RESOURCE TRADER ALERT

THE TRADER'S CODE - DO YOU HAVE WHAT IT TAKES?

The key to making money in the commodity markets really comes down to one simple and overriding rule. I call it the **Trader's Code**.

And the **Trader's Code** is simply this: **Follow the system!**

You see, the *RTA* system works, *if you follow it*. And the system is so simple a 12-year-old could use it. In fact, all you need to do is check your e-mail daily and pass our specific trading instructions on to your broker.

Simple, right? But a funny thing happens when people start to make money.

After they make some big gains, they let their egos get in the way. They begin to invent their own rules...follow their "hunches"...and, ultimately, stray from the system.

Big mistake. You see, the key to long-term success in trading is

"Just a note to let you know about the profit from the Sept Silver \$6.80 Call.

I bought for 10.5 cents and sold for 26 cents. I was lucky, as I didn't get in when first recommended.

I am very pleased with the profit as I only held this position for 14 days."

Lynnette, RTA subscriber

sticking with the system. And if you believe you have what it takes to follow our proven *RTA* system, I urge you to read on now.

In a moment, I'm going to tell you how you can reserve your riskfree space in my trading inner circle.

But first, let me give you a glimpse of my *RTA* system in action.

DOUBLE YOUR MONEY EVERY MONTH!

Resource Trader Alert monitors the daily price movement of commodities, natural resources, and foreign currencies.

We don't analyze stocks, P/E ratios, or balance sheets.

We simply evaluate price movements...and take advantage of up and down fluctuations.

For example, if we believe oil is priced too high, we buy put options. Put options go up in value when the underlying commodity goes down.

If we believe wheat priced is too low, we buy call options. Call options go up in value when the underlying commodity goes up.

And if you think buying options is tough...think again. It's just like buying a stock. All you need to do is telephone your broker and give him the detailed instructions we provide.

People who follow our advice have made out like bandits.

In fact, since May 2003, our readers have had at least one chance to **double their money every month**. And in 2004, we are generating gains at a blazing pace. Our *RTA* readers have already been able to realize gains of 196%...55%...68%...129%...79%...and more!

As I said before, *RTA* is like a profit machine. We don't get every pick right, but by cutting losses quickly and letting our gains soar, we've generated staggering total returns.

Now, you may be wondering: Can this hot streak continue? What if the market turns?

That is the beauty of **RTA!** We can generate money regardless of market conditions.

Up market. Down market. It doesn't matter! The *RTA* system works under any market conditions.

So you can see how simple it is, let me give you another glimpse of **RTA** in action.

154% GAINS IN 18 DAYS!

The war in Iraq may have neutralized a dangerous threat, but it also cost money the United States cannot afford to spend. The U.S. trade deficit is out of control, and budget deficits are increasing, too.

Meanwhile, foreign banks hold massive amounts of U.S. Treasury debt.

Bottom line: The dollar was in for a fall. I knew it...and so did the rest of the world.

But while most people started piling money into euros and yen, I realized that there was one currency that the rest of the crowd was overlooking - one of the safest and most stable in the world.

I'm talking about the Swiss franc. With the dollar on the decline, I thought the Swiss franc was an attractive investment. That's because the franc tends to move up in value when the U.S. dollar goes down.

RTA readers needed to get in. But instead of buying the currency itself - which would have been expensive - **RTA** recommended call options on the franc.

Here are the instructions *RTA* asked readers to relay to their brokers:

 Action to take: Buy December 2003 75 cent Swiss Franc calls (SFZ3C750) immediately.

Sure enough, the dollar dropped, the franc went up, and so did our call options. 18 days later, the options were up 154%. Another alert went out to our *RTA* readers with specific instructions:

 Action to take: Contact your broker and sell the December 2003 75 ent Swiss franc calls (SFZ3C750) immediately. **RTA** readers who followed this advice nailed 154% in 18 days. With two simple phone calls to a broker, you could have turned \$5,000 into \$12,700 in a little over two weeks!

While commodities may sound difficult and monitoring price trends tedious...our *RTA* readers made big money simply by following our rules.

Think you could do the same? Here's another look:

285% GAINS IN 3 MONTHS!

About the same time we were taking gains on our Swiss franc call options, along came another opportunity.

While the U.S dollar was still getting clobbered, we also noticed the most powerful demand for prime metals in decades, especially from China and the Far East.

With a falling dollar and rising demand for metals, we were looking at a two-barrel bull market with enormous profit potential. And there is one commodity that can take advantage of both those blasts. I'm talking about silver, that wonderful white metal that responds to dollar woes, as well as to international demand.

RTA didn't hesitate to get readers in on the action. The following instructions were issued on September 26, 2003:

• Action to take: Buy March 2004 \$6 silver calls (Symbol SIH4C600). This option is currently running for \$0.13 each, or

\$650.

