplasmas but don't nuke your guts...
- **New formulas of selenium and oxygen** that can starve arthritis-triggering bugs...

- **And nature's most powerful new antibiotic**, derived from leaves of a common fruit tree (and so potent, it even shuts down viruses)!

Would you welcome a legitimate cure for RHEUMATOID ARTHRITIS...?

Never happen? Think again. That happy day may arrive much sooner than you think, thanks to an astonishing new class of natural products called *infopeptides*.

These miraculous compounds carry 'the immunity code' to newborn animals. They aren't found in breast milk, but appear to be created *within* a newborn as it digests its milk.

Scientists recently succeeded in creating a new infopeptide in the lab - using cow's milk.

Spray just a little of this stuff in your mouth and it can trigger incredibly strong anti-arthritis responses. (Tastes like vanilla. Kind of pleasant.)

Patients in the study had all been *suffering from arthritis for 6 to 20 years* - using drugs to no avail.

In just 2 to 6 weeks, 82 percent of them had remission FOR THE FIRST TIME IN THEIR LIVES...

...and in another 30 years, this new 'magic bullet' may be used as commonly as aspirin is now.

BUT WHY WAIT? HSI members have access to it *now*, and your FREE BONUS Advanced Healing Library will give you full details about how to get it and use it.

Feeling a little more hopeful now?

I do hope you are. And there's much *more* great news on the horizon, about many more cures for conditions that may be making you suffer...needlessly! As an HSI Member, you'll learn about:

The astonishing new psoriasis breakthrough that improved or *completely eliminated* symptoms in 81% of patients tested. Made from a special extract of Oregon grapes. There's *never* been a remedy so dramatically successful before.

An extract proven to reduce migraine incidence by 50 percent - patients report lower intensity of pain and reduced frequency of symptoms.

The new anti-aging substance that's much safer than taking DHEA, because it lets your body restore its own optimum hormone balance...

The new compound that could put diet clinics out of business, because it's not a diet or drug, but a 'missing link' that you eat in addition to your normal meals (and cheap!)...

And rest assured that next month, more legitimately new results will be in.

News that could add 20 years to your life or turn the tide for a loved one...*if only you knew it NOW.*

Your doctor may be just as excited to hear this news as you are

I couldn't be more serious. These days more than ever, it's up to you to find the new cures. Because...

Before any of these new discoveries trickle down to your doctor's desk , they will have to pass through a pipeline that would make a plumber dizzy:

Medical schools , each eager to shoot anything down that conflicts with its own pet theories...

Government agencies with zero incentive to do anything but restrict your access...

HMOs who flat-out forbid their physicians to use any treatment they haven't approved...

Hospitals that make their money by marking up expensive procedures they invested in long ago...

Drug companies who are understandably terrified of anything newer and cheaper that might suddenly make their billion-dollar drugs obsolete...

And let's not forget the \$200 billion industry in non-prescription supplements , who want to keep selling you their old standbys...

No wonder it took 30 years for something as basic as *aspirin therapy* for heart disease to enter the mainstream! (Yes it did. The original research was published in 1959. Doctors began recommending it around 1989. You could look it up.)

But if you think delays like this are just not acceptable...

Just use the enclosed RSVP Free Bonus Gift Certificate. Join today's most brilliant health practitioners and researchers as a member of Health Sciences Institute. And...

Get 30 years ahead of everyone else in the next 60 seconds!

In the coming months, as scientists find the new *answers* to cancer, heart disease, arthritis...and so many other 'incurable' conditions...you will no longer be last in line. *You'll be first.*

To activate your Membership in Health Sciences Institute, just click the subscribe now button below. It'll take you about 60 seconds...And your package of Member benefits *will put you 30 years ahead of everyone else.* These include...

1. YOUR FREE BONUS 6-VOLUME ADVANCED HEALING LIBRARY, detailing all the breakthroughs mentioned in this report and many more.

2. MONTHLY HSI MEMBERS ALERTS, briefing you on the most important new health discoveries, direct from our network of doctors and researchers. They're so readable, you'll breeze through each article in minutes - yet so thorough, your doctor will be impressed. You'll always be first to know and you'll always get it right, because you're hearing it from the scientists themselves. *This is the source.*

3. FIRST ACCESS TO CUTTING-EDGE TREATMENTS. Both your Library and your monthly Members Alerts include MEMBERS SOURCE DIRECTORIES, telling you how to obtain the miracles we report on. And when supplies of new formulas are limited, we intervene with suppliers on behalf of our Members. So you'll get *preferred access* to breakthroughs from these cutting-edge sources.

4. HSI QUALITY RATINGS. Unfortunately there are *no* international quality standards for natural supplements. But HSI carefully screens suppliers, rates them and recommends only the best for our Members.

Look especially for those with our highest (5 star) rating.

5. MEMBER DISCOUNTS! We've also used our strength in numbers to negotiate deep discounts for our Members on hard-to-find supplements. You'll receive coupons for 5-star sources like *NorthStar Nutritionals* that could save you hundreds of dollars!

Next, *HSI will connect you personally* to the renowned scientists of our advisory panel...

A portion of your Membership dues supports important health research...

And, in return, you'll receive 'insider' privileges you couldn't otherwise get at any price, including:

6. PERSONAL ACCESS TO OUR PANEL OF SCIENTISTS . If you ever have a question, you're invited to write call, fax or email directly to our offices. You'll be answered promptly and - at your request - discretely.

7. THE CHANCE TO PARTICIPATE IN RESEARCH. Sometimes we're able to give Members an invitation to take part in the latest research on the most promising new discoveries. Often that means you'll receive the treatment at greatly reduced cost or FREE.

Plus, to assure you of *up-to-the-minute* health news coverage, you'll get an additional valuable benefit:

8. FREE INSTANT HEALTH ALERTS VIA E-MAIL. Sometimes the news is just too hot to wait. So include your e-mail address on the order form, and we'll enroll you for FREE BONUS HSI e-Alerts. You'll get latebreaking news, followup research on past articles and more.

These are just some of the many benefits you'll discover when you open your HSI NEW MEMBER BENEFITS PACKAGE. Yet I know you'll find HSI Membership to be a remarkable bargain:

All these benefits and more for just pennies a day!

If you accept this special invitation now, we'll award you a three-year membership for just \$2.47 a month.

And along with your one-year, two-year or three-year membership, you also get...
