

Make Your Shopping Trips pay for your next vacation

International Living isn't just about saving you money. It's about *making* more money than you may have dreamed, doing what you love most.

This isn't just a promise, but a dollars-and-cents reality for many of our readers. And sometimes it's a totally unplanned bonus. When they broaden their horizons and visit these secret Edens - well, stuff

happens.

For example, your FREE BONUS GIFTS will show you a breathtakingly beautiful country where prices for nearly *everything* are so low, your shopping trips could truly pay for your next vacation (or your next life).

Just ask Lawrence W. from Sacramento...

As he told us, "I returned recently from 10 days in [the place you recommended]. Did I like it? The day after I returned...I listed [my] house for sale! The opportunities [here] are unbelievable. It would take volumes to write about all the

possible business, tourist, and personal things you could do. I may need two or three lifetimes to accomplish all of what I have already planned. Thank you, thank you, thank you!" So what is this amazing land of opportunity?

Name the only nation whose stock market posted triple-digit gains in 2000 (while others tanked)...

Would you believe...*Ecuador*? Yes, Ecuador! We recently named it "the cheapest country in the world" in our Quality of Life Index, and it's bursting with business potential. It offers incredibly skilled labor that works for as little as 75 cents an hour. And an enormous array of goods and services at rock bottom prices.

In the area of import/export, the only question is where to start. How about silver and gold jewelry from Chordeleg... carved, architectural and decorative wood products from San Antonio de Ibarra...

ceramics from Cuenca... furniture from Quito... carpets from Guano... paintings and art from all over the country... textiles from Otavalo... leather products from Cotacachi... flowers grown in Ambato. All these products and many more have a high perceived value in the U.S....

Western Europe's Secret TAX-FREE PARADISE

Tucked between France and Spain is a tiny sovereign nation that most Americans never even heard of. Here you'll find 188 square miles of mountains, valleys, forests and lakes... and a total absence of serious taxes. No income tax, no capital gains tax, no inheritance taxes, not even a sales or value-added tax.

You may come to *Andorra* to escape taxation - but you'll stay to enjoy the dramatic landscapes, skiing, hiking and friendly people. Best of all, Andorra's cost of living is lower than North America's and much less than in virtually all of Western Europe. No wonder that more than 10 million visitors pour in from neighboring countries every year, to shop for bargains. Find full details of where to stay, what to see - and how to settle here, if Andorra captures your heart - in your **FREE BONUS GIFTS**.

Yet in Ecuador, you can buy them for dimes on the dollar

In fact, there are so many business opportunities here that *International Living* began offering special week-long seminars for our readers called "Ecuador Business Made EZ." And look what's already happening...

Bob had always loved horses....

And he found an excellent source of *saddles and custom saddle-making* in Ecuador. Now he's having expensive U.S. saddles reproduced in Ecuador for peanuts, so he can sell them back to the U.S. market. Plus, as I write this...

- THREE MORE READERS are now involved in their own fascinating export businesses...
- JIM FROM ATLANTA is busy setting up tours of Ecuador for artists...
- BETH AND JOE are putting together two real estate developments... Incidentally, speaking of tourism and real estate...

The scenery isn't just breathtaking...

- The climate is near perfect. High altitude makes it springlike all year 'round.
- The people are among the friendliest in the world. (More on this later.)
- The government is South America's oldest democracy, changeovers are peaceful...

Or if you'd rather be *surrounded by orchids*...

As one reader tells us, "We paid just \$34,000 for our new home, which included a plot of just under 2 acres... including 150 feet of river frontage, loads of tropical fruit trees, a fresh spring, and a three-bedroom home *with a caretakers's cottage*. We've got brilliant colored orchids sprouting from many of the trees. The property is at altitude of about 5,000 feet, which provides the perfect year-round climate."

And their caretaker watches the property, cleans the house, waters the plants, does the yard work, even pays the bills when they're away... for just \$35 per month

Reasonable enough? You'll find full details about how to do business, live or travel here (at the same low prices) in your FREE BONUS GIFTS. Plus, we'll reveal two other great places to go if you want to start a business, where costs are low - and foreign language skills are strictly optional.

So do send for your FREE BONUS GIFTS now. And then, whenever you feel a little footloose...

WHY LIVE IN A MONEY PIT...

when your dream home could be a *money maker*?

Little-known secret. There are over 23,000 Bed-and-Breakfasts in France and most are owned by expatriates. In

fact, this is how quite a few International Living readers are making their dream homes pay for themselves... not just in France, but all over the world.

In your FREE BONUS GIFTS, successful B&B owners Nicky and Neil Sinclair will show the secrets of how to do it, including how to get government grants for start-up money. So do send for your FREE BONUS GIFTS now. (And take heart. Unlike many other new businesses, most B&Bs are successful.)