Just over three months later, silver had skyrocketed...and our Silver Calls were up a staggering 285%.

Here's are the instructions **RTA** readers received via e-mail or fax:

Action to take: Immediately sell the Silver March 2004 \$6
 Calls (symbol SIH4C600) and stash the cash temporarily.

Readers who got in were more than pleased. And can you blame them?

A 285% gain in three months!

Think about that: If you had made a modest \$5,000 investment in silver calls, it could have grown to almost \$20,000 in about three months.

Like I said, if you follow the instructions and stick to my simple *RTA* system, **you can get rich**. I truly believe there is no better time to capitalize on commodities and foreign currencies.

The boom we are experiencing is unlike any other I've seen in 20 years. And the thing to understand about *RTA* is this:

Whether price go up...or prices go down...you can still make big money.

Take a look:

260% IN 35 DAYS!

On June 17, 2003, it seemed that since January 2000, the yield on the 10-year Treasury note had fallen by more than half, from 6.66% to 3.16%. That put the yield on these 'safe haven' bonds at their lowest level since July 1956!

The yield on bonds moves inversely to their price. And with yields so low, it looked like the price on the T-notes was too high.

A correction was on the way - the following instructions were sent to **RTA** readers:

 Action to take: Buy December 2003 \$114 10-year treasury note put (TYZ3P114).

As you know, the price of put options goes UP when the price of the underlying investment goes DOWN. And that's exactly what happened.

As yields increased on the T-notes, their prices plummeted...and the price of our put options soared. In just 35 days, our puts were up 260%!

Then the following alert went out to *RTA* readers:

 Action to take: Sell your December 2003 T-note 114 puts (TYZ3P114).

RTA readers were delighted! And you would have been, too.

Think about it. A \$5,000 investment in T-note puts could have put \$18,000 in your pocket in about one month!

Listen: Trading commodities is perhaps the single best way to get rich. And I believe that will be the case over the next 3-5 years.

And with my *RTA* system, anyone can do it. Are you ready to give *RTA* a risk-free try? Let me show you how to reserve your space in my Trading inner-circle...

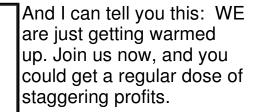

HOW TO GET STARTED

When Richard Dennis conducted a similar program, he ended up with 14 Turtle Traders. Over the first 5 years of trading, they generated over \$35 million in profits!

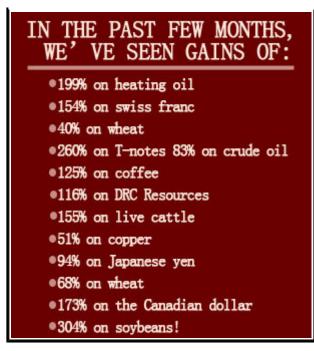

These folks were no different from you! Just everyday people who decided to give trading a try.

The key to their success? They stuck to a system. Period.

Can you do that? If so, you can start pulling in the incredible gains our *RTA* readers are already experiencing.

I urge you to give *RTA* a risk-

free try.

Simply click the "Subscribe Now" button below...

The moment I hear from you, your name will be rushed to "Profit Alert" status.

At least once per week, you'll receive an email or fax with an assessment of the markets. I'll explain what is happening - and I'll outline the opportunities that exist.

More importantly, I'll give you

a pick you can use to take advantage of the existing opportunity.

All you'll need to do is read your e-mail or fax, and then pass the trade on to your broker. If you don't have a broker who handles commodities, natural resources and foreign currencies, we can provide broker names for you to use.

You'll get weekly updates on our positions. And when it's time to take profits, I'll send you a specific alert telling you exactly what to do. Again, all you need do is pass it on to your broker.

The important thing is that you are willing to follow the system, stick to the recommended trades, and not improvise.

We won't get every recommended trade right. We'll miss some.

That's part of the system. But overall, sticking with the system will work!

Remember: In 2003, we made 34 trade recommendations. 24 were winners: 10 were losers. But our winning picks more than made up for the losers. If you add up the gains from the winners and subtract losses from the losers, the total gains for 2003 are over \$9,000!

If you had invested just \$5,000 in each trade, you could now have over \$100,000!

If you stick to the system, the losers won't matter. You will make money! But if you can't follow the system...you are better off not getting involved.

In addition to a weekly *RTA* alert, you'll also receive exclusive access to the subscriber-only, password-protected portion of the *Resource Trader Alert* Web site, featuring an easy-to-read PDF and HTML copies of the current issue, along with access to all back issues, and a portfolio for you to closely follow your picks (the portfolio is updated every 20 minutes).

But the best part is that you'll join the savvy trading professionals who understand that all it takes to get rich is a proven system...and the discipline to follow the trading rules.

SPECIAL RISK-FREE TRIAL

(Strictly Limited Offer: First Come - First Served. No

4/7/2005

Exceptions)

How much does RTA cost?

As you know, many trading services focusing on commodities and foreign currencies cost tens of thousands of dollars. I personally have heard of folks who pay upwards of \$50,000 per year for trading information.

RTA normally has an annual subscription price of \$2,000.

But if you reserve your **risk-free trial** today, you'll pay just \$995.

And because you will be enrolling in our special **risk-free trial** program, you can take advantage of an exclusive opportunity.

You can try *RTA* for just \$250 for a three-month trial.

And here's my personal pledge to you...

100% RISK-FREE PROPOSITION

Give *RTA* a **risk-free** try. If in the first 30 days you don't have the opportunity to double your money on at least one *RTA* trade or if the service just isn't for you, I'll refund every single penny of your subscription price.

Bottom line: If for any reason you aren't 100% delighted with *RTA* during the first month, just say the word. I'll send you a **FULL REFUND**. No questions asked.

I think that's fair. I take all the risk, so you can focus on following the system.

And there's one more thing I forgot to mention...

YOUR PERSONAL TRADING LIBRARY - "THE RESOURCE TRADER'S LIBRARY"

Although I will be providing you with simple, specific recommended trades to pass on to your broker...I also want to teach you **the** secrets to making serious money in commodities.

So, when you agree to give *RTA* a **risk-free** try, I'm going to send you a our special *Resource Traders Library*. It contains three valuable reports...with all the essentials every resource trader needs to begin making profits.

This volume contains 15 years of trading experience. You'll get to peak inside my brain, and find out why CNN, CNBC, Investor's Business Daily and CBS Market Watch call on me almost daily for the real scoop on the commodity markets. The *Resource Trader's Library* is an exclusive reference, for *RTA* readers ONLY!

REPORT #1:

RAKING IN HUGE PROFITS ON PENNY STOCKS

Considered by many to be the landmark guide to profitable natural resource plays, *Raking in Huge Profits on Penny*

Stocks gives you the insider's view on investing safely and soundly in small - and micro-cap companies. Easy to read, jam-packed with timely tips and timeless techniques, this special report is a must-read for serious investors intent on learning the true secrets of financial success.

REPORT #2: LEARNING TO PLAY OPTIONS LIKE A CHAMPION

When you say the word "options," even the so-called experts cringe. But if you know how to play the game, the fast profits can be yours. This unique report walks you through step-by-step on how to win with option plays, including the art of buying and selling at exactly the right time, so you can pocket those sweet profits. By the time you're finished reading this report, you will know exactly what to do to reap those profits...even when Wall Street is telling you to keep away!

REPORT #3:

TODAY'S HIDDEN BULL MARKET: GROWING RICH WITH NATURAL RESOURCES

I've especially designed this as a handy tool for investors new to natural resources. This report is vital to anyone who hopes to make his or her fortune the same way many of our readers have done. In this report you'll learn...the difference between gambling and speculating, why resources are poised to take off, how even small moves in commodities can translate into huge gains for you and more...One quick read of this library of **FREE** reports and you'll know more about commodities than 90% of other investors. Join us now, and I look forward to

hearing about your successes!

And listen: Even if you decide to cancel your *RTA* trial, the *Trader's Bible* reports are yours to keep...FREE...just for giving *RTA* a risk-free try.

I think that's fair, don't you?

Remember: You can try **RTA** risk-free. No need to make a decision now. Try **RTA** for one month...and then decide if it's right for you.

That's the smart thing to do, don't you think?

If you're interested, I urge you to act now. This is a *limited offer*. And we are putting a strict limit on the number of new *RTA* reader we will enroll.

First come, first served. No exceptions.

Trading is for people with the personal discipline to take action when opportunity arises. If you think this is for you, stake your claim now. Lock in your space. You can always change your mind...but once we close our doors, they may never open again.

Please act now. I'd hate to see you miss out.

Sincerely,

Kevin Kerr Editor, *Resource Trader Alert*

- P.S. Join *RTA* now as a **Risk-Free Trial Member**. If you are not delighted with *RTA* for any reason in the first 30 days, just say the word. I'll give you a full and cheerful refund. No questions asked.
- P.P.S. Now you can join *RTA* as a **risk-free** member for just \$250 for a quarter. And remember, the moment I hear from you, I'll rush you my **FREE** *Resource Trader's Library*. This library is reserved for *RTA* readers only. You'll understand why the moment you lay eyes on it. Please hurry, this is a limited offer. First come, first served. NO EXCEPTIONS.
